PROXY STATEMENT
FISCAL YEAR END 2002 ANNUAL MEETING OF SHAREHOLDERS

F5 Networks, Inc. (the "Company") is furnishing this Proxy Statement and the enclosed proxy in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Shareholders to be held on February 13, 2003, at 10:00 am, Pacific Standard Time at F5 Networks, Inc., 401 Elliott Avenue West, Seattle, Washington 98119, and at any adjournments thereof (the "Annual Meeting"). These materials are being mailed to shareholders on or about January 8, 2003.

Only holders of the Company's common stock (the "Common Stock") as of the close of business on December 6, 2002 (the "Record Date") are entitled to vote at the meeting. As of the Record Date, there were 26,028,285 shares of Common Stock outstanding.

A majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Shareholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of shareholders present at the meeting for purposes of determining whether a quorum is present.

Each shareholder of record is entitled to one vote at the Annual Meeting for each share of Common Stock they hold on the Record Date. Shareholders may vote their shares by using the proxy card enclosed with this Proxy Statement. All proxy cards received by the Company which are properly signed and that have not been revoked will be voted in accordance with their instructions. If a signed proxy card is received which does not specify a vote or an abstention, the shares represented by that proxy card will be voted for the nominees to the Board of Directors listed on the proxy card and FOR approval of the increase in authorized shares under the Company's 1998 Equity Incentive Plan. The Company is not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this Proxy Statement and the accompanying Notice of Annual Meeting of Shareholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the person named as proxy to vote the shares represented by the proxy card in her discretion.

Under Washington law and the Company's Second Amended and Restated Articles of Incorporation and Bylaws, if a quorum exists at the meeting, the two nominees for director who receive the greatest number of votes cast will be elected to the Board of Directors. Abstentions and broker non-votes will have no impact on the election of directors since they have not been cast in favor of or against any nominee. Under the Company's Bylaws, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote shall be required to approve the amendment to the Company's 1998 Equity Incentive Plan. Abstentions and broker non-votes can have the effect of preventing approval of this proposal where the number of affirmative votes, though a majority of the votes cast, does not constitute a majority of the shares entitled present and entitled to vote at the Annual Meeting.

A shareholder may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to the Corporate Secretary of the Company at 401 Elliott Avenue West, Seattle, Washington 98119 before the Annual Meeting or at the Annual Meeting or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the shareholder actually votes in person at the meeting.

The Board of Directors of the Company is soliciting the proxies accompanying this Proxy Statement. The Company will pay all of the costs of this proxy solicitation. In addition to mail solicitation, officers, directors, and employees of the Company may solicit proxies personally or by telephone, without receiving additional

compensation. The Company, if requested, will pay brokers, banks and other fiduciaries that hold shares of Common Stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to shareholders.

At present, the Class II directors will hold office until the Company's annual meeting for fiscal year end 2003 and the Class III directors will hold office until the Company's annual meeting for fiscal year end 2004. All non-employee directors who also serve on a board committee receive options to purchase 15,000 shares of Common Stock on the day of the Company's annual meeting. These options will be fully vested and exercisable on the date of grant, and will have an exercise price equal to the closing price of the Company stock on the date of grant.

Certain Relationships and Transactions

The Company has entered into indemnification agreements with the Company's directors and certain officers for the indemnification of and advancement of expenses to these persons to the fullest extent permitted by law. The Company also intends to enter into these agreements with the Company's future directors and certain future officers.

In October, 2000, the Company extended a loan to Jeff Pancottine, the Company's Senior Vice President of Marketing and Business Development, and his wife, in the principal amount of \$350,000, in order to facilitate the purchase of a residence in the Seattle area. This loan is evidenced by a promissory note, the principal of which is payable in three equal installments, together with accrued interest, on March 31, 2002, March 31, 2003, and March 31, 2004, or immediately upon the sale of Mr. Pancottine's residence or termination of Mr. Pancottine's employment. Payments due under the note were extended for a period of one year, as allowed per the terms of the note. Interest accrues on the loan at the rate of 6% per annum.

