INVESTOR PRESENTATION

November 2026

DISCLAIMER

On November 12, 2026, the Company furnished to the SEC a Report on Form 6-K, in which it reported significant uncertainty regarding the Company's financial condition and prospects and substantial doubt about its ability to continue as a going concern in the ordinary course.

Information provided in this presentation may contain statements relating to current expectations, estimates, forecasts and projections about future events that are "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "goals," "intend," "seek," "anticipate," "believe," "could," "continue," "expect," "estimate," "may," "plan," "outlook," "future" and "project" and other similar expressions that predict, project or indicate future events or trends or that are not statements of historical matters. Such forward-looking statements include statements regarding the Company's goals and plans, intentions, expectations, assumptions, goals and beliefs regarding the Company's business. Actual results may differ materially from those projections and estimates due to various risks and uncertainties, both known or unknown. These factors include, but are not limited to: the effects of global and regional economy and geo-politics on the Company's business and operations including the length, duration and impact of the war in Israel, the Houthi's disruption to the movement of goods in the Red Sea and trade disruptions such as Turkey's decision not to trade with Israel; adverse economic conditions, including a potential downturn in home renovation and construction activity, that could reduce end-consumer demand for our products; the outcome of silicosis and other bodily injury claims, including appeals and post-trial remedies, and the availability of relevant insurance; governmental involvement in global trade, including antidumping and countervailing duty proceedings that may cause unforeseeable market changes, and other regulatory changes and requirements relating to the manufacturing and fabrication of our products; the outcome of our restructuring efforts, including the closure of the Sdot Yam and Richmond Hill facilities, the estimated closure costs and potential savings relating to such closures, and our ability to sell or sublease all or part of these facilities; our ability to effectively collaborate with our production business partners; our R&D and product introduction efforts, including market acceptance of new products and materials; managing constraints in the global supply chain and effectively procuring raw materials and goods as well as fluctuations in their price; our ability to mitigate the recently imposed U.S. customs tariffs; our ability to protect our brand, technology and intellectual property, as well as our freedom to operate; competitive pressures; disruptions to our information technology systems, fluctuations in currency exchange rates against the U.S. dollar; our ability to successfully integrate our acquisitions; our ability to meet ESG goals and targets; and other risks and uncertainties discussed under the sections "Risk Factors" and "Special Note Regarding Forward-Looking Statements and Risk Factor Summary" in our most recent annual report on Form 20-F filed with the Securities and Exchange Commission (the "SEC") on March 4, 2026, in our Report on Form 6-K furnished to the SEC on November 12, 2026, and in other documents filed by Caesarstone with the SEC, which are available free of charge at www.sec.gov. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

This presentation includes certain non-GAAP measures, which should all be considered in addition to, and not as a substitute for, comparable GAAP measures. A reconciliation of GAAP net income to adjusted EBITDA, reconciliation of GAAP gross profit to adjusted gross profit, and adjusted net income are provided below. To calculate revenues growth rates that exclude the impact of changes in foreign currency exchange rates, the Company converts actual reported results from local currency to U.S. dollars using constant foreign currency exchange rates in the current and comparable period. The Company provides these non-GAAP financial measures because it believes that they present a better measure of the Company s core business and management uses the non-GAAP measures internally to evaluate the Company s ongoing performance. Accordingly, the Company believes that they are useful to investors in enhancing an understanding of the Company s operating performance. However, these measures should not be considered as substitutes for GAAP measures and may be inconsistent with similar measures presented by other companies.

