Enterprise World 2013
Executive Briefing

Engineering Update

Safe Harbor

Certain statements in this presentation, including statements about the focus of Open Text Corporation (“OpenText” or “the Company”) in Fiscal 2014 on growth in earnings and cash flows, creating value through investments in broader EIM capabilities, distribution, the Company’s presence in the cloud and in growth markets, its financial conditions, results of operations and earnings, and statement regarding the proposed transaction between the Company and GXS, leadership in the EIM industry and B2B data integration services, creation of the largest information exchange trading network in the world, the expected size, scope and growth of the GXS’ and the Company’s combined operations and benefits of the transaction, and other matters, are considered forward-looking statements or information under applicable securities laws. Such forward-looking statements involve known and unknown risks, uncertainties and other factors and assumptions that may cause the actual results, performance or achievements to differ materially. Such factors include, but are not limited to, (i) the future performance, financial and otherwise, of OpenText; (ii) the ability of OpenText to bring new products to market and to increase sales; (iii) the strength of the Company's product development pipeline; (iv) the Company's growth and profitability prospects; (v) the estimated size and growth prospects of the EIM market; (vi) the Company's competitive position in the EIM market and its ability to take advantage of future opportunities in this market; (vii) the benefits of the Company's products to be realized by customers; (viii) the demand for the Company's product and the extent of deployment of the company's products in the EIM marketplace; (ix) the Company's financial condition and capital requirements; and (x) all the risks related to the proposed GXS transaction and the proposed financing of the transaction set forth in the relevant press release announcing the transaction and the related Current Reports on Form 8-K filed by the Company. The risks and uncertainties that may affect forward-looking statements include, but are not limited to: (i) integration of acquisitions and related restructuring efforts, including the quantum of restructuring charges and the timing thereof; (ii) the possibility that the Company may be unable to meet its future reporting requirements under the Securities Exchange Act of 1934, as amended, and the rules promulgated there under; (iii) the risks associated with bringing new products to market; (iv) fluctuations in currency exchange rates; (v) delays in the purchasing decisions of the Company's customers; (vi) the competition the Company faces in its industry and/or marketplace; (vii) the possibility of technical, logistical or planning issues in connection with the deployment of the Company's products or services; (viii) the continuous commitment of the Company's customers; and (ix) demand for the Company's products. For additional information with respect to risks and other factors which could occur, see the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, recently filed Current Reports on Form 8-K, and other securities filings with the SEC and other securities regulators. Readers are cautioned not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Unless otherwise required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Experience Suite enables enterprises to invent traditional enterprise applications and digital experiences.

Experience Suite

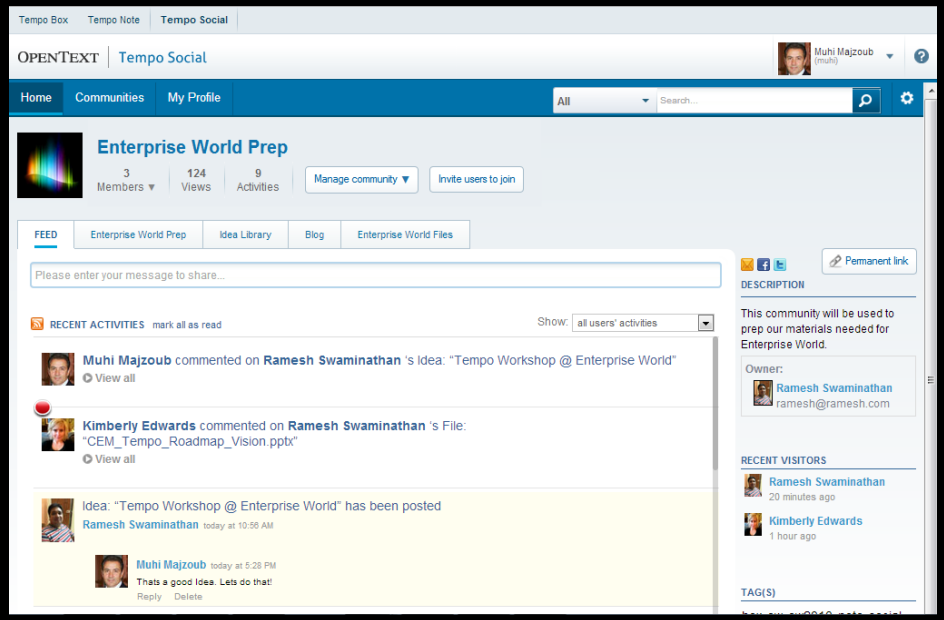

Experience Suite 10.5 (GA: March 2014)

