Ingersoll Rand Reports Third Quarter 2026 Results

IRX-driven execution delivers robust organic orders and revenue growth

Third Quarter 2026 Highlights

(All comparisons against the third quarter of 2025 unless otherwise noted).

Performance driven by its competitive differentiator - Ingersoll Rand Execution Excellence (IRX):

- Reported orders of $2,345 million, up 21%, or up 18% organic
- Reported revenues of $2,065 million, up 6%, or up 4% organic[1]
- Reported net income attributable to Ingersoll Rand Inc. of $670 million, $1.73 per share
    - Adjusted net income attributable to Ingersoll Rand Inc.[1] of $415 million, $1.07 per share, up 24%
    - Adjusted net income attributable to Ingersoll Rand Inc.[1], excluding IEEPA Tariff Refunds, of $390 million, $1.01 per share, up 17%
- Adjusted EBITDA[1] of $584 million, up 7%, with a margin of 28.3%
    - Adjusted EBITDA[1], excluding IEEPA Tariff Refunds, of $552 million, up 1%, with a margin of 26.7%
- Reported operating cash flow of $648 million and free cash flow[1] of $623 million
- Liquidity of $3.9 billion as of September 30, 2026, including $1.3 billion of cash on hand and undrawn capacity of $2.6 billion under available credit facilities

DAVIDSON, N.C. - October 29, 2026 - Ingersoll Rand Inc. (NYSE: IR), a global provider of mission-critical flow creation and life science and industrial solutions, reported its results for the third quarter 2026.

"We delivered strong organic orders growth and revenue performance in the third quarter, reflecting an improved demand environment and continued execution by our teams," said Vicente Reynal, chairman and chief executive officer of Ingersoll Rand. "We saw healthy short-to-medium cycle and long cycle business activity across our geographies and end markets, and IRX continues to be a key differentiator with our teams remaining focused on controlling what we can control."

Third Quarter 2026 Segment Review

(All comparisons against the third quarter of 2025 unless otherwise noted.)

Industrial Technologies and Services Segment (IT&S): *Broad range of compressor, vacuum, blower, and air treatment solutions as well as industrial technologies including power tools and lifting equipment*

- ***Reported Orders*** of $1,898 million, up 25%, or up 22% organic
- ***Reported Revenues*** of $1,620 million, up 5%, or up 4% organic[1]
- ***Reported Segment Adjusted EBITDA*** of $476 million, up 6%
    - Segment Adjusted EBITDA, excluding IEEPA Tariff Refunds, of $451 million, up 1%
- ***Reported Segment Adjusted EBITDA Margin*** of 29.4%, up 40 basis points
    - Segment Adjusted EBITDA Margin, excluding IEEPA Tariff Refunds, of 27.8%, down 120 basis points
- IT&S delivered positive organic revenue growth in all regions in the quarter, with a book to bill of 1.17x. Organic orders growth was driven by a pickup in bookings of long-cycle projects, including a ~$195 million order for an engineered-to-order solution for large-scale, mission-critical infrastructure, as well as by continued strong momentum in the short-to-medium cycle business. Adjusted EBITDA margin excluding IEEPA Tariff Refunds was down 120 basis points year over year, primarily due to continued inflationary pressures, and up 100 basis points sequentially from Q2 2026.

[1] Non-GAAP measure (definitions and/or reconciliations in tables below)

Precision and Science Technologies Segment (P&ST): *Mission-critical precision liquid, gas, air, and powder handling technologies for life sciences and industrial applications as well as aerospace and defense applications*

- ***Reported Orders*** of $448 million, up 7%, or up 4% organic
- ***Reported Revenues*** of $445 million, up 7%, or up 6% organic[1]
- ***Reported Segment Adjusted EBITDA*** of $153 million, up 20%
    - Segment Adjusted EBITDA, excluding IEEPA Tariff Refunds, of $145 million, up 14%
- ***Reported Segment Adjusted EBITDA Margin*** of 34.3%, up 350 basis points
    - Segment Adjusted EBITDA Margin, excluding IEEPA Tariff Refunds, of 32.6%, up 180 basis points
- P&ST delivered strong orders and revenue in the third quarter, with a book-to-bill of 1.01x. Life Sciences was particularly strong in the quarter, where orders and revenue were up low double digits. Adjusted EBITDA margin excluding IEEPA Tariff Refunds finished at 32.6%, which was up 180 basis points year over year, and up 110 basis points sequentially from Q2 2026.

