or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the transition period from _____ to _____
Commission File Number: 001-35992

Oracle Corporation

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

2300 Oracle Way
Austin, Texas
(Address of principal executive offices)

54-2185193
(I.R.S. Employer
Identification No.)

78741
(Zip Code)

(737) 867-1000
(Registrant's telephone number, including area code)
Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	ORCL	New York Stock Exchange
3.125% senior notes due July 2025	—	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (\$232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒	Accelerated filer ☐
Non-accelerated filer ☐	Smaller reporting company ☐
Emerging growth company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of shares of registrant's common stock outstanding as of September 6, 2021 was: 2,738,179,000.

Cautionary Note on Forward-Looking Statements

For purposes of this Quarterly Report, the terms “Oracle,” “we,” “us” and “our” refer to Oracle Corporation and its consolidated subsidiaries. This Quarterly Report on Form 10-Q contains statements that are not historical in nature, are predictive in nature, or that depend upon or refer to future events or conditions or otherwise contain forward-looking statements within the meaning of Section 21 of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. These include, among other things, statements regarding:

- our expectations regarding the impacts on our business as a result of the global COVID-19 pandemic;
- our expectation that we may acquire companies, products, services and technologies to further our corporate strategy as compelling opportunities become available;
- our expectation that, on a constant currency basis, our total cloud and license revenues generally will continue to increase due to expected growth in our cloud services and our license support offerings, and continued demand for our cloud license and on-premise license offerings;
- our expectation that substantially all of our customers will renew their license support contracts annually;
- our expectation that our hardware business will have lower operating margins as a percentage of revenues than our cloud and license business;
- our expectation that we will continue to make significant investments in research and development, and our belief that research and development efforts are essential to maintaining our competitive position;
- our expectation that our international operations will continue to provide a significant portion of our total revenues and expenses;
- our expectation that variable expenditures that were curtailed primarily in response to COVID-19 may normalize in future periods provided global economic and health conditions improve;
- our expectation that the proportion of our cloud services and license support revenues relative to our cloud license and on-premise license revenues, hardware revenues and services revenues will continue to increase;
- the sufficiency of our sources of funding for working capital, capital expenditures, contractual obligations, acquisitions, dividends, stock repurchases, debt repayments and other matters;
- our belief that we have adequately provided under U.S. generally accepted accounting principles for outcomes related to our tax audits and that the final outcome of our tax-related examinations, agreements or judicial proceedings will not have a material effect on our results of operations, and our belief that our net deferred tax assets will likely be realized in the foreseeable future;
- our belief that the outcome of certain legal proceedings and claims to which we are a party will not, individually or in the aggregate, result in losses that are materially in excess of amounts already recognized, if any;
- the possibility that certain legal proceedings to which we are a party could have a material impact on our financial position, future cash flows and results of operations;
- the timing and amount of expenses we expect to incur;
- the cost savings we expect to realize pursuant to our 2022 Restructuring Plan;
- declarations of future cash dividend payments and the timing and amount of future stock repurchases, including our expectation that the levels of our future stock repurchase activity may be modified in comparison to past periods in order to use available cash for other purposes;

- our expectations regarding the impact of recent accounting pronouncements on our consolidated financial statements;
- our expectation that, to the extent customers renew support contracts or cloud SaaS and IaaS contracts from companies that we have acquired, we will recognize revenues for the full contracts' values over the respective renewal periods;
- our ability to predict revenues, particularly certain cloud license and on-premise license revenues and hardware revenues;
- the percentages of remaining performance obligations that we expect to recognize as revenues over respective future periods;

as well as other statements regarding our future operations, financial condition and prospects, and business strategies. Forward-looking statements may be preceded by, followed by or include the words "expects," "anticipates," "intends," "plans," "believes," "seeks," "strives," "endeavors," "estimates," "will," "should," "is designed to" and similar expressions. We claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about our business that could affect our future results and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in "Risk Factors" included in documents we file from time to time with the U.S. Securities and Exchange Commission (the SEC), including our Annual Report on Form 10-K for our fiscal year ended May 31, 2021 and our other Quarterly Reports on Form 10-Q to be filed by us in our fiscal 2022, which runs from June 1, 2021 to May 31, 2022.