New Innovations

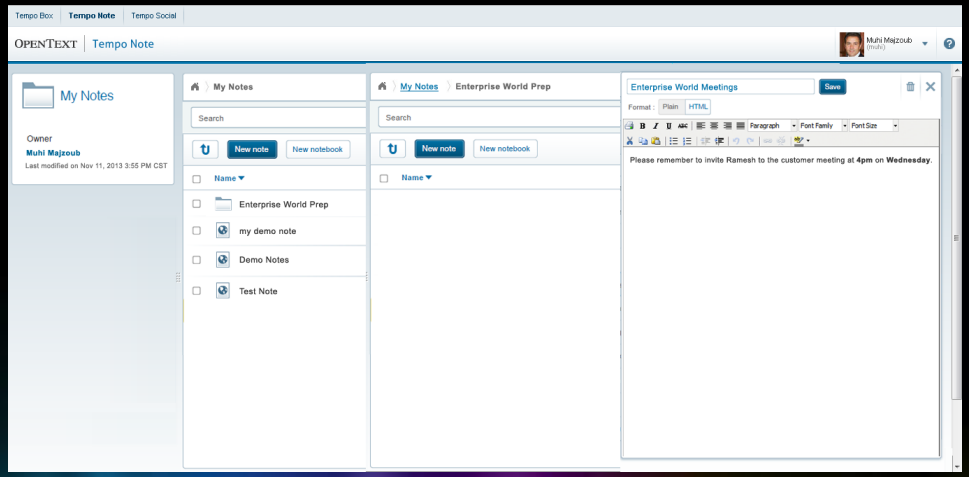

- Omni-Channel Publishing
- Adaptive Media and Content Management
- Restful API for Application Development
- Common UI and Seamless Integration
- Intra-Pillar Integrations

Experience Suite

Tempo Social

Tempo Note

OpenText Information Exchange Suite is the infrastructure for secure, any-to-any communications both within and across enterprises.

The Information Exchange Suite provides enterprises with a "**single voice**" to ensure secure, reliable exchange of information from any user, on any device.

Information Exchange Suite

Information Exchange Suite 10.5

(GA: November 2013)

New Innovations

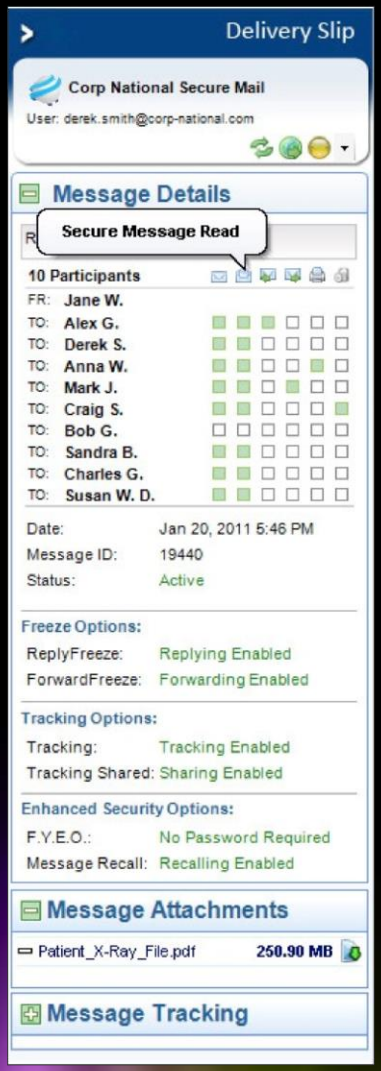

- Cloud Based Secure Messaging
- Seamless User Experience
- Data Loss Prevention
- Real-Time Audit Trail
- Desktop, Mobile and Systems Integration

Information Exchange Suite

Our first release towards the vision...

- Integrated suite of messages starting with Secure Mail & Secure MFT
- Run your business faster and more efficiently in the Cloud
- Secure messaging with anyone, anywhere, in any format

OpenText **Discovery Suite** unlocks hidden knowledge within the enterprise.

The Discovery Suite empowers employees to find, understand, and leverage enterprise information.

