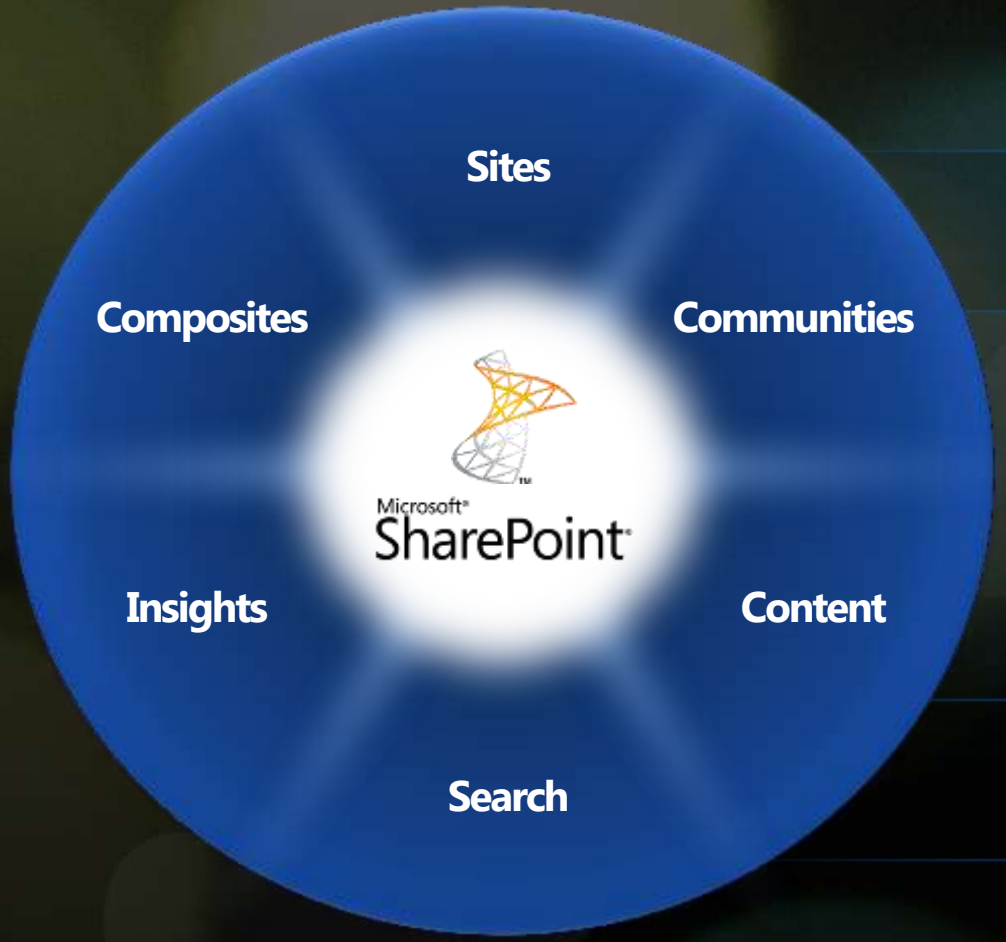
Inbound Faxing with Open Text Fax Server, RightFax Edition and Exchange 2010 Unified Messaging

Open Text Fax Server, RightFax Edition has a long and stellar history integrating fax server services with Microsoft Exchange Server. Fax Server is an ideal solution for fax over IP (FoIP) and desktop email faxing when integrating with Microsoft Exchange. The market leader in fax server software, Open Text Fax Server reduces costs, risks, and overhead associated with standalone fax machines and paper driven processes. Fax Server integrates with a wide range of applications and devices, and securely delivers documents to help organizations with compliance initiatives.

Inbound Fax with Exchange 2010 Unified Messaging (UM) and Open Text Fax Server

SharePoint Momentum



17K+ Customers, 100M Licenses

Leader in Gartner® Magic Quadrants, Forrester Wave™

Continued Platform and Application Innovation

4,000+ Partners Today across Collaboration, Content Management and Search

"SharePoint is the fastest-growing product in Microsoft's history... And this is just the beginning: SharePoint continues to grow as customers are just beginning to apply it to a wide array of business issues and processes."

- AMR RESEARCH, APRIL 22, 2008