We have no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or risks, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. New information, future events or risks could cause the forward-looking events we discuss in this Quarterly Report not to occur. You should not place undue reliance on these forward-looking statements, which reflect our expectations only as of the date of this Quarterly Report.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
August 31, 2021
(Unaudited)

1. BASIS OF PRESENTATION, RECENT ACCOUNTING PRONOUNCEMENTS AND OTHER

Basis of Presentation

We have prepared the condensed consolidated financial statements included herein pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to such rules and regulations. However, we believe that the disclosures herein are adequate to ensure the information presented is not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021.

We believe that all necessary adjustments, which consisted only of normal recurring items, have been included in the accompanying financial statements to present fairly the results of the interim periods. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any subsequent interim period or for our fiscal year ending May 31, 2022.

During the first quarter of fiscal 2022, we adopted Accounting Standards Update (ASU) 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes (ASU 2019-12)*, which did not have a material impact to our current or historical condensed consolidated financial statements. There have been no changes to our significant accounting policies as disclosed in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021 that had a significant impact on our condensed consolidated financial statements or notes thereto as of and for the three months ended August 31, 2021.

Cash, Cash Equivalents and Restricted Cash

Restricted cash that was included within cash and cash equivalents as presented within our condensed consolidated balance sheets as of August 31, 2021 and May 31, 2021 and our condensed consolidated statements of cash flows for the three months ended August 31, 2021 and 2020 was nominal.

Remaining Performance Obligations from Contracts with Customers

Trade receivables, net of allowance for doubtful accounts, and deferred revenues are reported net of related uncollected deferred revenues in our condensed consolidated balance sheets as of August 31, 2021 and May 31, 2021. The revenues recognized during the three months ended August 31, 2021 and 2020, respectively, that were included in the opening deferred revenues balances as of May 31, 2021 and 2020, respectively, were approximately \$3.7 billion and \$3.4 billion, respectively. Revenues recognized from performance obligations satisfied in prior periods and impairment losses recognized on our receivables were immaterial in each of the three months ended August 31, 2021 and 2020.

Remaining performance obligations, as defined in Note 1 of Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021, were \$38.7 billion as of August 31, 2021, approximately 60% of which we expect to recognize as revenues over the next twelve months, 29% over the subsequent month 13 to month 36, and the remainder thereafter.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

Sales of Financing Receivables

We offer certain of our customers the option to acquire certain of our cloud and license, hardware and services offerings through separate long-term payment contracts. We generally sell these contracts that we have financed for our customers on a non-recourse basis to financial institutions within 90 days of the contracts' dates of execution. We record the transfers of amounts due from customers to financial institutions as sales of financing receivables because we are considered to have surrendered control of these financing receivables. Financing receivables sold to financial institutions were \$656 million and \$677 million for the three months ended August 31, 2021 and 2020, respectively.

Acquisition Related and Other Expenses

Acquisition related and other expenses primarily consist of personnel related costs for transitional and certain other employees, certain business combination adjustments including adjustments after the measurement period has ended, and certain other operating items, net.

(in millions)	Three Months Ended August 31,	
	2021	2020
Transitional and other employee related costs	\$ 2	\$ 2
Business combination adjustments, net	3	1
Other, net	16	16

Total non-operating expenses, net	<u>\$ (41)</u>	<u>\$ (2)</u>

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

Recent Accounting Pronouncements

Financial Instruments: In March 2020, the Financial Accounting Standards Board (FASB) issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* (ASU 2020-04) and also issued subsequent amendments to the initial guidance (collectively, Topic 848). Topic 848 provides optional guidance for contract modifications and certain hedging relationships associated with the transition from reference rates that are expected to be discontinued. We will adopt Topic 848 when our relevant contracts are modified upon transition to alternative reference rates. We do not expect our adoption of Topic 848 to have a material impact on our consolidated financial statements.

