Q1 PERFORMANCE

ATTRACTION GROWTH PROFILE

With over $18 billion in revenue, CDW is a clear IT market leader, yet holds only 5 percent share of its $360 billion addressable market in the United States, the United Kingdom and Canada.

CDW’s full suite of offerings includes discrete hardware and software products, services and complex technology solutions such as cloud computing, virtualization, collaboration, security, mobility and data center optimization, with more than 100,000 products from over 1,000 leading and emerging partners.

With its scale and scope, performance-driven culture and unique value proposition, CDW is well-positioned to continue to profitably capture share and drive superior returns.

1. 2015 has not been updated to reflect the adoption of Topic 606.
2. Non-GAAP earnings per diluted share.
3. IDC and CDW internal estimates as of January 2020.
4. For year ended December 31, 2019.
6. Calculated on Average Daily Sales. There were 64 and 63 selling days for the three months ended March 31, 2020 and 2019, respectively.
7. GAAP earnings per share was $1.16 in Q1’20 and $1.02 in Q1’19; GAAP operating income was $246MM in Q1’20 and $229MM in Q1’19.
AN ATTRACTIVE BUSINESS MODEL

CDW sits between customers and vendor partners, creating unique value for both

Customers get access to a broad selection of multi-branded solutions and deeply technical resources, including highly-skilled, extensively certified specialists and engineers. CDW is an extension of its customers’ IT staff.

Partners get access to CDW’s more than 250,000 customers and augment their product offerings with a wide range of value-added IT and distribution services. CDW is an extension of its partners’ sales and marketing resources.

Being close to customers and partners, CDW gains unique insight into the needs and requirements of both groups. As a result, both customers and vendor partners increasingly rely on the indirect sales channel.

Indirect increased ~300 bps since 2007

Indirect increased ~300 bps since 2007

SUSTAINABLE COMPETITIVE ADVANTAGES

CDW goes to market with a series of sustainable competitive advantages developed during 35+ years of delivering technology to customers. Each is powerful on its own, but the combination of these interconnected advantages makes it hard for others to replicate CDW’s success.

### SUPERIOR VALUE
- Scale and Scope
- Highly Engaged Performance - Driven Culture

### DIFFERENTIATED GROWTH
- Highly-Skilled Sales and Service Capabilities
- Robust Distribution Capabilities

### STRONG ROWC
- Multinational Footprint with International Capabilities
- Deep and Experienced Management

1. IDC/CDW Market Model, December 31,2019
PROVEN ABILITY TO EVOLVE WITH THE MARKET

CDW executes against a three-part strategy

1. Capture share and acquire new customers
2. Enhance capabilities in high-growth solution areas
3. Expand services capabilities

A TRACK RECORD OF EVOLVING WITH IT TRENDS

The more technology changes, the greater the opportunity for CDW to deliver value to its customers and vendor partners. CDW continually evolves to take advantage of the accelerating changes in IT. CDW has successfully transformed from primarily a technology products seller to an integrated technology solutions provider, ensuring it can continue to help customers navigate an increasingly complex IT market.

Today, CDW’s solutions include design, implementation and ongoing management and support. Continuous transformation, which includes the addition of field sellers, technology specialists and advanced services engineers and extensive services capabilities, means that CDW is uniquely positioned to capitalize on the key technology drivers of today and tomorrow.

Balanced portfolio offers multiple growth drivers

CDW has balance in its customers, products and technologies. CDW customer channels provide focus, deep knowledge and customer intimacy across both corporate and public sectors. By partnering with more than 1,000 leading and emerging brands, CDW delivers more than 100,000 products.

CDW provides integrated IT solutions in more than 150 countries for customers with primary locations in the United States, the United Kingdom and Canada, which furthers the company’s ability to meet customers’ multi-national needs and enhances its diverse portfolio of channels.

CDW’s multi-branded, technology agnostic solutions and multisector customer reach provide multiple avenues for growth and help CDW mitigate the impact of product or technology cycles and macro-economic headwinds.

FOCUSED ON DRIVING SUPERIOR RETURNS

CDW will continue to apply the cash flow created by its strong operating results to fund a dividend in the first quarter of 2020 (up 28.8% from the prior year period to $0.38 per share quarterly). Future dividends will be subject to Board of Director approval.