On June 26, 2001, the Company entered into a Common Stock and Warrant Purchase Agreement with Nokia Finance International B.V. ("NFI"), which then became one of the Company's 5% shareholders. Under this Agreement, the Company issued and sold to NFI (i) 2,466,421 shares of Common Stock and (ii) warrants (the "Warrants") to purchase additional shares of Common Stock, in exchange for total proceeds of \$34.9 million. The Warrants allow NFI to purchase additional shares of Common Stock to increase its ownership percentage in the Company (up to a maximum of one share less than 20%) during the ten business day period beginning on December 31, 2002, at an exercise price equal to the average 10-day closing price before the start of such period. As part of this transaction, the Company and NFI also entered into an OEM Software License Agreement and a Technology Development Agreement. Under these

Table of Contents

agreements NFI may resell the Company's full suite of Internet traffic management products, and work with the Company to identify and pursue a number of joint technology development initiatives. The Company also entered into an Investor's Rights Agreement with NFI. Among other things, this agreement grants to NFI certain preemptive and registration rights. This agreement also permitted NFI to designate a representative to be appointed to the Company's Board of Directors and requires the Company to nominate an NFI designee for election by the Company's shareholders so long as NFI holds at least 5% of the Company's Common Stock. Kenny Frerichs is NFI's designee to the Company's Board of Directors. The Investor's Rights Agreement will terminate on the latest of (i) the second anniversary of the Investor's Rights Agreement, (ii) the termination of the OEM Agreement, or (iii) the termination of the Technology Agreement.

The Company believes that the foregoing agreements are in the Company's best interest and were made on terms no less favorable to the Company than could have been obtained from unaffiliated third parties. All future transactions between the Company and any of the Company's officers, directors or principal shareholders will be approved by a majority of the independent and disinterested members of the Board of Directors, will be on terms no less favorable to the Company than could be obtained from unaffiliated third parties and will be in connection with the Company's bona fide business purposes.

Change of Control Arrangements

Upon certain changes in control of the Company as provided under the Non-Qualified Stock Option Agreements for John McAdam and Steve Coburn, the vesting of all outstanding stock awards under these agreements and the time during which these awards may be exercised will be accelerated and the awards terminated if not exercised before the change in control. Changes in control as provided under the Non-Qualified Stock Option Agreement for Jeff Pancottine will cause such acceleration of vesting and time for exercise for 50% of the stock awards under this agreement.

Upon certain changes in control of the Company as provided under the 1998 Equity Incentive Plan, all outstanding stock awards under this plan will either be assumed or substituted by the surviving entity. If the surviving entity determines not to assume or substitute these awards, then with respect to persons whose service with the Company or an affiliate of the Company has not terminated before the change in control, the vesting of 50% of these stock awards and the time during which these awards may be exercised will be accelerated and the awards terminated if not exercised before the change in control.

Upon certain changes of control of the Company as provided under the Amended and Restated 1996 Stock Option Plan, or in the case of a dividend in excess of 10% of the then fair market value of the Company's stock, all outstanding options under this plan will automatically become fully vested and exercisable for the duration of the option term.

Section 16(a) Beneficial Ownership Reporting Compliance

Under SEC rules, the Company's directors, executive officers and beneficial owners of more than 10% of any class of equity security are required to file periodic reports of their ownership, and changes in that ownership, with the SEC. Based solely on its review of copies of these reports and representations of such reporting persons, the Company believes during fiscal 2002, such SEC filing requirements were satisfied with the following exceptions: Joann Reiter filed one late transaction.

Report of Compensation Committee

The Compensation Committee is comprised of three members of the Board of Directors who are not employees of the Company. It is responsible for setting and monitoring policies governing compensation of executive officers. The Compensation Committee reviews the performance and compensation levels for executive officers and sets salary and bonus levels and option grants under the Company's stock option plans. The objectives of the committee are to correlate executive compensation with the Company's business objectives and performance, and to enable the Company to attract, retain and reward executive officers who contribute to its long-term success.