COMPANY OVERVIEW

Leading designer and producer of Premium engineered surfaces used in residential and commercial projects

High Quality Premium Products

Quartz countertop inventor and pioneer of Quartz category expansion via powerful Caesarstone® brand

Leveraging Caesarstone brand in high growth Porcelain category

+150

Models of Quartz, ICON and Porcelain

Strong Established, Global Premium Brand

Customer-centered approach built on culture of safety and high-quality reputation

Global Reach

+50

Countries

1

Porcelain production site in India

5

Strategic production partners

Foundation for Growth

~$397M

Revenues in 2025

~$58M

Net Cash Balance as of December 31, 2025

CSTE

Our stock is traded on NASDAQ

INVESTMENT HIGHLIGHTS

- Gross margin expanding on a lower cost base
- Restructuring actions substantially complete
- Asset-light production model in place
- Strong cash position with no financial debt
- Full crystalline silica-free portfolio in market
- Porcelain expanding addressable categories

OUR MISSION

To be the **leading choice for surfaces** all around the world

FROM COUNTERTOPS TO A SURFACES COMPANY

Multi material and multi application

NOW

Kitchen & Bath

Countertop

FUTURE

Surfaces

Evolution From Production-Oriented to Brand-Centric Business Model

caesarstone

Manufacturing Network	Shifted quartz production from in-house to external partner-based manufacturing to improve cost efficiency and maximize agility
Sales & Marketing	Sales and marketing-focused, brand-driven, robust global sales and distribution network
Research & Development	Innovation and technology-driven, design and trend-oriented, pioneering surface design

Strategic Evolution on Track to Reignite Long-Term Profitable Growth

STRATEGIC PILLARS FOR LONG TERM PROFITABLE GROWTH

1

Premium Surface Player

2

Operational Enhancement

3

Global Footprint

PREMIUM SURFACES OFFERING

Transforming materials into innovative surfaces with Caesarstone's engineering know-how, craftsmanship, and care.

ICON

Crystalline silica-free sustainable surfaces

Quartz

Highly durable and impact resistant

Porcelain

Innovative, heat, stain, scratch and UV resistant

R&D CAPABILITIES

One step ahead of the competition with our unique skills and decades of experience – Innovation, technology, design, research

+150

of Quartz, ICON, and Porcelain top-of-the-line portfolio

2012 — **1st in market** Veining technology **Supernatural collection**

2014 — **Unique concrete design** industrial trend

2017 — **1st in market** Revolutionary industrial technology **Metropolitan collection**

2020 — **1st in market** UV resistant **Outdoor collection**

2022 — **Porcelain collection** Advanced technology, functionality & design

2023 — **Mineral collection** Low Silica sustainable product

2024 — **Global player** to introduce Crystalline Silica Free & Recycled Materials product

PREMIUM MATERIAL COLLECTIONS

Design trendsetter powered by proprietary in-house technology

Classico

A classic, multi-color collection range

Metropolitan

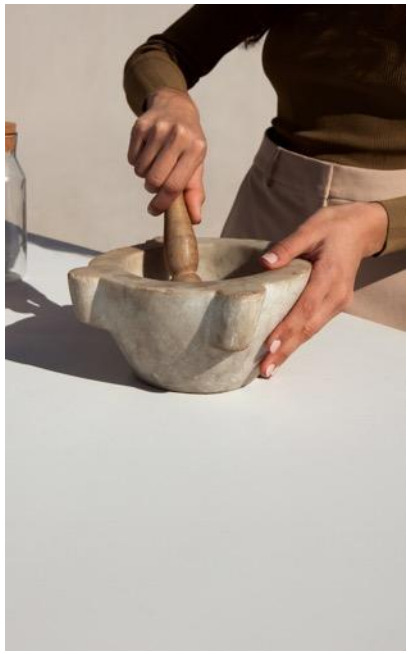
Inspired by the trend of raw industrial design

Supernatural

Luxurious marble & stone designs inspired by nature

Supernatural Ultra

Unique marble-inspired designs



Outdoor

Breakthrough proprietary technology

Consistent design groups across the entire material offering: **Quartz, ICON, Porcelain**

SUPERIOR VALUE PROPOSITION

Quartz / ICON & Porcelain

- Scratch Resistant
- Stain Resistant
- Heat Resistant
- Enduring Quality
- Easy to Clean
- Hygienic
- Nonporous
- Environmentally Friendly

Quartz/ ICON

- Durable
- Impact Resistant

Porcelain

- Extreme Heat Resistant
- Indoor & Outdoor
