

## Avnet Takes Visible Things IIoT Seminar on the Road: Next Stop California

### Terms:

Avnet Electronics will be hosting a one-day seminar on Industrial IoT product development Tues., August 15 in Irvine, Calif. and Friday, August 18 in San Jose. The seminar will include a review and discussion of wireless protocols and the software available to make connecting to the cloud easier. Participants will also have the opportunity to get hands-on experience working with software and tools, including the Renesas Synergy™ Platform -- a complete, qualified solution for faster and easier embedded development; IBM® Bluemix™ Platform, including IBM Watson IoT™ for M2M® services and Node-RED®.

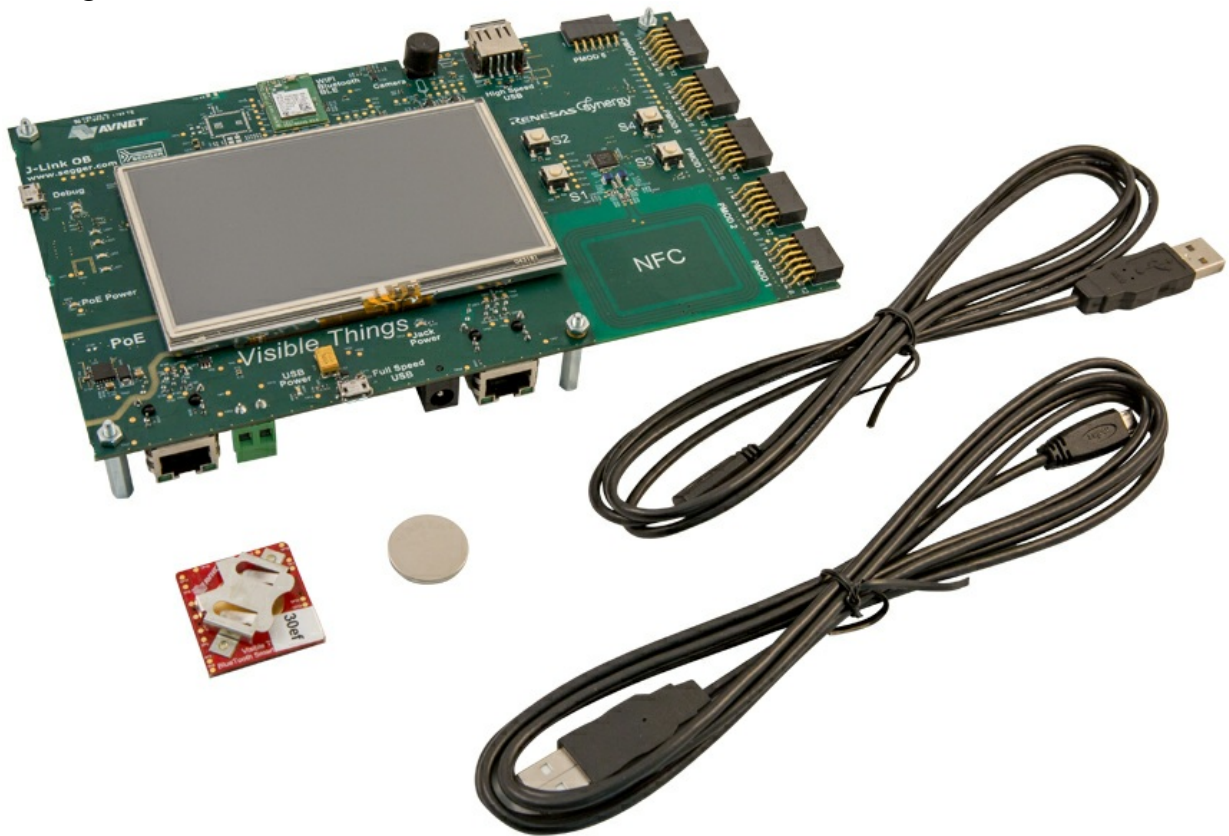

Each seminar runs from 7:30 am to 3:30 pm, for a fee of \$99. Click here to reserve a spot today and secure a complimentary [Industrial IoT Gateway and advanced Sensor Module](#) [1], which will be handed out at the seminar.

Future locations for the seminar include Toronto, ON (9/18), Boston, MA (9/20), Philadelphia, PA (9/26), Baltimore, MD (9/28) and Vancouver, BC (10/4).

For more information on Avnet's Visible Things evaluation and development platform for edge to enterprise IoT projects, click [here](#) [1].