Compensation Philosophy

The Company's philosophy concerning compensation for executive officers is to directly link their compensation to continuous improvements in the Company's financial performance. The key elements of this philosophy are as follows:

1. provide a competitive total compensation package that enables the Company to attract, retain and reward executive officers who contribute to the Company's success;
2. provide incentive compensation that is directly linked to the performance of the Company; and
3. establish incentives that relate to the Company's annual and long-term business strategies and objectives.

Consistent with this philosophy, the compensation package offered to executive officers includes: (i) base salary, (ii) incentive compensation, and (iii) long-term, equity incentives in the form of stock options.

Salary

The Compensation Committee consists of three outside directors. Its function is to annually assess the performance of and determine salary and incentive compensation for the President and Chief Executive Officer. The Compensation Committee also reviews and approves annual salary and incentive compensation increases for other executive officers recommended by the President and Chief Executive Officer.

In setting Mr. McAdam's compensation, the Committee considers compensation levels for similar positions at public companies of similar size and revenue levels, in similar industries, and with similar technological and marketing challenges, operational complexities and long-term performance and growth objectives. The Committee reviews salary surveys and publicly available information on compensation levels in performing this analysis. Over the past two years, the Committee also considered the Company's success in meeting its operational, financial and strategic goals under extremely difficult economic conditions, Mr. McAdam's success in reworking the Company's business model to focus on enterprise customers and the strength of the executive team built by Mr. McAdam. Mr. McAdam began his employment with the Company in July 2000 with a salary and bonus comparable to his then-current compensation level with his former employer. His base salary was increased by 6% in fiscal 2001, and by 5% in fiscal 2002, consistent with base salary increases for the rest of the Company's executive officers in those years.

In determining executive officer salaries, the Compensation Committee reviews recommendations from Mr. McAdam, which are based on information from salary surveys covering technology companies in the Seattle and other comparable areas, individual performance levels and the Company's financial condition. The Compensation Committee also considers incentive compensation based on the Company's financial performance.

Incentive Compensation

To reinforce the attainment of Company goals, the Committee believes that a significant portion of the annual compensation of the executive officers should be in the form of incentive compensation. The Committee believes that incentives based on attaining established financial targets, properly aligns the interests of the executive officers with the interests of the stockholders. Bonuses for Mr. McAdam and the

Table of Contents

other executive officers are awarded quarterly based on achievement of the Company's top and bottom line objectives, with accelerators for exceeding these objectives. Mr. McAdam's bonus is set at 75% of his base salary.

Stock Options

The Compensation Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for the Company's shareholders and periodically approves stock option grants under the Company's employee stock option plans. Stock options are typically granted at the current market price and will only have value if the Company's stock price increases over the exercise price.

The Compensation Committee reviews and approves recommendations made by the Chief Executive Officer on stock option grants for other executive officers. These recommendations for options are based on the relative position and responsibilities of each executive officer and previous and expected contributions of each officer to the Company's success. Generally option grants vest over a two or four-year period. Upon joining the Company, Mr. McAdam was given options in an amount comparable to those given to other non-founder executives hired to perform similar functions in comparable companies. This initial option grant was subsequently cancelled at his request. Mr. McAdam has been awarded several additional option grants in amounts considered by the Compensation Committee to be appropriate considering Mr. McAdam's performance and market conditions.

Under the Omnibus Budget Reconciliation Act of 1993, the federal income tax deduction for certain types of compensation paid to the chief executive officer and four other most highly compensated executive officers of publicly held companies is limited to \$1 million per officer per fiscal year unless such compensation meets certain requirements. The Compensation Committee is aware of this limitation and had decided that it is not appropriate at this time to limit the Company's discretion to design the cash compensation packages payable to the Company's executive officers.

Report of the Audit Committee

The Audit Committee consists of three outside directors, each of whom, in the judgment of the Board, is an "independent director" as defined in the listing standards for The Nasdaq Stock Market. The Audit Committee acts pursuant to a written charter that has been adopted by the Board of Directors.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including internal control systems. PricewaterhouseCoopers, LLP, the Company's independent auditors, is responsible for expressing an opinion as to the conformity of the audited financial statements with generally accepted accounting principles.

In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed, with the independent auditors, their judgments as to the quality and acceptability of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. In addition, the Audit Committee has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of non-audit services with the independence of the auditors.

