ORACLE BECOMES THE SECOND LARGEST CLOUD SAAS COMPANY IN THE WORLD

Q4 SaaS and PaaS Subscriptions Up 25% to \$322 million, Q4 IaaS Subscription Revenue Up 13% to \$128 million

REDWOOD SHORES, Calif., June 19, 2014 -- Oracle Corporation (NYSE: ORCL) today announced that fiscal 2014 Q4 total revenues were up 3% to \$11.3 billion. Software and Cloud revenues were up 4% to \$8.9 billion. GAAP Cloud software-as-a-service (SaaS) and platform-as-a-service (PaaS) revenues were up 25% to \$322 million, while non-GAAP SaaS and PaaS revenues were up 23% to \$327 million. In addition, Cloud infrastructure-as-a-service (IaaS) revenues were up 13% to \$128 million. New software licenses revenues were unchanged at \$3.8 billion. Software license updates and product support revenues were up 7% to \$4.7 billion. Overall hardware systems revenues were up 2% to \$1.5 billion with hardware systems products up 2% to \$870 million, and hardware systems support up 2% to \$596 million.

In Q4, both GAAP and non-GAAP earnings per share were lowered by \$0.02 due to a non-operating loss caused by exchange rate changes in Venezuela. Furthermore, last year's Q4 GAAP earnings per share increased \$0.04 because of a \$269 million acquisition price reduction. As a result of these two factors, Q4 GAAP earnings per share were unchanged at \$0.80 compared with last year, while GAAP net income was down 4% to \$3.6 billion, and GAAP operating income was down 2% to \$4.9 billion. Q4 GAAP operating margin was 43% in the quarter. Non-GAAP earnings per share were up 6% to \$0.92, but would have been \$0.94 if not for the currency loss in Venezuela. Non-GAAP net income was up 2% to \$4.2 billion while non-GAAP operating income was up 3% to \$5.8 billion. The non-GAAP operating margin was 51%. GAAP operating cash flow on a trailing twelve-month basis was \$14.9 billion.

For fiscal year 2014, total revenues were up 3% at \$38.3 billion. GAAP Software and Cloud revenues were up 5%. GAAP Cloud SaaS and PaaS revenues were up 23% to \$1.1 billion while Cloud IaaS revenues were \$456 million. New software licenses revenues were unchanged at \$9.4 billion while software license updates and product support revenues were up 6% to \$18.2

billion. Total hardware system revenues were flat at \$5.4 billion. GAAP operating income was up 1% to \$14.8 billion, and GAAP operating margin was 39%. Non-GAAP operating income was up 3% to \$18.1 billion, and non-GAAP operating margin was 47%. GAAP net income was unchanged at \$11.0 billion, while non-GAAP net income was up 2% to \$13.2 billion. GAAP earnings per share were \$2.38, up 5% compared to last year while non-GAAP earnings per share were \$2.87, up 7%.

“Our cloud subscription business is now approaching a run rate of \$2 billion a year,” said Oracle President and CFO Safra Catz. “As our business has transitioned, more software revenues are being recognized over the life of a subscription rather than upfront. We’re making this transition to cloud subscriptions and ratable revenue recognition while continuously increasing our top-line revenue and our bottom-line profits year-after-year.”

“We have transformed Sun’s commodity hardware business into a profitable and growing Engineered Systems business,” said Oracle President Mark Hurd. “Our overall hardware business grew 2% in constant currency this past year. We saw record levels of Engineered Systems shipments and expect to deliver our 10,000th unit in Q1.”

“Oracle is now the second largest SaaS company in the world,” said Oracle CEO Larry Ellison. “In SaaS, we’re in front of everybody but salesforce.com. In IaaS we’re larger and more profitable than Rackspace. We have by far the most complete portfolio of modern SaaS and PaaS products in the industry: CRM: Sales, Service & Marketing; HCM: HR, Payroll & Talent; ERP: Accounting, Procurement, Supply Chain & more. All these SaaS products run on the world’s most powerful PaaS: the Oracle in-memory multitenant database and Java. We plan to increase our focus on the Cloud and become number one in both the SaaS and the PaaS businesses.”

The Board of Directors declared a quarterly cash dividend of \$0.12 per share of outstanding common stock. This dividend will be paid to stockholders of record as of the close of business on July 9, 2014, with a payment date of July 30, 2014.

