TPG RE Finance Trust, Inc. Reports Operating Results for the Quarter Ended June 30, 2024

July 30, 2024

NEW YORK--(BUSINESS WIRE)--TPG RE Finance Trust, Inc. (NYSE: TRTX) (“TRTX” or the “Company”) reported its operating results for the quarter ended June 30, 2024.

Regarding second quarter results, Doug Bouquard, Chief Executive Officer of TRTX, said: “Our investment portfolio delivered strong performance in the face of an uncertain macroeconomic and real estate investing environment. During the quarter, TRTX generated Distributable Earnings of \$0.28 per share representing a dividend coverage ratio of 1.2x. TRTX maintained both ample liquidity of \$389 million and a conservative debt-to-equity ratio of 2:1 which enhances our ability to seek new investment opportunities across the evolving real estate credit landscape.”

SECOND QUARTER 2024 ACTIVITY

- Recognized GAAP net income attributable to common stockholders of \$21.0 million, or \$0.26 per common share, based on a diluted weighted average share count of 80.9 million common shares. Book value per common share was \$11.40 as of June 30, 2024.
- Generated Distributable Earnings of \$22.3 million, or \$0.28 per common share, based on a diluted weighed average share count of 80.9 million common shares.
- Declared on June 17, 2024 a cash dividend of \$0.24 per share of common stock which was paid on July 25, 2024 to common stockholders of record as of June 27, 2024. The Company paid on June 28, 2024 to stockholders of record as of June 18, 2024 a quarterly dividend on its 6.25% Series C Cumulative Redeemable Preferred Stock of \$0.3906 per share.
- Received loan repayments of \$186.1 million, including three full loan repayments of \$162.5 million, involving the following property types: 51.5% office; 35.8% industrial; 11.1% multifamily; and 1.6% hotel. Additionally, funded \$18.1 million of future funding obligations associated with previously originated and acquired loans.
- Weighted average risk rating of the Company’s loan portfolio was 3.0 as of June 30, 2024, unchanged from March 31, 2024.
- Carried at quarter-end an allowance for credit losses of \$69.6 million, a decrease of \$4.5 million from \$74.1 million as of March 31, 2024. The quarter-end allowance equals 208 basis points of total loan commitments as of June 30, 2024 compared to 210 basis points as of March 31, 2024.
- Ended the quarter with \$389.4 million of near-term liquidity: \$244.2 million of cash-on-hand available for investment, net of \$15.0 million held to satisfy liquidity covenants under the Company’s secured financing agreements; undrawn capacity under secured financing arrangements of \$127.7 million; and undrawn capacity under asset-specific financing arrangements and secured revolving credit facility of \$2.4 million.
- Non-mark-to-market borrowings represented 78.7% of total borrowings at June 30, 2024.
- Filed an S-3 registration statement, which the SEC declared effective on June 28, 2024, to register the resale of approximately 2.6 million common shares that were acquired by an affiliate of Starwood Capital Group pursuant to its exercise of warrants in May 2024.

SUBSEQUENT EVENTS

- Closed one first mortgage loan with a total loan commitment of \$96.0 million and initial funding of \$95.5 million. The first mortgage loan is secured by two multifamily properties.
- Received a full loan repayment of one mixed-use first mortgage loan with a total loan commitment and unpaid principal amount of \$36.4 million and \$33.9 million, respectively.

