Cautionary statement

This presentation contains statements that we believe are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Rule 175 promulgated thereunder, and Section 21E of the Securities Exchange Act of 1934, as amended, and Rule 3b-6 promulgated thereunder. All statements other than statements of historical fact are forward-looking statements. These statements relate to our financial condition, results of operations, plans, objectives, future performance, capital actions or business. They usually can be identified by the use of forward-looking language such as "will likely result," "may," "are expected to," "is anticipated," "potential," "estimate," "forecast," "projected," "intends to," or may include other similar words or phrases such as "believes," "plans," "trend," "objective," "continue," "remain," or similar expressions, or future or conditional verbs such as "will," "would," "should," "could," "might," "can," or similar verbs. You should not place undue reliance on these statements, as they are subject to risks and uncertainties, including but not limited to the risk factors set forth in our most recent Annual Report on Form 10-K as updated by our filings with the U.S. Securities and Exchange Commission ("SEC").

There are a number of important factors that could cause future results to differ materially from historical performance and these forward-looking statements. Factors that might cause such a difference include, but are not limited to: (1) deteriorating credit quality; (2) loan concentration by location or industry of borrowers or collateral; (3) any instability or disruption in the financial system, including those caused by actual or perceived issues affecting the soundness of other financial institutions or market participants; (4) inadequate sources of funding or liquidity; (5) unfavorable actions of rating agencies; (6) inability to maintain or grow deposits; (7) limitations on the ability to receive dividends from subsidiaries; (8) cyber-security risks; (9) Fifth Third's ability to secure confidential information and deliver products and services through the use of computer systems and telecommunications networks; (10) failures by third-party service providers; (11) inability to manage strategic initiatives and/or organizational changes; (12) inability to implement technology system enhancements, including the use of artificial intelligence; (13) failure of internal controls and other risk management programs; (14) losses related to fraud, theft, misappropriation or violence; (15) inability to attract and retain skilled personnel; (16) adverse impacts of government regulation; (17) governmental or regulatory changes or other actions; (18) failures to meet applicable capital requirements; (19) regulatory objections to Fifth Third's capital plan; (20) regulation of Fifth Third's derivatives activities; (21) deposit insurance premiums; (22) assessments for the orderly liquidation fund; (23) weakness in the national or local economies; (24) global political and economic uncertainty or negative actions; (25) changes in interest rates and the effects of inflation; (26) changes in U.S. trade policies, including the imposition of tariffs and retaliatory tariffs; (27) changes and trends in capital markets; (28) fluctuation of Fifth Third's stock price; (29) volatility in mortgage banking revenue; (30) litigation, investigations, and enforcement proceedings; (31) breaches of contractual covenants, representations and warranties; (32) competition and changes in the financial services industry; (33) potential impacts of the adoption of real-time payment networks; (34) changing retail distribution strategies, customer preferences and behavior; (35) difficulties in identifying, acquiring or integrating suitable strategic partnerships, investments or acquisitions; (36) potential dilution from future acquisitions; (37) loss of income and/or difficulties encountered in the sale and separation of businesses, investments or other assets; (38) results of investments or acquired entities; (39) changes in accounting standards or interpretation or declines in the value of Fifth Third's goodwill or other intangible assets; (40) inaccuracies or other failures from the use of models; (41) effects of critical accounting policies and judgments or the use of inaccurate estimates; (42) weather-related events, other natural disasters, or health emergencies (including pandemics); (43) the impact of reputational risk created by these or other developments on such matters as business generation and retention, funding and liquidity; (44) changes in law or requirements imposed by Fifth Third's regulators impacting our capital actions, including dividend payments and stock repurchases; (45) Fifth Third's ability to meet its environmental and/or social targets, goals and commitments; and (46) risks relating to the merger with Comerica Incorporated, including Fifth Third's inability to realize the anticipated benefits of the merger and potential disruption to Fifth Third's business resulting from post-merger integration.

You should refer to our periodic and current reports filed with the Securities and Exchange Commission, or "SEC," for further information on other factors, which could cause actual results to be significantly different from those expressed or implied by these forward-looking statements. Moreover, you should treat these statements as speaking only as of the date they are made and based only on information then actually known to us. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations or any changes in events, conditions or circumstances on which any such statement is based, except as may be required by law, and we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The information contained herein is intended to be reviewed in its totality, and any stipulations, conditions or provisos that apply to a given piece of information in one part of this press release should be read as applying mutatis mutandis to every other instance of such information appearing herein.

Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

In this presentation, we may sometimes provide non-GAAP financial information. Please note that although non-GAAP financial measures provide useful insight to analysts, investors and regulators, they should not be considered in isolation or relied upon as a substitute for analysis using GAAP measures. We provide a discussion of non-GAAP measures and reconciliations to the most directly comparable GAAP measures in later slides in this presentation, as well as on pages 27 through 29 of our 2Q26 earnings release.

Management does not provide a reconciliation for forward-looking non-GAAP financial measures where it is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the occurrence and the financial impact of various items that have not yet occurred, are out of the Bancorp's control or cannot be reasonably predicted. For the same reasons, Bancorp's management is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.

Key Messages

1. Comerica thesis is working, with client momentum emerging and Labor Day systems conversion on track to unlock the full $850 million expense synergy run-rate in 4Q26

2. Combined company earnings power is becoming visible through higher returns, improved operating efficiency, and tangible book value per share[1] growth

3. Disciplined funding actions are improving franchise quality while supporting NII and NIM[1] expansion in a competitive deposit environment

4. Growth runway is broadening across markets, customer relationships and fee businesses

For end note descriptions, see end note summary starting on page 43

2Q26 highlights

- Net interest margin[2] expanded 6 basis points with interest-bearing deposit costs declining 2 bps

Rate risk models assume approximately 65-70% effective up betas and 55-60% down betas in our baseline NII sensitivity used in IRR simulations[1,2]

- Models are calibrated to performance in prior rate cycles
- Additionally, rate risk measures assume no deposit re-pricing lags

As of June 30, 2026:

- 59% of HFI loans were variable rate net of existing hedges (77% of total commercial; 20% of total consumer)
- Short-term borrowings represent less than 2% of total funding
- Approximately $14.3BN in non-core funding matures beyond one year

Investment portfolio characteristics

Amortized cost basis; as of 6/30/26

Held-to-maturity portfolio

- $18.4BN portfolio
- Reclassification during 1Q24 aimed to de-risk potential AOCI volatility to capital under proposed capital rules
- Securities selected for HTM meet Reg YY eligibility and inclusion requirements

Available-for-sale portfolio

- $47.6BN portfolio
- $2.8BN Non-agency CMBS portfolio
  - All positions are super-senior AAA rated with WA credit enhancement of 33%
  - Securities are 20% risk-weighted and are pledgeable to the FHLB
  - Underlying loans in our structures have a WA LTV of ~59%
  - Credit risk team analyzes transactions at the underlying property-level, similar to what we do for all our CRE loan commitments
    - Leverage analytical tools with over 40+ years of historical data to stress the securities at an individual property level on a recurring basis, including significant market distress in real estate valuations