Q4 Fiscal 2014 Earnings Conference Call and Webcast

Oracle will hold a conference call and webcast today to discuss these results at 2:00 p.m. Pacific. You may listen to the call by dialing (913) 312-6699, Passcode: 822011. To access the live webcast of this event, please visit the Oracle Investor Relations website at

<http://www.oracle.com/investor>. In addition, Oracle's Q4 results and Fiscal 2014 financial tables are available on the Oracle Investor Relations website.

A replay of the conference call will also be available by dialing (719) 457-0820 or (888) 203-1112, Passcode: 1625971.

About Oracle

Oracle engineers hardware and software to work together in the cloud and in your data center. For more information about Oracle (NYSE: ORCL), visit www.oracle.com or contact Investor Relations at investor_us@oracle.com or (650) 506-4073.

"Safe Harbor" Statement: Statements in this press release relating to Oracle's future plans, expectations, beliefs, intentions and prospects, including statements regarding our cloud subscription run rate, the timing of the delivery of our 10,000th Engineered Systems unit, and our plans to increase our focus on the Cloud and become number one in SaaS and PaaS, are "forward-looking statements" and are subject to material risks and uncertainties. Many factors could affect our current expectations and our actual results, and could cause actual results to differ materially. We presently consider the following to be among the important factors that could cause actual results to differ materially from expectations: (1) Economic, political and market conditions, including the continued slow economic recovery in the U.S. and other parts of the world, can adversely affect our business, results of operations and financial condition, including our revenue growth and profitability, which in turn could adversely affect our stock price. (2) We may fail to achieve our financial forecasts due to such factors as delays or size reductions in transactions, fewer large transactions in a particular quarter, unanticipated fluctuations in currency exchange rates, delays in delivery of new products or releases or a decline in our renewal rates for support contracts. (3) Our cloud computing strategy, including our Oracle Cloud Software-as-a-Service, Platform-as-a-Service and Infrastructure-as-a-Service offerings, may not be successful. (4) If we are unable to develop new or sufficiently differentiated products and services, or to enhance and improve our products and support services in a timely manner or to position and/or price our products and services to meet market demand, customers may not buy new software licenses, cloud software subscriptions or hardware systems products or purchase or renew support contracts. (5) Our international sales and operations subject us to additional risks that can adversely affect our operating results, including risks relating to foreign currency gains and losses. (6) If the security measures for our software, hardware, services or Oracle Cloud offerings are compromised or if such offerings contain significant coding, manufacturing or configuration errors, we may experience reputational harm, legal claims and financial exposure. (7) We have an active acquisition program and our

acquisitions may not be successful, may involve unanticipated costs or other integration issues or may disrupt our existing operations. A detailed discussion of these factors and other risks that affect our business is contained in our SEC filings, including our most recent reports on Form 10-K and Form 10-Q, particularly under the heading "Risk Factors." Copies of these filings are available online from the SEC or by contacting Oracle Corporation's Investor Relations Department at (650) 506-4073 or by clicking on SEC Filings on Oracle's Investor Relations website at <http://www.oracle.com/investor>. All information set forth in this press release is current as of June 19, 2014. Oracle undertakes no duty to update any statement in light of new information or future events.

(1) We compare the percent change in the results from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars at the exchange rates in effect on May 31, 2013, which was the last day of our prior fiscal year, rather than the actual exchange rates in effect during the respective periods. Movements in international currencies relative to the United States dollar during the three months ended May 31, 2014 compared with the corresponding prior year period increased our operating income by 1 percentage point.

(2) Acquisition related and other expenses for the quarter ended May 31, 2013 included a net benefit of \$269 million due to an acquisition related item.

(1) This presentation includes non-GAAP measures. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. For a detailed explanation of the adjustments made to comparable GAAP measures, the reasons why management uses these measures, the usefulness of these measures and the material limitations on the usefulness of these measures, please see Appendix A.

(2) We compare the percent change in the results from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars at the exchange rates in effect on May 31, 2013, which was the last day of our prior fiscal year, rather than the actual exchange rates in effect during the respective periods.

(3) As of May 31, 2014, approximately \$3 million in estimated revenues related to assumed cloud software-as-a-service and platform-as-a-service contracts will not be recognized for fiscal 2015 due to business combination accounting rules.

(4) As of May 31, 2014, approximately \$2 million in estimated revenues related to hardware systems support contracts will not be recognized for fiscal 2015 due to business combination accounting rules.

(5) Stock-based compensation was included in the following GAAP operating expense categories:

	Three Months Ended May 31, 2014			Three Months Ended May 31, 2013		
	GAAP	Adj.	Non-GAAP	GAAP	Adj.	Non-GAAP
Sales and marketing	\$ 46	\$ (46)	\$ -	\$ 33	\$ (33)	\$ -
Cloud software-as-a-service and platform-as-a-service	3	(3)	-	2	(2)	-
Cloud infrastructure-as-a-service	1	(1)	-	2	(2)	-
Software license updates and product support	6	(6)	-	5	(5)	-
Hardware systems products	1	(1)	-	1	(1)	-
Hardware systems support	1	(1)	-	1	(1)	-
Services	12	(12)	-	6	(6)	-
Research and development	101	(101)	-	93	(93)	-
General and administrative	45	(45)	-	43	(43)	-
Subtotal	216	(216)	-	186	(186)	-
Acquisition related and other	7	(7)	-	4	(4)	-
Total stock-based compensation	\$ 223	\$ (223)	\$ -	\$ 190	\$ (190)	\$ -

(6) Estimated future annual amortization expense related to intangible assets as of May 31, 2014 was as follows:

Fiscal 2015	\$ 1,934
Fiscal 2016	1,337
Fiscal 2017	741
Fiscal 2018	607
Fiscal 2019	508
Thereafter	980
Total intangible assets subject to amortization	6,107
In-process research and development	30
Total intangible assets, net	\$ 6,137

(7) Income tax effects were calculated reflecting an effective GAAP tax rate of 20.5% and 21.1% in the fourth quarter of fiscal 2014 and 2013, respectively, and an effective non-GAAP tax rate of 23.0% and 23.8% in the fourth quarter of fiscal 2014 and 2013, respectively. The differences between our GAAP and non-GAAP tax rates in the fourth quarter of fiscal 2014 and 2013 were primarily due to the net tax effects of acquisition related items, including the tax effects of amortization of intangible assets.

(1) This presentation includes non-GAAP measures. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. For a detailed explanation of the adjustments made to comparable GAAP measures, the reasons why management uses these measures, the usefulness of these measures and the material limitations on the usefulness of these measures, please see Appendix A.

(2) We compare the percent change in the results from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars at the exchange rates in effect on May 31, 2013, which was the last day of our prior fiscal year, rather than the actual exchange rates in effect during the respective periods.

(3) As of May 31, 2014, approximately \$3 million in estimated revenues related to assumed cloud software-as-a-service and platform-as-a-service contracts will not be recognized for fiscal 2015 due to business combination accounting rules.

(4) As of May 31, 2014, approximately \$2 million in estimated revenues related to hardware systems support contracts will not be recognized for fiscal 2015 due to business combination accounting rules.

(5) Stock-based compensation was included in the following GAAP operating expense categories:

	Year Ended May 31, 2014			Year Ended May 31, 2013		
	GAAP	Adj.	Non-GAAP	GAAP	Adj.	Non-GAAP
Sales and marketing	\$ 165	\$ (165)	\$ -	\$ 137	\$ (137)	\$ -
Cloud software-as-a-service and platform-as-a-service	8	(8)	-	10	(10)	-
Cloud infrastructure-as-a-service	4	(4)	-	8	(8)	-
Software license updates and product support	22	(22)	-	20	(20)	-
Hardware systems products	5	(5)	-	3	(3)	-
Hardware systems support	6	(6)	-	5	(5)	-
Services	29	(29)	-	23	(23)	-
Research and development	385	(385)	-	352	(352)	-
General and administrative	171	(171)	-	164	(164)	-
Subtotal	795	(795)	-	722	(722)	-
Acquisition related and other	10	(10)	-	33	(33)	-
Total stock-based compensation	\$ 805	\$ (805)	\$ -	\$ 755	\$ (755)	\$ -

(6) Estimated future annual amortization expense related to intangible assets as of May 31, 2014 was as follows:

Fiscal 2015	\$ 1,934
Fiscal 2016	1,337
Fiscal 2017	741
Fiscal 2018	607
Fiscal 2019	508
Thereafter	980
Total intangible assets subject to amortization	6,107
In-process research and development	30
Total intangible assets, net	\$ 6,137

(7) Income tax effects were calculated reflecting an effective GAAP tax rate of 20.1% and 21.4% in fiscal 2014 and 2013, respectively, and an effective non-GAAP tax rate of 22.5% and 23.0% in fiscal 2014 and 2013, respectively. The differences between our GAAP and non-GAAP tax rates in fiscal 2014 and 2013 were primarily due to the net tax effects of acquisition related items, including the tax effects of amortization of intangible assets.