FORWARD-LOOKING STATEMENTS

This earnings release contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are subject to various risks and uncertainties, including, without limitation, statements relating to the performance of the investments of TPG RE Finance Trust, Inc. (the “Company” or “TRTX”); global economic trends and economic conditions, including heightened inflation, slower growth or recession, changes to fiscal and monetary policy, higher interest rates, stress to the commercial banking systems of the U.S. and Western Europe, labor shortages, currency fluctuations and challenges in global supply chains; the Company's ability to originate loans that are in the pipeline and under evaluation by the Company; financing needs and arrangements; and the risks, uncertainties and factors set forth under the heading “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023, as such risk factors may be updated from time to time in the Company’s periodic filings with the Securities and Exchange Commission (the “SEC”), which are accessible on the SEC’s website at www.sec.gov. Forward-looking statements are generally identifiable by use of forward-looking terminology such as “may,” “will,” “should,” “potential,” “intend,” “expect,” “endeavor,” “seek,” “anticipate,” “estimate,” “believe,” “could,” “project,” “predict,” “continue” or other similar words or expressions. Forward-looking statements are based on certain assumptions, discuss future expectations, describe existing or future plans and strategies, contain projections of results of operations, liquidity and/or financial condition or state other forward-looking information. Statements, among others, relating to the Company’s ability to seek new investment opportunities across the evolving real estate credit landscape, are forward-looking statements, and the Company cannot assure you that it will achieve such results. The ability of TRTX to predict future events or conditions or their impact or the actual effect of existing or future plans or strategies is inherently uncertain. Although the Company believes that such forward-looking statements are based on reasonable assumptions, actual results and performance in the future could differ materially from those set forth in or implied by such forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which reflect the Company’s views only as of the date of this earnings release. Except as required by law, neither the Company nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements appearing in this earnings release. The Company does not undertake any obligation to update any forward-looking statements contained in this earnings release as a result of new information, future events or otherwise. Past performance is not indicative nor a guarantee of future returns. Yield data are shown for illustrative purposes only and have limitations when used for comparison or for other purposes due to, among other matters, volatility, credit or other factors.

Non-GAAP Financial Measures Reconciliation

Distributable Earnings

Distributable Earnings is a non-GAAP measure, which we define as GAAP net income (loss) attributable to our common stockholders, including realized gains and losses from loan write-offs, loan sales and other loan resolutions (including conversions to real estate owned ("REO")), regardless of whether such items are included in other comprehensive income or loss, or in GAAP net income (loss), and excluding (i) non-cash stock compensation expense, (ii) depreciation and amortization expense, (iii) unrealized gains (losses) (including credit loss expense (benefit), net), and (iv) certain non-cash or income and expense items. The exclusion of depreciation and amortization expense from the calculation of Distributable Earnings only applies to debt investments related to real estate to the extent we foreclose upon the property or properties underlying such debt investments.

We believe that Distributable Earnings provides meaningful information to consider in addition to our net income (loss) and cash flow from operating activities determined in accordance with GAAP. We generally must distribute at least 90% of our net taxable income annually, subject to certain adjustments and excluding any net capital gains, for us to continue to qualify as a real estate investment trust for U.S. federal income tax purposes. We believe that one of the primary reasons investors purchase our common stock is to receive our dividends. Because of our investors' continued focus on our ability to pay dividends, Distributable Earnings is an important measure for us to consider when determining our distribution policy and dividends per common share. Further, Distributable Earnings helps us to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current loan investment and operating activities.

Distributable Earnings excludes the impact of our credit loss provision or reversals of our credit loss provision, but only to the extent that our credit loss provision exceeds any realized credit losses during the applicable reporting period.

A loan will be written off as a realized loss when it is deemed non-recoverable or upon a realization event. Such a realized loss would generally be recognized at the time the loan receivable is settled, transferred or exchanged, or in the case of foreclosure, when the underlying property is foreclosed upon or sold. Non-recoverability may also be concluded by us if, in our determination, it is nearly certain that all amounts due will not be collected. A realized loss may equal the difference between the cash or consideration received or expected to be received, and the net book value of the loan, reflecting our economics as it relates to the ultimate realization of the asset.

Distributable Earnings does not represent net income (loss) or cash generated from operating activities and should not be considered as an alternative to GAAP net income (loss), an indication of our GAAP cash flows from operations, a measure of our liquidity, or an indication of funds available for our cash needs. In addition, our methodology for calculating Distributable Earnings may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures, and accordingly, our reported Distributable Earnings may not be comparable to the Distributable Earnings reported by other companies.

Reconciliation of GAAP Net Income Attributable to Common Stockholders to Distributable Earnings

Forward-Looking Statements and Other Disclosures

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as “outlook,” “believe,” “expect,” “potential,” “continue,” “may,” “should,” “seek,” “approximately,” “predict,” “intend,” “will,” “plan,” “estimate,” “anticipate,” the negative version of these words, other comparable words or other statements that do not relate strictly to historical or factual matters. By their nature, forward-looking statements speak only as of the date they are made, are not statements of historical fact or guarantees of future performance and are subject to risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs and projections will occur or be achieved, and actual results may vary materially from what is expressed in or indicated by the forward-looking statements.