Balance Sheet and Cash Flow

Ingersoll Rand remains in a strong financial position with ample liquidity of $3.9 billion. On a reported basis, the Company generated $648 million of cash flow from operating activities and invested $25 million in capital expenditures, resulting in free cash flow[1] of $623 million, compared to cash flow from operating activities of $355 million and free cash flow[1] of $326 million in the prior year period. Net debt to Adjusted EBITDA leverage[2] was 1.6x for the third quarter, which was a decrease of 0.2x as compared to the third quarter of the prior year.

The Board also authorized a $2 billion increase to the Company's share repurchase program. This increase is incremental to the $313 million remaining under the existing authorization. The increased authorization provides the Company with the flexibility for additional opportunistic share repurchases over the short and medium term.

These authorizations do not have any expiration date and allow Ingersoll Rand to repurchase shares from time to time, in the open market at prevailing market prices (including through Rule 10b5-1 plans), in privately negotiated transactions, a combination thereof, or through other transactions. The actual timing, number, manner, and value of any shares repurchased will depend on several factors, including the market price of the Company's stock, general market and economic conditions, the Company's liquidity requirements, applicable legal requirements, and other business considerations.

Consistent with our comprehensive capital allocation strategy led by M&A, in the third quarter of 2026, Ingersoll Rand deployed $90 million to M&A, including for the previously announced acquisition of Lone Star Blower, Inc. The Company also returned approximately $358 million to shareholders through $350 million in share repurchases and $8 million through its quarterly dividend payment in the third quarter.

The Company also expects to close on the acquisition of a U.S.-based pump manufacturer on October 30, 2026.

ILC Dover Transaction Update

Ingersoll Rand reached a series of settlement agreements with insurance carriers and other third parties related to the ILC Dover transaction for gross recoveries of approximately $425.1 million, inclusive of the $187.5 million recovery announced in July 2026. $25.0 million was collected in Q2 2026, and $162.5 million was collected in Q3 2026. The Company expects to collect the remainder of the recoveries in the fourth quarter.

[2] Calculated as Net Debt to LTM Adjusted EBITDA

2026 Guidance[3,4,5,6]

Ingersoll Rand is updating its full-year 2026 guidance.

Guidance Metric	Full Year 2026	Full Year Assumptions
Revenue Growth[3]	5.5% to 7.0%	• Currency[5]: ~+1% • M&A[6]: ~+2.5% • Organic growth[4]: +2% to +3.5%
Adjusted EBITDA[4] excl. Q3 IEEPA Tariff Refunds	$2,130M - $2,190M	• Corporate costs: ~$170M
Adjusted EPS[4] excl. Q3 IEEPA Tariff Refunds	$3.58 to $3.70	• Net interest expense: ~$230M • Adjusted tax rate: ~20% • Share count: ~390.5M
Free Cash Flow to Adj. Net Income conversion[4]	100%+	• Expect to deliver 100%+ FCF conversion including the impact of ILC Dover transaction-related recoveries; excluding these recoveries, expected FCF conversion remains unchanged at ~95% • CAPEX: ~2% of sales

Reconciliations of non-GAAP measures related to full-year 2026 guidance have not been provided due to the unreasonable efforts it would take to provide such reconciliations due to the high variability, complexity and uncertainty with respect to forecasting and quantifying certain amounts that are necessary for such reconciliations, including net income (loss) and adjustments that could be made for acquisitions-related expenses, restructuring and other business transformation costs, gains or losses on foreign currency exchange and the timing and magnitude of other amounts in the reconciliation of historic numbers. For the same reasons, we are unable to address the probable significance of the unavailable information, which could have a potentially unpredictable, and potentially significant, impact on our future GAAP financial results.