Table of Contents

The Audit Committee has discussed and reviewed with the auditors all matters required to be discussed under the Statement on Auditing Standards No. 61 *Communication with Audit Committees*. The Audit Committee has received from the auditors a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), discussed with the auditors any relationships that may impact their objectivity and independence, and satisfied itself as to the auditors' independence.

The Audit Committee discussed with the independent auditors the overall scope and plans for the annual audit. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their consideration of the Company's internal controls in connection with their audit, and the overall quality of the Company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended September 30, 2002 for filing with the Securities and Exchange Commission. The Audit Committee has also selected the independent auditors for the fiscal year ending September 30, 2003.

PROPOSAL 1: ELECTION OF DIRECTORS

At the Annual Meeting, the shareholders will vote on the election of two Class I directors to serve for three-year terms until the annual meeting of shareholders for fiscal year end 2005 and until their successors are elected and qualified. The Board of Directors has unanimously nominated Karl D. Guelich and Keith D. Grinstein for election to the Board of Directors as Class I directors. The nominees have indicated that they are willing and able to serve as directors. If either nominee becomes unable or unwilling to serve, the accompanying proxy may be voted for the election of such other person as shall be designated by the Board of Directors. The proxies being solicited will be voted for no more than two nominees at the Annual Meeting. The directors will be elected by a plurality of the votes cast, in person or by proxy, at the Annual Meeting, assuming a quorum is present. Shareholders do not have cumulative voting rights in the election of directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THE ELECTION OF BOTH NOMINEES.

Unless otherwise instructed, it is the intention of the persons named in the accompanying proxy card to vote shares represented by properly executed proxy cards for the election of Messrs. Guelich and Grinstein.

PROPOSAL 2: AMENDMENT TO THE 1998 EQUITY INCENTIVE PLAN

At the Annual Meeting, the shareholders of the Company will be asked to approve an amendment to the 1998 Equity Incentive Plan (the “1998 Plan”) which, if approved, will increase the number of shares of Common Stock available for purchase under the 1998 Plan by 1,000,000 shares, to an aggregate of 6,300,000 shares. The affirmative vote of the holders of a majority of the outstanding shares of the Common Stock of the Company represented and voting at the Annual Meeting is required to adopt the amendment to the 1998 Plan.

The Board of Directors believes that the 1998 Plan has contributed to strengthening the incentive of participating employees to achieve the objectives of the Company and its shareholders by encouraging employees to acquire a greater proprietary interest in the Company. The Board of Directors believes that additional shares must be reserved for use under the 1998 Plan to enable the Company to attract and retain key employees through the granting of options under the 1998 Plan. The proposed increase in the number of shares under the 1998 Plan is not required or intended to cover awards previously made under the 1998 Plan. As such, no new plan benefits have been granted to date, and future awards under the 1998 Plan are not yet determinable.

Description of the 1998 Plan

The following description of the 1998 Plan is a summary and so is qualified by reference to the complete text of the 1998 Plan, which is available through EDGAR or upon request of the Company.

General. The 1998 Plan provides for grants of incentive stock options (“ISOs”) that qualify under Section 422 of the Internal Revenue Code of 1986, as amended (the “Code”), to employees, including officers, of F5 Networks or any affiliate of F5 Networks, and nonstatutory stock options (“NSOs”), restricted stock purchase awards (“Restricted Stock Awards”), and stock bonuses to employees, including officers, or directors of and consultants to F5 Networks or any affiliate of F5 Networks. As of November 15, 2002, the Company had approximately 469 employees, 5 non-employee directors and 5 consultants who would be eligible to participate in the 1998 Plan.

The 1998 Plan was adopted by the Board of Directors on October 22, 1998 and the Company’s shareholders approved it on November 12, 1998. Initially, 800,000 shares were reserved for issuance under the 1998 Plan. In April 1999, 1,500,000 shares were reserved for issuance under the 1998 Plan, which increase was approved by shareholders in May 1999. On November 9, 1999, 1,000,000 shares were reserved for issuance under the plan, which increase was approved by the shareholders on February 17, 2000. On January 18, 2001, 2,000,000 were reserved for issuance under the plan, which increase was approved by the shareholders on April 20, 2001.