There are a number of risks, uncertainties and other important factors that could cause our actual results to differ materially from the forward-looking statements contained in this presentation. Such risks, uncertainties and other important factors include, among others, the risks, uncertainties and factors set forth under the heading “Risk Factors” in our Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on February 20, 2024, as such risk factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC’s website at www.sec.gov. Such risks, uncertainties and other factors include, but are not limited to, the following:

- the general political, economic, regulatory, competitive and other conditions in the markets in which we invest;
- the level and volatility of prevailing interest rates and credit spreads;
- adverse changes in the real estate and real estate capital markets;
- general volatility of the securities markets in which we participate;
- changes in our business, investment strategies or target assets;
- difficulty in obtaining financing or raising capital;
- an inability to borrow incremental amounts or an obligation to repay amounts under our financing arrangements;
- reductions in the yield on our investments and increases in the cost of our financing;
- events giving rise to increases in our current expected credit loss reserve;
- adverse legislative or regulatory developments, including with respect to tax laws, securities laws and the laws governing financing and lending institutions;
- acts of God such as hurricanes, floods, earthquakes, wildfires, mudslides, volcanic eruptions, and other natural disasters, acts of war and/or terrorism and other events that may cause unanticipated and uninsured performance declines and/or losses to us or the owners and operators of the real estate securing our investments;
- global economic trends and economic conditions, including heightened inflation, slower growth or recession, changes to fiscal and monetary policy, higher interest rates, stress to the commercial banking systems of the U.S. and Western Europe, labor shortages, currency fluctuations and challenges in global supply chains;
- the failure of any banks with which we and/or our borrowers have a commercial relationship could adversely affect, among other things, our borrower’s ability to access deposits or obtain financing on favorable terms or at all;
- higher interest rates imposed by the Federal Reserve may lead to a decrease in prepayment speeds and an increase in the number of borrowers who exercise extension options, which could extend beyond the term of certain secured financing agreements we use to finance our loan investments;
- reduced demand for office space, including as a result of the COVID-19 pandemic and/or hybrid work schedules which allow work from remote locations other than the employer’s office premises;
- changes in the availability of attractive loan and other investment opportunities, whether they are due to competition, regulation or otherwise;
- deterioration in the performance of properties securing our investments that may cause deterioration in the performance of our investments, adversely impact certain of our financing arrangements and our liquidity, and potentially expose us to principal losses on our investments;
- defaults by borrowers in paying debt service or principal on outstanding indebtedness;
- the adequacy of collateral securing our investments and declines in the fair value of our investments;
- adverse developments in the availability of desirable investment opportunities, whether due to competition regulation or otherwise;
- difficulty or delays in redeploying the proceeds from repayments of our existing investments;
- increased competition from entities engaged in mortgage lending and/or investing in our target assets;
- difficulty in successfully managing our growth, including integrating new assets into our existing systems;
- the cost of operating our platform, including, but not limited to, the cost of operating a real estate investment platform and the cost of operating as a publicly traded company;
- the availability of qualified personnel and our relationship with our Manager;
- conflicts with TPG and its affiliates, including our Manager, the personnel of TPG providing services to us, including our officers, and certain funds managed by TPG;
- our qualification as a real estate investment trust (“REIT”) for U.S. federal income tax purposes and our ability to maintain our exemption or exclusion from registration under the Investment Company Act of 1940, as amended (the “Investment Company Act”); and
- authoritative U.S. generally accepted accounting principles (or “GAAP”) or policy changes from standard-setting bodies such as the Financial Accounting Standards Board (“FASB”), the SEC, the Internal Revenue Service (“IRS”), the New York Stock Exchange (“NYSE”) and other authorities that we are subject to, as well as their counterparts in any foreign jurisdictions where we might do business.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. We caution you that the risks, uncertainties and other factors referenced above may not contain all of the risks, uncertainties and other factors that are important to you. In addition, we cannot assure you that we will realize the results, benefits or developments that we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our business in the way expected. All forward-looking statements in this presentation apply only as of the date made and are expressly qualified in their entirety by the cautionary statements included in this presentation and in other filings we make with the SEC. We undertake no obligation to publicly update or revise any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

Distributable Earnings

- Distributable Earnings is a non-GAAP measure, which we define as GAAP net income (loss) attributable to our common stockholders, including realized gains and losses from loan write-offs, loan sales and other loan resolutions (including conversions to REO), regardless of whether such items are included in other comprehensive income or loss, or in GAAP net income (loss), and excluding (i) non-cash stock compensation expense, (ii) depreciation and amortization expense, (iii) unrealized gains (losses) (including credit loss expense (benefit), net), and (iv) certain non-cash or income and expense items. The exclusion of depreciation and amortization expense from the calculation of Distributable Earnings only applies to debt investments related to real estate to the extent we foreclose upon the property or properties underlying such debt investments.
- We believe that Distributable Earnings provides meaningful information to consider in addition to our net income (loss) and cash flow from operating activities determined in accordance with GAAP. We generally must distribute at least 90% of our net taxable income annually, subject to certain adjustments and excluding any net capital gains, for us to continue to qualify as a REIT for U.S. federal income tax purposes. We believe that one of the primary reasons investors purchase our common stock is to receive our dividends. Because of our investors' continued focus on our ability to pay dividends, Distributable Earnings is an important measure for us to consider when determining our distribution policy and dividends per common share. Further, Distributable Earnings helps us to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current loan investment and operating activities.
- Distributable Earnings excludes the impact of our credit loss provision or reversals of our credit loss provision, but only to the extent that our credit loss provision exceeds any realized credit losses during the applicable reporting period.
- A loan will be written off as a realized loss when it is deemed non-recoverable or upon a realization event. Such a realized loss would generally be recognized at the time the loan receivable is settled, transferred or exchanged, or in the case of foreclosure, when the underlying property is foreclosed upon or sold. Non-recoverability may also be concluded by us if, in our determination, it is nearly certain that all amounts due will not be collected. A realized loss may equal the difference between the cash or consideration received or expected to be received, and the net book value of the loan, reflecting our economics as it relates to the ultimate realization of the asset.
- Distributable Earnings does not represent net income (loss) or cash generated from operating activities and should not be considered as an alternative to GAAP net income (loss), an indication of our GAAP cash flows from operations, a measure of our liquidity, or an indication of funds available for our cash needs. In addition, our methodology for calculating Distributable Earnings may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures, and accordingly, our reported Distributable Earnings may not be comparable to the Distributable Earnings reported by other companies.

Deferred Fundings

- Fundings to borrowers that are made under existing loan commitments after a loan closing date.

Financial Covenants

- Our financial covenants and guarantees for outstanding borrowings related to our secured financing agreements require TPG RE Finance Trust Holdco, LLC, a Delaware limited liability company that is wholly owned by TRTX, to maintain compliance with the following financial covenants (among others):
 - Cash Liquidity: Minimum cash liquidity of no less than the greater of: \$15.0 million; and 5.0% of Holdco's recourse indebtedness
 - Tangible Net Worth: \$1.0 billion, plus 75% of all subsequent equity issuances (net of discounts, commissions, expense), minus 75% of the redeemed or repurchased preferred or redeemable equity or stock
 - Debt-to-Equity: Debt-to-Equity ratio not to exceed 4.25 to 1.0 with equity, as defined
 - Interest Coverage: Minimum interest coverage ratio of 1.4 to 1.0, effective June 30, 2023. Previously, 1.5 to 1.0.
- Effective September 30, 2023, we obtained from our lenders a waiver with respect to the Interest Coverage ratio covenant, reducing the minimum interest coverage ratio to 1.30 to 1.0 from 1.40 to 1.0 for the quarters ended September 30, 2023 and December 31, 2023. The interest coverage ratio threshold reverted to 1.40 to 1.0 for the quarter ending March 31, 2024 and thereafter.

Geographic Diversity

- TRTX divides the South region into separate Southeast and Southwest regions using definitions established by The National Council of Real Estate Investment Fiduciaries (NCREIF). A reconciliation to TRTX's Form 10-Q at June 30, 2024 follows (dollars in millions):

Leverage

- **Debt-to-Equity Ratio** - Represents (i) total outstanding borrowings under secured financing arrangements, including collateralized loan obligations, secured credit agreements, asset-specific financing arrangements, a secured revolving credit facility, and mortgage loans payable, less cash, to (ii) total stockholders' equity, at period end.
- **Total Leverage Ratio** - Represents (i) total outstanding borrowings under secured financing arrangements, including collateralized loan obligations, secured credit agreements, asset-specific financing arrangements, a secured revolving credit facility, and mortgage loans payable, plus nonconsolidated senior interests sold or co-originated (if any), less cash, to (ii) total stockholders' equity, at period end.

Loan-to-Value (LTV)

- Except for construction loans, LTV is calculated for loan originations and existing loans as the total outstanding principal balance of the loan or participation interest in a loan (plus any financing that is pari passu with or senior to such loan or participation interest), divided by the as-is appraised value of our collateral at the time of origination or acquisition of such loan or participation interest. For construction loans only, LTV is calculated as the total commitment amount of the loan divided by the as-stabilized value of the real estate securing the loan. The as-is or as-stabilized (as applicable) value reflects our Manager's estimates, at the time of origination or acquisition of the loan or participation interest in a loan, of the real estate value underlying such loan or participation interest determined in accordance with our Manager's underwriting standards and consistent with third-party appraisals obtained by our Manager.

Loan Category

- **Bridge Loan** - A loan with limited deferred fundings, generally less than 10% of the total loan commitment, which fundings are commonly conditioned on the borrower's satisfaction of certain collateral performance tests. The related business plan generally involves little or no capital expenditure related to base building work (e.g., building mechanical systems, lobbies, elevators, common areas, or other amenities), with most deferred fundings related to leasing activity. The primary focus is on maintaining or improving current operating cash flow, or addressing minimal lease expirations or existing tenant vacancies.
- **Light Transitional Loan** - A transitional loan with deferred fundings ranging from 10% to 20% of the total loan commitment, which fundings are commonly conditioned on the borrower's completion of specified improvements to the property or satisfaction of certain collateral performance tests. The related business plan is to lease existing or forecasted tenant vacancy to achieve stabilized occupancy and cash flow. Capital expenditure is primarily to fund leasing commissions and tenant improvements for new tenant leases, and capital expenditure allocated to base building work generally does not exceed 20%. Deferred fundings may also be budgeted to fund operating deficits, or interest expense, during the period prior to stabilized occupancy.
- **Moderate Transitional Loan** - A transitional loan with deferred fundings greater than 20% of the total loan commitment, which fundings are commonly conditioned on the borrower's completion of specified improvements to the property or satisfaction of certain collateral performance tests. The related business plan generally involves capital expenditure for base building work needed before substantial leasing activity can be achieved, followed by capital expenditure for tenant improvements and leasing commissions to achieve stabilized occupancy and cash flow. Deferred fundings may also be budgeted to fund operating deficits, or interest expense, during the period prior to stabilized occupancy.
- **Construction Loan** - A loan made to a borrower to fund the ground-up construction of a commercial real estate property, or the horizontal development of commercial land.

Definitions (cont.)

Property Types

- **Mixed-Use:** TRTX classifies a loan as mixed-use if the property securing TRTX's loan (a) involves more than one use; and (b) no single use represents more than 60% of the collateral property's total value. In certain instances, TRTX's classification may be determined by its assessment of which use is the principal driver of the property's aggregate net operating income.
- **Life Science:** TRTX classifies a loan as life science if more than 60% of the gross leasable area is leased to, or will be converted to, life science-related space. Life science-related space includes laboratory space, office space, or allied light manufacturing space used in support of biotechnology, pharmaceuticals, biomedical technologies, life systems technologies, and the design and manufacture of biomedical technology.

Loan Risk Ratings

- Quarterly, the Company evaluates the risk of all loans and assigns a risk rating based on a variety of factors, whereby no single factor on its own, whether quantitative or qualitative, is given more weight than others. The factors that the Company considers in connection with this evaluation are grouped as follows: (i) loan and credit structure, including the as-is LTV; (ii) quality and stability of real estate value and operating cash flow, including debt yield, property type, dynamics of the geography, local market, physical condition, stability of cash flow, leasing velocity and quality and diversity of tenancy; (iii) performance against underwritten business plan; (iv) the frequency and materiality of loan modifications or waivers occasioned by unfavorable variances between the underwritten business plan and actual performance; (v) changes in the capital markets that may impact the repayment of the loan via a refinancing or sale of the loan collateral; and (vi) quality, experience and financial condition of sponsor, borrower and guarantor(s). Based on a 5-point scale, the Company's loans are rated "1" through "5," from least risk to greatest risk, respectively:
 - 1 - Very Low Risk
 - 2 - Low Risk
 - 3 - Medium Risk
 - 4 - High Risk/Potential for Loss—A loan that has a high risk of realizing a principal loss; and
 - 5 - Default/Loss Likely—A loan that has a very high risk of realizing a principal loss or has otherwise incurred a principal loss.
- The Company generally assigns a risk rating of "3" to all loan investments upon origination or acquisition, except when specific circumstances warrant an exception.
