Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995 This press release contains forward-looking statements, including statements about the financial conditions, results of operations and earnings and revenue outlook for Open Text Corporation (Open Text or the Company). Forward-looking statements in this press release are not promises or guarantees of future performance and are subject to risks and uncertainties that could cause the Company's actual results to differ materially from those anticipated. The Company cautions you not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The results included in this press release are unaudited and therefore are deemed to be forward-looking statements. Factors that may cause actual results or earnings to differ materially from such forward-looking statements include, among others, the following: (i) the future performance, financial and otherwise, of Open Text; (ii) the ability of Open Text to bring new products to market and to increase profits; (iii) the strength of the Company's product development pipeline; (iv) the Company's growth and profitability prospects; (v) the estimated size and growth prospects of the ECM market; (vi) the Company's competitive position in the ECM market and its ability to take advantage of future opportunities in this market; (vii) the benefits of the Company's products to be realized by customers; and (viii) the demand for the Company s product and the extent of deployment of the Company's products in the ECM marketplace. Forward-looking statements may also include, without limitation, any statement relating to future events, conditions or circumstances. The risks and uncertainties that may affect forward-looking statements include, but are not limited to: (i) integration of acquisitions and related restructuring efforts, including the quantum of restructuring charges and the timing thereof; (ii) the possibility that the Company may be unable to meet its future reporting requirements under the Securities Exchange Act of 1934, as amended, and the rules promulgated thereunder; (iii) the risks associated with bringing new products to market; (iv) fluctuations in currency exchange rates; (v) delays in the purchasing decisions of the Company s customers; (vi) the competition the Company faces in its industry and/or marketplace; (vii) the possibility of technical, logistical or planning issues in connection with the deployment of the Company s products or services; (viii) the continuous commitment of the Company's customers; (ix) demand for the Company's products; and (x) other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission (SEC), including the Company's Annual Report on Form 10-K for the year ended June 30, 2006. Forward-looking statements are based on management's beliefs and opinions at the time the statements are made, and the Company does not undertake any obligation to update forward-looking statements should circumstances or management's beliefs or opinions change.

Notes

(1) Based on comparison of historic revenue figures publicly disseminated by companies in the Enterprise Content Management (ECM) sector. All dollar amounts in this press release are in US Dollars unless otherwise indicated.

(2) In addition to these GAAP and adjusted results the Company has provided financial information that adds-back maintenance revenue eliminated due to the impact of purchase accounting entries on deferred revenue and the impact of interest expense. Management believes that the furnishing of these adjustments provide a consistent basis for comparison between quarters and help to more accurately reflect Open Text s underlying operating results.

Three months ended March 31, 2007

GAAP Revenue	\$ 156.1
Maintenance revenue adjustment for purchase accounting	3.5
Non-GAAP revenue	\$ 159.6
Adjusted Income	\$ 17.5

Maintenance revenue adjustment for purchase accounting	3.5
Net Interest Expense	7.6
Income tax effect (@ 32%)	(3.5)
Non-GAAP net income	\$ 25.1
Adjusted EPS - Diluted	\$ 0.34
Non GAAP Adjustments (net of tax)	
- Maintenance	0.05
- Interest	0.10
Non-US GAAP EPS	\$ 0.49

(3) Use of US Non-GAAP financial measures In addition to reporting financial results in accordance with US GAAP, the Company provides certain financial measures that are not in accordance with US GAAP. These non-US GAAP financial measures have certain limitations in that they do not have a standardized meaning; and as a result, the Company's definition may be different from similar non-US GAAP financial measures used by other companies and/or analysts and may differ from period to period. Thus, it may be more difficult to compare the Company's financial performance to that of other companies. However, the Company's management compensates for these limitations by providing the relevant disclosure of the items excluded in the calculation of adjusted net income and adjusted EPS, both in its reconciliation to US GAAP net income and EPS and in its consolidated financial statements, all of which should be considered when evaluating the Company's results. The Company uses the financial measures adjusted EPS and adjusted net income to supplement the information provided in its consolidated financial statements, which are presented in accordance with US GAAP. The presentation of adjusted net income and adjusted EPS is not meant to be a substitute for net income or net income per share presented in accordance with US GAAP, but rather should be evaluated in conjunction with and as a supplement to such US GAAP measures. Open Text strongly encourages investors to review its financial information in its entirety and not to rely on a single financial measure. The Company therefore believes that despite these limitations, it is appropriate to supplement the disclosure of the US GAAP measures with certain non-US GAAP measures for the reasons set forth below. Adjusted net income and adjusted EPS are calculated as net income or net income per share on a diluted basis, excluding, where applicable, the amortization of acquired intangible assets, other income (expense), share-based compensation and restructuring, all net of tax. The Company's management believes that the presentation of adjusted net income and adjusted EPS provides useful information to investors because it excludes non-operational charges. The use of the term non-operational charge is defined by the Company as those that do not impact operating decisions taken by the Company's management and is based upon the way the Company's management evaluates the performance of the Company's business for use in the Company's internal reports. In the course of such evaluation and for the purpose of making operating decisions, the Company's management excludes certain items from its analysis, such as amortization of acquired intangibles, restructuring costs, other income/expense, share-based compensation and the taxation impact of these items. These items are excluded based upon the manner in which management evaluates the business of the Company and are not excluded in the sense that they may be used under US GAAP.

The Company believes the provision of supplemental non-US GAAP measures allows investors to evaluate the operational and financial performance of the Company's core business using the same evaluation measures that management uses. The provision of supplemental non-US GAAP measures is a useful indication of Open Text's performance or expected performance of recurring operations and it facilitates period-to-period comparison of operating performance. As a result, the Company considers it appropriate and reasonable to provide, in addition to US GAAP measures, supplementary non-US GAAP financial measures that exclude certain items from the presentation of its financial results in this press release. The following charts provide an unaudited reconciliation of US GAAP based financial measures to non-US GAAP based financial measures referred to in this press release:

Reconciliation (unaudited) of US GAAP based Net Income to Adjusted Net Income (in millions of US dollars) for the quarters ended March 31, 2007 and 2006:
