Crombie

Cautionary statements

Forward-looking Information:

This presentation contains forward-looking statements that reflect the current expectations of management of Crombie about Crombie's future results, performance, achievements, prospects and opportunities. Wherever possible, words such as "continue", "may", "will", "estimate", "anticipate", "believe", "expect", "intend" and similar expressions have been used to identify these forward-looking statements. These statements, including statements regarding the development potential of Crombie's development sites, the total estimated cost to develop, expected annual development, SANOI growth targets, and future debt maturities reflect current beliefs and are based on information currently available to management of Crombie. Forward-looking statements necessarily involve known and unknown risks and uncertainties, including real estate market cycles, general economic conditions, the availability of financing opportunities and labour, actual development costs, uncertainties in obtaining required municipal zoning and development approvals, concluding successful agreements with existing tenants, and, where applicable, successful execution of development activities undertaken by related parties not under the direct control of Crombie.

A number of additional factors, including the risks discussed in our Annual Information Form, could cause actual results, performance, achievements, prospects or opportunities to differ materially from the results discussed or implied in the forward-looking statements. These factors should be considered carefully, and a reader should not place undue reliance on the forward-looking statements. There can be no assurance that the expectations of management of Crombie will prove to be correct.

Readers are cautioned that such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from these statements. Crombie can give no assurance that actual results will be consistent with these forward-looking statements.

Non-GAAP Measures:

Certain terms used in this presentation, such as AFFO, FFO, NAV, SANOI, debt to trailing 12 months adjusted EBITDA, D/GFV and interest coverage ratio are not measures defined under Generally Accepted Accounting Principles ("GAAP") and do not have standardized meanings prescribed by GAAP. AFFO, FFO, NAV, SANOI, debt to trailing 12 months adjusted EBITDA, debt to gross fair value, and interest coverage ratio should not be construed as an alternative to net earnings or cash flow from operating activities as determined by GAAP. AFFO, FFO, NAV, SANOI, debt to trailing 12 months adjusted EBITDA, D/GFV, and interest coverage ratio as presented, may not be comparable to similar measures presented by other issuers. Crombie believes that AFFO, FFO, NAV, SANOI, debt to trailing 12 months adjusted EBITDA, D/GFV and interest coverage ratio are useful in the assessment of its operating performance and that these measures are also useful for valuation purposes and are relevant and meaningful measures of its ability to earn and distribute cash to unitholders. See the section titled "Non-GAAP Financial Measures" in Crombie's Management's Discussion and Analysis for the three and six months ended June 30, 2022 ("Q2'22 MD&A") and the reconciliations referenced in that section, all of which are incorporated into this presentation by this reference, for a discussion of these non-GAAP measures. A copy of the Q2'22 MD&A is available under Crombie's profile on SEDAR at www.sedar.com.

Built in organic growth drives value creation

Long-term earnings and cash flow stability

~0.1% decrease net property income[1] for the three months ended June 30, 2022 is primarily due to increased tenant incentive amortization resulting primarily from new leasing and a reduction in lease termination income. Also contributing to the decrease are dispositions since the second quarter of 2021. This is offset in part by income from acquisitions since the second quarter of 2021.

Q2 2022 financial highlights

Stable, predictable results demonstrate consistency and reliability of grocery-anchored, industrial and multi-residential portfolio

Property revenue

Q2 2022

$103.064M

Q2 2021 **$ 100.006M** **+3.1%**

Increase in property revenue driven by
- Increased rental revenue from acquisitions and strong occupancy.
- Offset in part by lower lease termination income and higher tenant incentive amortization from new leasing activity.

Operating income attributable to Unitholders

Q2 2022

$28.424M

Q2 2021 **$19.605M** **+45.0%**

Increase in operating income attributable to Unitholders due to
- Gains realized on disposal of one investment property in the second quarter of 2022 and lower mortgage interest resulting from mortgage repayments and dispositions since the second quarter of 2021
- G&A expenses decreased primarily due to a reduction in Unit-based compensation costs.
- Offset in part by increased loss from equity-accounted investments compared to the second quarter of 2021.

FFO per unit[1,2]

Q2 2022

$0.28

Q2 2021 **$0.27** **+3.7%**

AFFO per unit[1,2]

Q2 2022

$0.25

Q2 2021 **$0.23** **+8.7%**

FFO and AFFO, on a dollar basis, achieved record levels driven by
- Lower finance costs from operations, decreased G&A expenses, and income from acquisitions since the second quarter of 2021.
- Offset in part by the impact of dispositions since the second quarter of 2021 and lower lease termination income.

The Calgary Voilà CFC will be the third Empire grocery e-commerce fulfillment hub in Canada. Powered by Ocado plc's leading technology, this will further enrich Crombie's footprint in VECTOM and continue to enhance Crombie's portfolio. Crombie acquired the 25-acre site in June 2021. The base building work is nearing completion and full handover to Empire is scheduled for September 2022, allowing Ocado to commence their building of the interior grid, which includes the robotic grid platform.

Along with joint venture partner, Clayton Developments, Crombie has proposed enabling the transformation of this 26-acre site into approximately 900 residential units. Opal Ridge is proposed as a welcoming, inclusive, accessible, and naturally beautiful multi-residential community that connects the rejuvenating energy of the natural world to the modern comfort of a well-designed environment. The site is on an active transportation network with a trail next to a major highway. Proposed features include a multi-use greenway through the site, a central public park, ground floor commercial spaces, new streets, and municipal services. Entitlement and development agreements were approved in Q2 2022 and marketing of select land parcels has commenced with initial closings scheduled in late 2022 and early construction by third party developers commencing in mid to-late 2023. Crombie and its partner have the option to participate in developing certain parcels.
