HudBay Share Buy Back Program Approved-Normal Course Issuer Bid

WINNIPEG, MANITOBA, Dec 13, 2007 (Marketwire via COMTEX News Network) -- HudBay Minerals Inc. (TSX:HBM) ("HudBay" or the "Company") today announced that its previously announced normal course issuer bid (the "Bid") has been approved by the Toronto Stock Exchange (the "TSX").

Under the terms of the Bid, HudBay may purchase, through the facilities of the TSX, up to 9,946,093 of its common shares, representing approximately 9.5% of its public float as of December 11, 2007. Daily purchases will be limited to 401,046 common shares, other than block purchase exceptions.

The purchases may commence on December 17, 2007 and end on December 16, 2008, or on such earlier date as HudBay completes its purchases. Purchases of common shares under the Bid will be made at market prices and otherwise in accordance with the rules of the TSX. All purchased shares will be cancelled. HudBay has not purchased any of its common shares in the last 12 months.

HudBay believes that the purchase of its common shares will contribute to enhancing shareholder value.

To the knowledge of HudBay, no senior officer or director of HudBay, no associate thereof and no person holding 10% or more of the common shares of HudBay currently intends to sell any common shares under the Bid. However, sales through the facilities of the TSX may occur during the period of the Bid where such sales are due to personal or business circumstances of any such person or company unrelated to these normal course purchases. The benefits to any such person or company whose shares are purchased would be the same as the benefits available to other holders whose shares are purchased.
