**Donaldson Company Announces New Vice President of Global OEM Sales**

MINNEAPOLIS (August 21, 2017) — Donaldson Company Inc. (NYSE: DCI) today announced that Jacquie Boyer will be joining Donaldson as vice president of global OEM sales, effective August 28, 2017. Boyer will report to Tom Scalf, senior vice president of Engine Products.

"Jacquie's extensive industry knowledge and experience in developing and executing strategies for global account planning make her an excellent addition to our team," said Scalf. "Jacquie has worked directly with many of our on- and off-road customers, and I am looking forward to growing our global OEM business with her as we continue to enhance our customers' equipment with innovative filtration products and solutions."

"I am excited for the opportunity to lead the global OEM team as we develop and win new business by continuing to deliver best-in-class customer service with a strong portfolio of filtration technology," said Boyer. "The need for technology-based filtration solutions continues to increase around the world, and I look forward to building on Donaldson's strong track record of success in addressing this need."

Boyer's background includes more than 25 years in progressive sales and leadership roles, including experience with large, mid-size and start-up companies. She most recently held the position of vice president, global sales and marketing at Stanadyne, L.L.C., a fuel injection system supplier to the automotive and diesel markets. Her experience also includes leading sales and business development teams at companies in a wide range of industries, including General Electric, United Technologies and Tyco Electronics. Boyer has a bachelor's degree in business and psychology from the University Wisconsin-River Falls.

**About Donaldson Company**

Founded in 1915, Donaldson Company (NYSE: DCI) is a global leader in the filtration industry with approximately 140 sales, manufacturing and distribution locations in 44 countries.
