

## Hackster Launches Android Things Design Contest with Google, NXP

### Terms:

[Google](#) [1], [Hackster](#) [2] and [NXP](#) [3] are inviting designers around the world to test drive Google's [Android Things](#) [4] technology for the creation of professional, mass-market embedded systems for Smart Home, Robotics, Smart City, Industrial IoT / Manufacturing, Retail and Entertainment market segments.

The contest challenges participants to demonstrate the most creative use of Android Things and Google technology. Winners will receive cash prizes, access to Dragon Innovations' [Dragon Certified](#) [5] and [Product Planner](#) [6] tools, as well as a personal crowdfunding coaching session with a lead from [Kickstarter](#) [7] to support the prototype and final product build.

The contest is being run in collaboration with [Avnet](#) [8]'s new [Hardware Studio](#) [9], created in partnership with [Kickstarter](#) [10]. Hardware Studio prepares developers of complex projects with advice, feedback and services.

All Android Things Design Contest ideas must be submitted no later than Sep 29, 2017 (11:59 am PT); final projects must be submitted by Oct 31, 2017 (11:59 pm PT); and winners will be announced on Nov 10, 2017 at 10:00 pm PT.

Visit <https://www.hackster.io/contests/Google> [11] for contest rules, judging criteria, eligibility information and to submit your idea.