Conference Call

Ingersoll Rand will host a live earnings conference call to discuss the third quarter results on Friday, October 30, 2026 at 8:00 a.m. (Eastern Time). To participate in the call, please dial +1-833-461-5787, domestically, or +1-585-542-9983, internationally, and use Meeting ID # 973 748 334. A real-time audio webcast of the presentation can be accessed via the Events and Presentations section of the Ingersoll Rand Investor Relations website (https://investors.irco.com), where related materials will be posted prior to the conference call. A replay of the webcast will be available after conclusion of the conference and can be accessed on the Ingersoll Rand Investor Relations website.

Forward-Looking Statements

This news release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements related to the expectations of Ingersoll Rand Inc. (the "Company" or "Ingersoll Rand"), regarding the performance of its business, its financial results, its liquidity and capital resources and other non-historical statements. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "forecast," "outlook," "target," "endeavor," "seek," "predict," "intend," "strategy," "plan," "may," "could," "should," "will," "would," "will be," "on track to" "will continue," "will likely result," "guidance" or the negative thereof or variations thereon

[3] All revenue outlook commentary expressed in percentages and based on growth as compared to 2025

[4] Non-GAAP measure (definitions in tables below)

[5] Based on September 2026 FX rates; does not include impact of FX on M&A

[6] Reflects revenue from all completed and closed M&A transactions as of October 30, 2026

or similar terminology generally intended to identify forward-looking statements. All statements other than historical facts are forward-looking statements.

These forward-looking statements are based on Ingersoll Rand's current expectations and are subject to risks and uncertainties, which may cause actual results to differ materially from these current expectations. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) adverse impact on our operations and financial performance due to geopolitical tensions, natural disaster, catastrophe, global pandemics, cyber events, or other events outside of our control; (2) unexpected costs, charges or expenses resulting from completed and proposed business combinations; (3) uncertainty of the expected financial performance of the Company; (4) failure to realize the anticipated benefits of completed and proposed business combinations; (5) the ability of the Company to implement its business strategy; (6) difficulties and delays in achieving revenue and cost synergies; (7) inability of the Company to retain and hire key personnel; (8) evolving legal, regulatory and tax regimes; (9) changes in general economic and/or industry specific conditions; (10) actions by third parties, including government agencies; and (11) other risk factors detailed in Ingersoll Rand's most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC"), as such factors may be updated from time to time in its periodic filings with the SEC, which are available on the SEC's website at http://www.sec.gov. The foregoing list of important factors is not exclusive.

Any forward-looking statements speak only as of the date of this release. Ingersoll Rand undertakes no obligation to update any forward-looking statements, whether as a result of new information or developments, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.

About Ingersoll Rand Inc.
Ingersoll Rand Inc. (NYSE: IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to Making Life Better for our employees, customers, shareholders, and planet. Customers lean on us for exceptional performance and durability in mission-critical flow creation and life science and industrial solutions. Supported by over 80+ respected brands, our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity, and efficiency. For more information, visit IRCO.com.

Non-U.S. GAAP Measures of Financial Performance

In addition to consolidated GAAP financial measures, Ingersoll Rand reviews various non-GAAP financial measures, including "Organic Revenue Growth/(Decline)," "Adjusted EBITDA," "Adjusted EBITDA Margin," "Adjusted Net Income," "Adjusted Net Income Attributable to Ingersoll Rand, Inc.," "Adjusted Diluted EPS," "Free Cash Flow" and "Free Cash Flow Margin."

Ingersoll Rand believes Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., and Adjusted Diluted EPS are helpful supplemental measures to assist management and investors in evaluating the Company's operating results as they exclude certain items that are unusual in nature or whose fluctuation from period to period do not necessarily correspond to changes in the operations of Ingersoll Rand's business. Ingersoll Rand believes Organic Revenue Growth/(Decline) is a helpful supplemental measure to assist management and investors in evaluating the Company's operating results as it excludes the impact of foreign currency and acquisitions on revenue growth. Adjusted EBITDA represents net income before interest, taxes, depreciation, amortization and certain non-cash, non-recurring and other adjustment items. Adjusted EBITDA Margin is defined as Adjusted EBITDA divided by Revenue. Adjusted Net Income is defined as net income including interest, depreciation and amortization of non-acquisition related intangible assets and excluding other items used to calculate Adjusted EBITDA and further adjusted for the tax effect of these exclusions. Adjusted Net Income Attributable to Ingersoll Rand, Inc., is defined as Adjusted Net Income less net income attributable to noncontrolling interest. Adjusted Diluted EPS is defined as Adjusted Net Income divided by Adjusted Diluted Average Shares Outstanding. Organic Revenue Growth/(Decline) is defined as As Reported Revenue growth less the impacts of Foreign Currency and Acquisitions. Ingersoll Rand believes that the adjustments applied in presenting Adjusted EBITDA, Adjusted Net Income, and Adjusted Net Income Attributable to Ingersoll Rand, Inc. are appropriate to provide additional information to investors about certain material non-cash items and about non-recurring items that the Company does not expect to continue at the same level in the future. Incrementals/Decrementals are defined as the change in Adjusted EBITDA versus the prior year period divided by the change in revenue versus the prior year period.

