

Farnell element14 Provides Roots for STEM Educators

Terms:

Releases “ultimate education list” for electronics instructors

To support the education and training of next-generation engineering talent, Farnell ^[1] element14 ^[1] has introduced the “ultimate education list” for electronics educators – featuring popular and “must-have” products to provide students hands-on experience with real-world tools, and help educators assemble the best equipment and tools available to give students a running start in their engineering careers.

Farnell element 14 also provides resources to support technical education and training in colleges and universities. Click [here](#) ^[2] to check out the element14 Community’s STEM Academy. Educators can access discounts on certain education products at <http://uk.farnell.com/for-educators> ^[3].

Products featured on the Farnell element 14 ultimate education list include:

- [Raspberry Pi3 Model B](#) ^[4]
- [Keysight N6705C Power Analyzer](#) ^[5]
- [Robox 3D Printer](#) ^[6]
- [Autodesk Eagle](#) ^[7]
- [GW Instek GPS-3030D Bench Power Supply](#) ^[8]
- [MULTICOMP MCK19 Connector Kit, Terminals & Splices](#) ^[9]
- [DI-LI 912-A - MICROSCOPE, STEREO-ZOOM, TRINO](#) ^[10]
- [Fluke 87V Multimeter](#) ^[11]
- [Mathworks MATLAB and Student Suite](#) ^[12]
- [LabVIEW Home](#) ^[13]
