Gateway Fiber Celebrates Ribbon Cutting at Fargo Theater, Launching New Era of Connectivity in Fargo

2025-07-10

FARGO, N.D.--(BUSINESS WIRE)-- Gateway Fiber marked a milestone today with a celebratory ribbon cutting in front of the historic Fargo Theater, officially launching its high-speed fiber internet service for Fargo's residents and businesses. The event, attended by community leaders, residents, business owners, and local ambassadors, reinforced Gateway Fiber's commitment to bringing next-generation connectivity and community partnership to the heart of Fargo.

"Today's ribbon cutting is more than just the start of service. It's

Gateway Fiber and local residents celebrated the start of service in Fargo, ND, with a ribbon cutting in front of the historic Fargo Theater on July 8, 2025.

a celebration of Fargo's future," said John Meyer, Chief Customer Officer at Gateway Fiber. "We're proud to invest in this community and provide fast, reliable internet that empowers families, businesses, and schools."

The ceremony, hosted in collaboration with the Fargo-Moorhead-West Fargo Chamber of Commerce, welcomed guests to learn about Gateway Fiber's offerings, connect with company representatives, and enjoy refreshments in the iconic downtown setting. Attendees

received Gateway swag and had the opportunity to discuss the benefits of fiber internet with the Gateway team and local ambassadors.

"Our mission is to deliver straightforward pricing, industry-leading support, and customer experience that sets a new standard for Fargo," Meyer added. "We look forward to being a trusted partner as Fargo grows and thrives in the digital age."

Gateway Fiber's 100% fiber-optic network offers symmetrical speeds and advanced security features, enabling seamless remote work, online learning, streaming, and gaming. The company's expansion into Fargo is part of a broader commitment to enrich communities through technology and local engagement.

With network construction already underway, Gateway Fiber expects to connect the first customers later this year. Residents and businesses interested in signing up or learning more about Gateway Fiber's services can visit gatewayfiber.com.

About Gateway Fiber

Gateway Fiber is on a mission to positively impact communities through a better internet. As data requirements for residences and businesses continue to expand, Gateway is creating a leading, national fiber-to-the-home platform

to serve this critical unmet need. Gateway provides faster, more reliable internet with a simple pricing model and industry-leading customer service. In February, Gateway Fiber announced a strategic merger with E-Rate leader WANRack and its residential subsidiary, KWIKOM Communications. The merger creates a more powerful, scalable organization with enhanced growth opportunities for its employees, while expanding the combined organization's offerings to meet the diverse internet needs of commercial, small and medium-sized businesses (SMB), and enterprise clients.