Discovery Suite

Discovery Suite 10.5 (GA: March 2014)

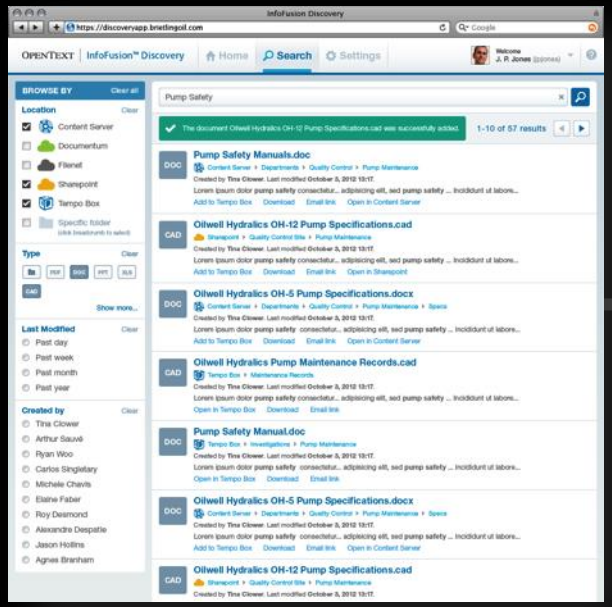

New Innovations

- InfoFusion
- Semantic Search
- Connector Framework
- Content Analytics
- Rapid Application Development

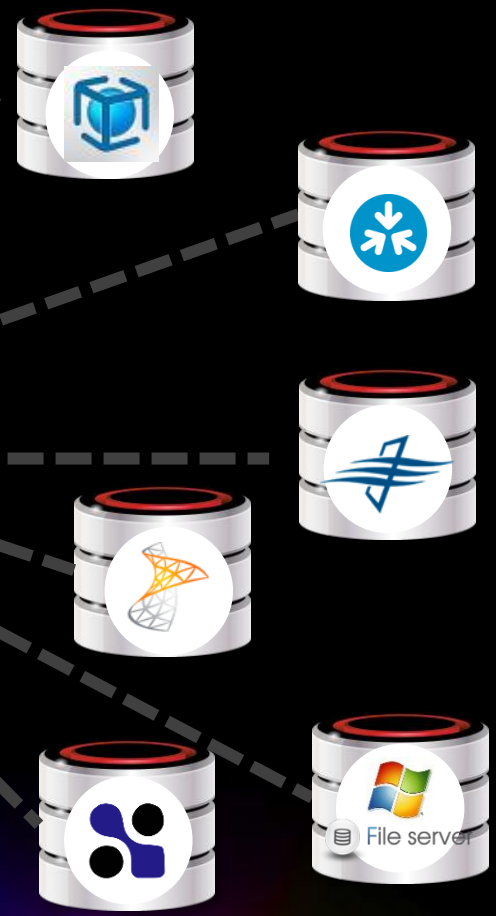

Discovery Suite

InfoFusion

Gain Access
Search & Discover
Enrich MetaData
Single Sign on
Move information

An Application Gateway to build, deploy and manage apps.

A single, common RESTful API to leverage OpenText EIM.

A Developer Network with community, educational and support resources

AppWorks (GA: November 2013)

New Innovations

- App Development Platform
- Common API for all OpenText products
- Developer Network
- Centralized Integrated Services
- Write-once run on all client technologies

Case Management Application

Experience Suite
RESTful Service

Process Suite
RESTful Service

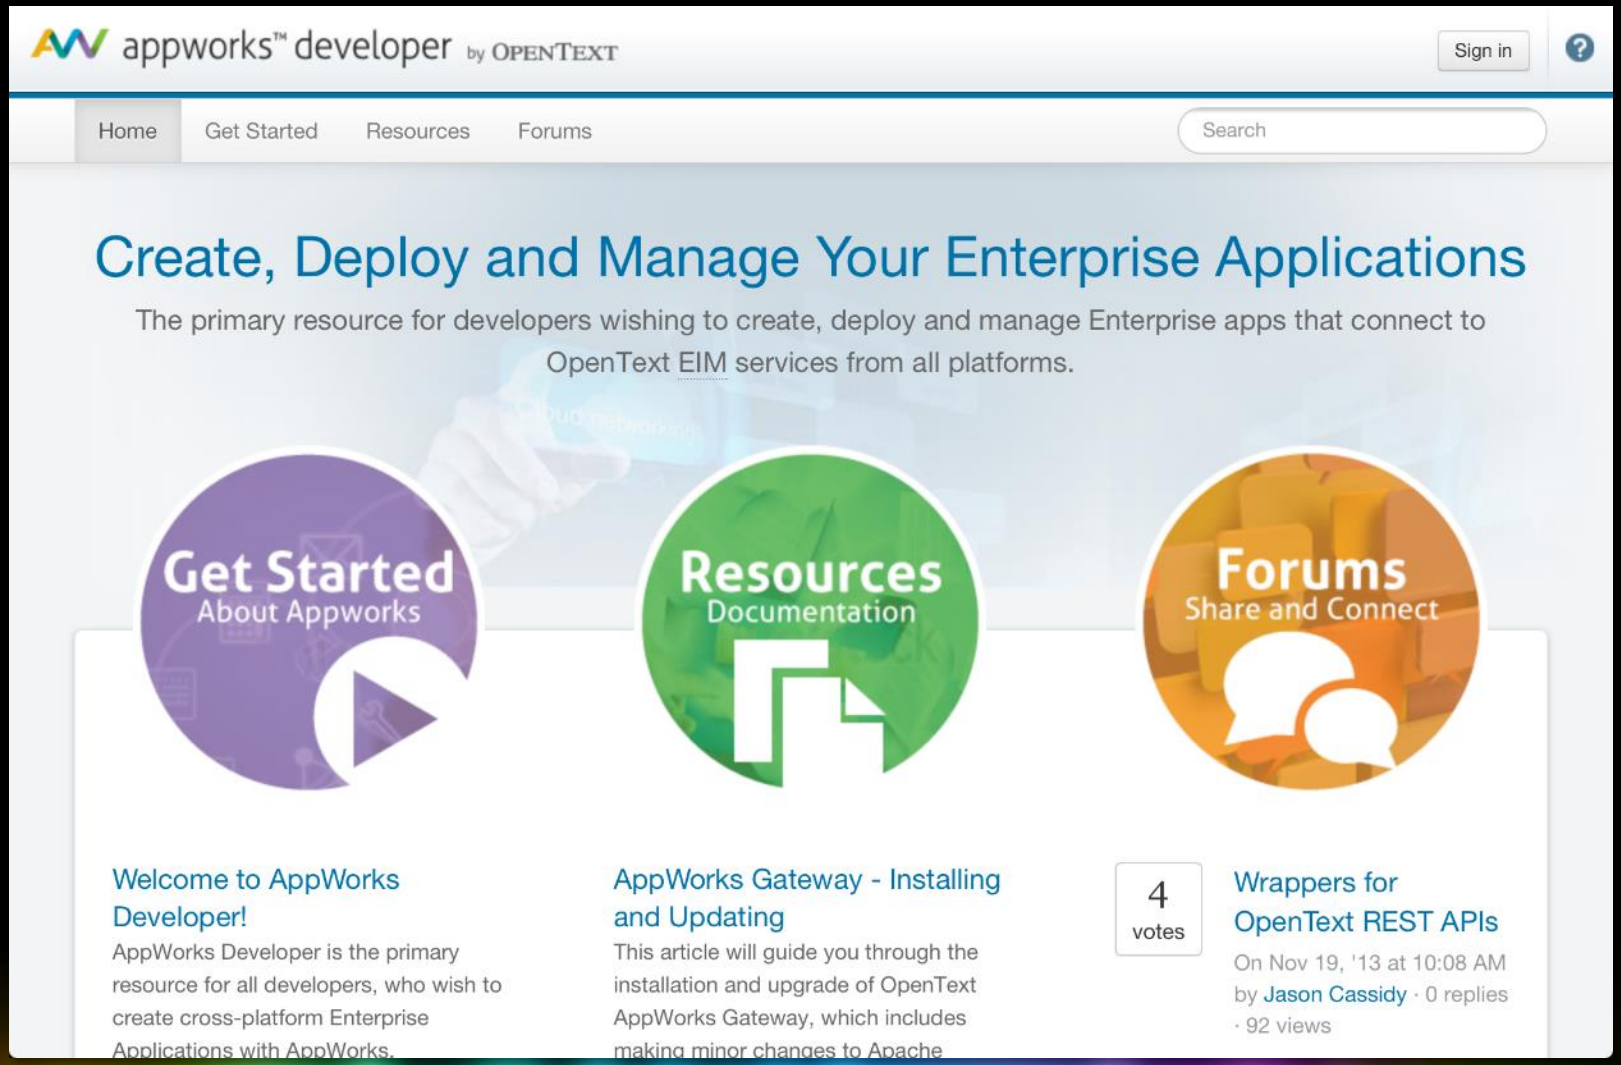

Content Suite
