About Donaldson Aerospace & Defense

Donaldson Aerospace & Defense, a business division of Donaldson Company, is a leading worldwide provider of filtration systems for the aerospace and defense industries. Our filtration solutions protect fixed wing aircraft, rotorcraft, military ground vehicles, electronic equipment, space vehicles, missiles, military shipboard systems, and amphibious vehicles. We are committed to advancing filtration technology, providing quality products and prompt customer service. Our group serves customers from sales, engineering, and manufacturing locations around the world.