Returned more than $3.1B since 2013

1. Based on a rolling three-month average, as of December 31, 2009 and 2019.
2. From IPO through March 31, 2020
CAPITAL ALLOCATION PRIORITIES

- Reassessed capital priorities to enhance liquidity position
- Remain confident in liquidity position with $1.2 billion in cash plus revolver availability

DISCLOSURES

FORWARD-LOOKING STATEMENTS: Statements in this document that are not statements of historical fact are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including without limitation statements regarding the future financial performance, capital allocation priorities and growth prospects of CDW. These forward-looking statements are subject to risks and uncertainties that may cause actual results or events to differ materially from those described in such statements. These risks and uncertainties include, among others, the COVID-19 pandemic and actions taken in response thereto and the associated impact on our business, results of operations, cash flows, financial condition and liquidity; global and regional economic and political conditions; decreases in spending on technology products and services; CDW's relationships with vendor partners and terms of their agreements; continued innovations in hardware, software and services offerings by CDW's vendor partners; substantial competition that could reduce CDW's market share; potential interruptions of the flow of products from suppliers; CDW's level of indebtedness and ability to generate sufficient cash to service such indebtedness; restrictions imposed by agreements relating to CDW's indebtedness on its operations and liquidity; changes in, or the discontinuation of, CDW's share repurchase program or dividend payments; the continuing development, maintenance and operation of CDW's information technology systems; potential breaches of data security and failure to protect our information technology systems from cybersecurity threats; potential failures to comply with Public segment contracts or applicable laws and regulations; potential failures to provide high-quality services to CDW's customers; potential losses of any key personnel; potential adverse occurrences at one of CDW's primary facilities or customer data centers; increases in the cost of commercial delivery services or disruptions of those services; CDW’s exposure to accounts receivable and inventory risks; future acquisitions or alliances; fluctuations in CDW’s operating results; fluctuations in foreign currency; current and future legal proceedings and audits; changes in laws, including regulations or interpretations thereof; and other risk factors or uncertainties identified from time to time in CDW’s filings with the SEC. Although CDW believes that its plans, intentions and other expectations reflected in or suggested by such forward-looking statements are reasonable, it can give no assurance that it will achieve those plans, intentions or expectations. Reference is made to a more complete discussion of forward-looking statements and applicable risks contained under the captions “Forward-Looking Statements” and “Risk Factors” in CDW’s Annual Report on Form 10-K for the year ended December 31, 2019 and subsequent filings with the SEC, including in its Prospectus Supplement filed with the SEC on April 17, 2020. CDW undertakes no obligation to update or revise any of its forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.

NON-GAAP FINANCIAL INFORMATION: Non-GAAP operating income excludes, among other things, charges related to the amortization of acquisition-related intangible assets, equity-based compensation and associated payroll taxes, and acquisition and integration expenses. These adjustments are described in the financial statement tables on investor.cdw.com ("Non-GAAP Reconciliations"). Non-GAAP operating income margin is defined as Non-GAAP operating income as a percentage of Net sales. Non-GAAP net income excludes, among other things, charges related to the amortization of acquisition-related intangible assets, equity-based compensation and the associated tax effects, acquisition and integration expenses. Net sales growth on a constant currency basis is defined as Net sales growth excluding the impact of foreign currency translation on Net sales compared to the prior period. Non-GAAP operating income, Non-GAAP operating income margin, Non-GAAP net income, Non-GAAP net income per diluted share and Net sales growth on a constant currency basis are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial position that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. CDW believes these measures provide analysts, investors and management with helpful information regarding the underlying operating performance of CDW's business, as they remove the impact of items that management believes are not reflective of underlying operating performance. CDW uses these measures to evaluate period-over-period performance as management believes they provide a more comparable measure of the underlying business. Our annual targets are provided on a non-GAAP basis because certain reconciling items are dependent on future events that either cannot be controlled, such as currency impacts or interest rates, or reliably predicted because they are not part of CDW's routine activities, such as refinancing activities or acquisition and integration expenses. The Non-GAAP Reconciliations include a reconciliation of non-GAAP financial measures to the applicable most comparable GAAP financial measures. Non-GAAP measures used by CDW may differ from similar measures used by other companies, even when similar terms are used to identify such measures.