* Not meaningful

(1) To supplement our statements of cash flows presented on a GAAP basis, we use non-GAAP measures of cash flows on a trailing 4-quarter basis to analyze cash flow generated from operations. We believe free cash flow is also useful as one of the bases for comparing our performance with our competitors. The presentation of non-GAAP free cash flow is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity.

(2) Derived from capital expenditures as reported in cash flows from investing activities as per our consolidated statements of cash flows presented in accordance with GAAP.

ORACLE CORPORATION
Q4 FISCAL 2014 FINANCIAL RESULTS
EXPLANATION OF NON-GAAP MEASURES

To supplement our financial results presented on a GAAP basis, we use the non-GAAP measures indicated in the tables, which exclude certain business combination accounting entries and expenses related to acquisitions, as well as other significant expenses including stock-based compensation, that we believe are helpful in understanding our past financial performance and our future results. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on these non-GAAP measures. Our non-GAAP financial measures reflect adjustments based on the following items, as well as the related income tax effects:

- Cloud software-as-a-service and platform-as-a-service, software license updates and product support and hardware systems support deferred revenues: Business combination accounting rules require us to account for the fair values of cloud software-as-a-service and platform-as-a-service contracts, software license updates and product support contracts and hardware systems support contracts assumed in connection with our acquisitions. Because these contracts are generally one year in duration, our GAAP revenues generally for the one year period subsequent to our acquisition of a business do not reflect the full amount of revenues on these assumed cloud and support contracts that would have otherwise been recorded by the acquired entity. The non-GAAP adjustment to our cloud software-as-a-service and platform-as-a-service revenues, software license updates and product support revenues and hardware systems support revenues is intended to include, and thus reflect, the full amount of such revenues. We believe the adjustment to these revenues is useful to investors as a measure of the ongoing performance of our business. We have historically experienced high renewal rates on our software license updates and product support contracts and our objective is to increase the renewal rates on acquired and new cloud software-as-a-service and platform-as-a-service and hardware systems support contracts; however, we cannot be certain that our customers will renew our cloud software-as-a-service and platform-as-a-service contracts, software license updates and product support contracts or our hardware systems support contracts.
- Stock-based compensation expenses: We have excluded the effect of stock-based compensation expenses from our non-GAAP operating expenses and net income measures. Although stock-based compensation is a key incentive offered to our employees, and we believe such compensation contributed to the revenues earned during the periods presented and also believe it will contribute to the generation of future period revenues, we continue to evaluate our business performance excluding stock-based compensation expenses. Stock-based compensation expenses will recur in future periods.
- Amortization of intangible assets: We have excluded the effect of amortization of intangible assets from our non-GAAP operating expenses and net income measures. Amortization of intangible assets is inconsistent in amount and frequency and is significantly affected by the timing and size of our acquisitions. Investors should note that the use of intangible assets contributed to our revenues earned during the periods presented and will contribute to our future period revenues as well. Amortization of intangible assets will recur in future periods.
- Acquisition related and other expenses; and restructuring expenses: We have excluded the effect of acquisition related and other expenses and the effect of restructuring expenses from our non-GAAP operating expenses and net income measures. We incurred significant expenses in connection with our acquisitions and also incurred certain other operating expenses or income, which we generally would not have otherwise incurred in the periods presented as a part of our continuing operations. Acquisition related and other expenses consist of personnel related costs for transitional employees, other acquired employee related costs, stock-based compensation expenses (in addition to the stock-based compensation expenses described above), integration related professional services, certain business combination adjustments including adjustments after the measurement period has ended and certain other operating items, net. Substantially all of the stock-based compensation expenses included in acquisition related and other expenses resulted from unvested options assumed in acquisitions whose vesting was fully accelerated upon termination of the employees pursuant to the original terms of those options. Restructuring expenses consist of employee severance and other exit costs. We believe it is useful for investors to understand the effects of these items on our total operating expenses. Although acquisition related expenses and restructuring expenses generally diminish over time with respect to past acquisitions, we generally will incur these expenses in connection with any future acquisitions.