Table of Contents

A total of 1,095,000 options were granted to certain executive officers on their hire dates under individual option plans. Of these options, 645,000 have been cancelled and terminated. As of December 6, 2002, the Company had issued 891,792 shares upon the exercise of options granted under the 1998 Plan and options to purchase 3,380,743 shares were outstanding with 1,027,465 shares reserved for future grants or purchases under the 1998 Plan. The 1998 Plan will terminate on October 21, 2008, unless terminated sooner by the Board. Shares subject to stock awards that have lapsed or terminated, without having been exercised in full, may again become available for the grant of awards under the 1998 Plan.

The Board of Directors or a committee appointed by the Board administers the 1998 Plan. The Board of Directors has the authority to determine which recipients and what types of awards are to be granted, including the exercise price, number of shares subject to the award and the exercisability of the awards. Any award may be granted either alone or in tandem with other awards.

Options. Options granted under the 1998 Plan may be ISOs or NSOs. The term of a stock option granted under the 1998 Plan generally may not exceed 10 years. The Board of Directors determines the exercise price of options granted under the 1998 Plan. However, in the case of an ISO, the exercise price cannot be less than 100% of the fair market value of the Company's Common Stock on the date of grant and, in the case of an NSO, the exercise price cannot be less than 50% of the fair market value of the Company's Common Stock on the date of grant. Options granted under the 1998 Plan vest at the rate specified in the option agreement.

Except as expressly provided by the terms of an NSO agreement, an optionee may not transfer options other than by will or the laws of descent or distribution, provided that an optionee may designate a beneficiary who may exercise the option following the optionee's death. An optionee whose relationship with the Company or any related corporation ceases for any reason, except by death or permanent and total disability, generally may exercise vested options up to three months following cessation. Vested options may generally be exercised for up to 12 months after an optionee's relationship with F5 Networks or any affiliate of F5 Networks ceases due to disability and for generally up to 18 months after the relationship with F5 Networks or any affiliate of F5 Networks ceases due to death. However, options may terminate or expire sooner or later as may be determined by the Board of Directors and set forth in the option agreement.

No ISO may be granted to any person who, at the time of the grant, owns, or is deemed to own, stock possessing more than 10% of the total combined voting power of F5 Networks or any affiliate of F5 Networks, unless the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant and the term of the option does not exceed five years from the date of grant. In addition, the aggregate fair market value, determined at the time of grant, of the shares of the Company's Common Stock with respect to which ISOs are exercisable for the first time by an optionee during any calendar year under the 1998 Plan and all other stock plans of the Company and its affiliates may not exceed \$100,000. The options, or portions of the options, which exceed this limit are treated as NSOs.

No person may be granted options under the 1998 Plan covering an aggregate of more than 200,000 shares of Common Stock in any calendar year. The Company believes that with this limitation and other provisions of the 1998 Plan, options granted under the 1998 Plan that have an exercise price equal to or greater than the fair market value of the stock subject to the option on the date of grant will generate "qualified performance-based compensation" within the meaning of section 162(m) of the Internal Revenue Code and will therefore not be subject to the \$1,000,000 cap on deductibility for federal income tax purposes of certain compensation payments in excess of \$1,000,000. See "Certain Federal Income Tax Consequences" below.

Restricted Stock Awards and Stock Bonuses. Restricted Stock Awards granted under the 1998 Plan may be granted pursuant to a repurchase option in the Company's favor in accordance with a vesting schedule determined by the Board. The purchase price of these awards will be at least 50% of the fair market value of the Company's Common Stock on the date of grant. Stock bonuses may be awarded in consideration for past services. Rights under a stock bonus or restricted stock purchase agreement may not be transferred other than by will or by the laws of descent and distribution unless the stock bonus or restricted stock purchase agreement specifically provides for transferability.

