**Donaldson Company Announces Patent Recipients  
and Winners of Annual Inventor Awards**

*Annual awards recognize employees who contribute to Donaldson's success*

MINNEAPOLIS (April 24, 2017) — Donaldson Company, Inc. (NYSE:DCI), a leading worldwide manufacturer of filtration systems and parts, has announced the patent recipients and winners of the company's 15th annual Inventor Awards, which are given to employees whose work on various technology innovations have contributed to Donaldson's continued success as a leader in filtration innovation.

Employees can be nominated for one of five designated awards. The Technology Achievement Award is given to an individual or team who has developed a material, product, process or method that has made an extraordinary contribution to Donaldson's long-term success. This year, there were two winning teams: The Compressed Air & Process Filtration DF Filter Line team based in Haan, Germany, and the PowerCore® G3 Flute team located in Bloomington, Minnesota.

The Emerging Innovator Award recognizes innovative technical leadership from those with fewer than 10 years of experience at Donaldson. This year's winner is William Rossiter, Sr. Engineer, based in Bloomington, Minnesota.

The Technology Champion Award recognizes employees who advance a technology or process against popular opinion which is later recognized as the right thing to do. Stephane Le Merdy, Application Engineering Manager, based in Domjean France, is this year's recipient.

The Frank A. Donaldson Award, named after the company's founder, recognizes long-term engineering achievement. This year's awardee is Mike Gustafson, Sr. Development Engineer, Bloomington, Minnesota.

The Richard M. Negri Manufacturing Excellence Award, named for a long-time employee and past VP of Operations, whose many contributions greatly advanced Donaldson's global operations, recognizes an individual who has created and implemented significant process technology/product improvements for manufacturing operations. This year's awardee is Warren Dammann, Engineering Manager, Bloomington, Minnesota.