Ingersoll Rand uses Free Cash Flow and Free Cash Flow Margin to review the liquidity of its operations. Ingersoll Rand measures Free Cash Flow as cash flows from operating activities less capital expenditures. Free Cash Flow Margin is defined as Free Cash Flow divided by Revenue. Ingersoll Rand believes Free Cash Flow and Free Cash Flow Margin are useful supplemental financial measures for management and investors in assessing the Company's ability to pursue business opportunities and investments and to service its debt. Free Cash Flow is not a measure of our liquidity under GAAP and should not be considered as an alternative to cash flows from operating activities.

Management and Ingersoll Rand's board of directors regularly use these measures as tools in evaluating the Company's operating and financial performance and in establishing discretionary annual compensation. Such measures are provided in addition to and should not be considered to be a substitute for, or superior to, the comparable measures under GAAP. In addition, Ingersoll Rand believes that Organic Revenue Growth/(Decline), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., Adjusted Diluted EPS, Incrementals/ Decrementals, Free Cash Flow and Free Cash Flow Margin are frequently used by investors and other interested parties in the evaluation of issuers, many of which also present Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., Adjusted Diluted EPS, Free Cash Flow and Free Cash Flow Margin when reporting their results in an effort to facilitate an understanding of their operating and financial results and liquidity.

Organic Revenue Growth/(Decline), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., Adjusted Diluted EPS, Free Cash Flow and Free Cash Flow Margin should not be considered as alternatives to revenue growth, net income, diluted earnings per share or any other performance measure derived in accordance with GAAP, or as alternatives to cash flow from operating activities as a measure of our liquidity. Organic Revenue Growth/(Decline), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., Adjusted Diluted EPS, Free Cash Flow and Free Cash Flow Margin have limitations as analytical tools, and you should not consider such measures either in isolation or as substitutes for analyzing Ingersoll Rand's results as reported under GAAP.

Reconciliations of Organic Revenue Growth/(Decline), Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Net Income Attributable to Ingersoll Rand, Inc., Adjusted Diluted EPS, Free Cash Flow and Free Cash Flow Margin to their most comparable U.S. GAAP financial metrics for historical periods are presented in the tables below.

Reconciliations of non-GAAP measures related to full-year 2026 guidance have not been provided due to the unreasonable efforts it would take to provide such reconciliations due to the high variability, complexity and uncertainty with respect to forecasting and quantifying certain amounts that are necessary for such reconciliations, including net income (loss) and adjustments that could be made for acquisitions-related expenses, restructuring and other business transformation costs, gains or losses on foreign currency exchange and the timing and magnitude of other amounts in the reconciliation of historic numbers. For the same reasons, we are unable to address the probable significance of the unavailable information, which could have a potentially unpredictable, and potentially significant, impact on our future GAAP financial results.

Due to rounding, numbers presented throughout this release may not sum precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Organic growth	4.2%	5.5%
Impact of foreign currency	(0.2%)	(0.4%)
Impact of acquisitions	2.5%	2.2%
Total orders and revenue growth	6.5%	7.3%

[1] Organic growth/(decline), impact of foreign currency, and impact of acquisitions are non-GAAP measures. References to "impact of acquisitions" refer to GAAP sales from acquired businesses recorded prior to the first anniversary of the acquisition. The portion of GAAP revenue attributable to currency translation is calculated as the difference between (a) the period-to-period change in revenue (excluding acquisition sales) and (b) the period-to-period change in revenue (excluding acquisition sales) after applying prior year foreign exchange rates to the current year period.