Table of Contents

Change of Control Provisions. Upon certain changes in control of the Company as provided under the 1998 Plan, the surviving entity will either assume or substitute all outstanding stock awards under the 1998 Plan. If the surviving entity determines not to assume or substitute these awards, then with respect to persons whose service with F5 Networks or an affiliate of F5 Networks has not terminated before the change in control, the vesting of 50% of these stock awards (and the time during which these awards may be exercised) will accelerate and the awards terminated if not exercised before the change in control.

Certain Federal Income Tax Consequences

THE FOLLOWING SUMMARY OF FEDERAL INCOME TAX CONSEQUENCES IS BASED UPON EXISTING STATUTES, REGULATIONS AND INTERPRETATIONS THEREOF. THE APPLICABLE RULES ARE COMPLEX, AND INCOME TAX CONSEQUENCES MAY VARY DEPENDING UPON THE PARTICULAR CIRCUMSTANCES OF EACH PLAN PARTICIPANT. THIS PROXY STATEMENT DESCRIBES FEDERAL INCOME TAX CONSEQUENCES OF GENERAL APPLICABILITY, BUT DOES NOT PURPORT TO DESCRIBE PARTICULAR CONSEQUENCES TO EACH INDIVIDUAL PLAN PARTICIPANT, OR FOREIGN, STATE OR LOCAL INCOME TAX CONSEQUENCES, WHICH MAY DIFFER FROM THE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES.

Incentive Stock Options

Awards and Exercise of Options. ISOs are intended to constitute “incentive stock options” within the meaning of Section 422 of the Code. ISOs may be granted only to employees of the Company (including directors who are also employees). The recipient of an Option (the “Optionee”) does not recognize taxable income upon either the grant or exercise of an ISO. However, the excess of the fair market value of the shares purchased upon exercise over the Option exercise price (the “Option Spread”) is includable in the Optionee’s “alternative minimum taxable income” (“AMTI”) for purposes of the alternative minimum tax (“AMT”). The Option Spread is generally measured on the date of exercise and is includable in AMTI in the year of exercise. Special rules regarding the time of AMTI inclusion may apply for shares subject to a “substantial risk of forfeiture” (including, in the case of each person subject to the reporting requirements of Section 16 of the Exchange Act, any limitations on resale of shares imposed under Section 16(b) of the Exchange Act). In addition, when stock is acquired subject to a “substantial risk of forfeiture”, an Optionee’s holding period for purposes of determining whether any capital gain or loss on sale is long-term will generally not begin until the restriction lapses or the Optionee files an election under Section 83(b) of the Code (a “Section 83(b) Election”).

Sale of Option Shares. If an Optionee holds the shares purchased under an ISO for at least two years from the date the ISO was granted and for at least one year from the date such shares were transferred to the Optionee, any gain from a sale of the shares other than to the Company should be taxable as capital gain. Under these circumstances, the Company would not be entitled to a tax deduction at the time the ISO was exercised or at the time the stock was sold. If an Optionee were to dispose of stock acquired pursuant to an ISO before the end of the required holding periods (a “Disqualifying Disposition”), the amount by which the market value of the stock at the time the ISO was exercised exceeded the exercise price (or, if less, the amount of gain realized on the sale) would be taxable as ordinary income, and the Company would be entitled to a corresponding tax deduction. Such income is subject to information reporting requirements and may become subject to withholding. Gain from a Disqualifying Disposition in excess of the amount required to be recognized as ordinary income is considered capital gain. If stock is sold to the Company rather than to a third party, the sale may not produce capital gain or loss. A sale of shares to the Company will constitute a redemption of such shares, which could be taxable as a dividend unless the redemption is “not essentially equivalent to a dividend” within the meaning of the Code.

Exercise with Stock. If an Optionee pays for ISO shares with shares of the Company acquired under an ISO or a qualified employee stock purchase plan (“statutory option stock”), the tender of shares is a Disqualifying Disposition of the statutory option stock if the above described (or other applicable) holding periods respecting those shares have not been satisfied. If the holding periods with respect to the statutory

Table of Contents

option stock are satisfied, or the shares were not acquired under a statutory stock option of the Company, then any appreciation in value of the surrendered shares is not taxable upon surrender. Special basis and holding period rules apply where previously-owned stock is used to exercise an ISO.

Nonqualified Stock Options

Award and Exercises of Options. An Optionee is not taxable upon the award of a NSO. Federal income tax consequences upon exercise will depend upon whether the shares thereby acquired are subject to a “substantial risk of forfeiture.” If the shares are not subject to a substantial risk of forfeiture, or if they are so restricted and the Optionee files a Section 83(b) Election with respect to the shares, the Optionee will have ordinary income at the time of exercise measured by the Option Spread on the exercise date. The Optionee’s tax basis in the shares will be their fair market value on the date of exercise, and the holding period for purposes of determining whether capital gain or loss upon sale is long-term or short-term also will begin on that date. If the shares are subject to a substantial risk of forfeiture and no Section 83(b) Election is filed, the Optionee will not be taxable upon exercise, but instead will have ordinary income, on the date the stock is no longer subject to a substantial risk of forfeiture, in an amount equal to the difference between the amount paid for the shares under the Option and their fair market value on such date; in addition, the Optionee’s holding period will begin on that date.

Whether or not the shares are subject to a substantial risk of forfeiture, the amount of ordinary income taxable to an Optionee who was an employee at the time of grant constitutes “supplemental wages” subject to withholding of income and employment taxes by the Company, and the Company receives a corresponding income tax deduction.

Sale of Option Shares. Upon sale, other than to the Company, of shares acquired under a NSO, an Optionee generally will recognize capital gain or loss to the extent of the difference between the sale price and the Optionee’s tax basis in the shares, which will be long-term gain or loss if the employee’s holding period in the shares is more than one year. If stock is sold to the Company rather than to a third party, the sale may not produce capital gain or loss. A sale of shares to the Company will constitute a redemption of such shares, which could be taxable as a dividend unless the redemption is “not essentially equivalent to a dividend” within the meaning of the Code.

Exercise with Stock. If an Optionee tenders Common Stock (other than statutory option stock — see above) to pay all or part of the exercise price of a NSO, the Optionee will not have a taxable gain or deductible loss on the surrendered shares. Instead, shares acquired upon exercise that are equal in value to the fair market value of the shares surrendered in payment are treated as if they had been substituted for the surrendered shares, taking as their basis and holding period the basis and holding period that the Optionee had in the surrendered shares. The additional shares are treated as newly acquired with a zero basis.

If the surrendered shares are statutory option stock as described above under “Incentive Stock Options”, with respect to which the applicable holding period requirements for favorable income tax treatment have not expired, then the newly acquired shares substituted for the statutory option shares should remain subject to the federal income tax rules governing the surrendered shares, but the surrender should not constitute a “disqualifying disposition” of the surrendered stock.

Section 162(m) Limitations

Section 162(m) of the Code limits to \$1,000,000 per person the amount that the Company may deduct for compensation paid to any of its most highly compensated executive officers in any year after 1993. Under current regulations, compensation received through the exercise of an option will not be subject to the \$1,000,000 limit if the option and the plan meet certain requirements. One such requirement is that the plan must state the maximum number of shares with respect to which option may be granted to any employee during a specified period. Accordingly, the 1998 Plan provides that no participant, with certain exceptions, may be granted options to acquire more than 200,000 shares in any year.

THE BOARD RECOMMENDS A VOTE “FOR” APPROVAL OF THIS PROPOSAL.

Unless instructed otherwise, it is the intention of the persons named in the accompanying proxy card to vote shares represented by properly executed proxy cards or electronic ballots for this proposal.

OTHER MATTERS

Auditors

The independent accounting firm of PricewaterhouseCoopers LLP has acted as the Company’s auditor since inception and has been selected as the auditor for the current year. Audit Fees

The aggregate fees billed by PricewaterhouseCoopers LLP for professional services rendered for the audit of the Company’s annual financial statements for the year 2002 and reviews of the financial statements included in the Company’s Forms 10-Q for the year 2002 were \$197,202.

Financial Information Systems Design and Implementation Fees

PricewaterhouseCoopers LLP provided no professional services of this nature to the Company in the year 2002.