2. ACQUISITIONS

Fiscal 2022 and 2021 Acquisitions

During the first quarter of fiscal 2022 and full year fiscal 2021, we acquired certain companies and purchased certain technology and development assets primarily to expand our products and services offerings. These acquisitions were not significant individually or in the aggregate to our condensed consolidated financial statements.

3. FAIR VALUE MEASUREMENTS

We perform fair value measurements in accordance with FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at their fair values, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the assets or liabilities, such as inherent risk, transfer restrictions and risk of nonperformance.

ASC 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. An asset's or a liability's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair values of the assets or liabilities.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Our assets and liabilities measured at fair value on a recurring basis consisted of the following (Level 1 and Level 2 inputs are defined above):

(in millions)	August 31, 2021			May 31, 2021		
	Fair Value Measurements Using Input Types		Total	Fair Value Measurements Using Input Types		Total
	Level 1	Level 2		Level 1	Level 2	
Assets:						
Money market funds	\$ 5,269	\$ —	\$ 5,269	\$ 12,263	\$ —	\$ 12,263
Corporate debt securities and other	2,204	9,450	11,654	1,250	8,220	9,470
Commercial paper debt securities	—	9,510	9,510	—	11,712	11,712
Derivative financial instruments	—	35	35	—	73	73
Total assets	<u>\$ 7,473</u>	<u>\$ 18,995</u>	<u>\$ 26,468</u>	<u>\$ 13,513</u>	<u>\$ 20,005</u>	<u>\$ 33,518</u>

We classify our marketable securities as available-for-sale debt securities at the time of purchase and reevaluate such classification as of each balance sheet date. Our marketable securities investments consist of money market funds, Tier 1 commercial paper debt securities, corporate debt securities and certain other securities. Marketable securities as presented per our condensed consolidated balance sheets included securities with original maturities at the time of purchase greater than three months and the remainder of the securities were included in cash and cash equivalents. As of August 31, 2021 and May 31, 2021, substantially all of our marketable securities investments mature within one year. Our valuation techniques used to measure the fair values of our instruments that were classified as Level 1 in the table above were derived from quoted market prices and active markets for these instruments that exist. Our valuation techniques used to measure the fair values of Level 2 instruments listed in the table above were derived from the following: non-binding market consensus prices that were corroborated by observable market data, quoted market prices for similar instruments, or pricing models, such as discounted cash flow techniques, with all significant inputs derived from or corroborated by observable market data including reference rate yield curves, among others.

Based on the trading prices of the \$82.7 billion and \$84.2 billion of senior notes and the related fair value hedges that we had outstanding as of August 31, 2021 and May 31, 2021, respectively, the estimated fair values of the senior notes and the related fair value hedges using Level 2 inputs at August 31, 2021 and May 31, 2021 were \$90.2 billion and \$89.6 billion, respectively.

4. INTANGIBLE ASSETS AND GOODWILL

The changes in intangible assets for fiscal 2022 and the net book value of intangible assets as of August 31, 2021 and May 31, 2021 were as follows:

(Dollars in millions)	Intangible Assets, Gross			Accumulated Amortization			Intangible Assets, Net		Weighted Average Useful Life ⁽²⁾
	May 31, 2021	Additions & Adjustments, net ⁽¹⁾	August 31, 2021	May 31, 2021	Expense	August 31, 2021	May 31, 2021	August 31, 2021	
Developed technology	\$ 4,237	\$ 59	\$ 4,296	\$ (3,621)	\$ (127)	\$ (3,748)	\$ 616	\$ 548	3
Cloud services and license support agreements and related relationships	5,497	(5)	5,492	(3,834)	(155)	(3,989)	1,663	1,503	N.A.
Other	1,269	—	1,269	(1,118)	(21)	(1,139)	151	130	N.A.
Total intangible assets, net	<u>\$ 11,003</u>	<u>\$ 54</u>	<u>\$ 11,057</u>	<u>\$ (8,573)</u>	<u>\$ (303)</u>	<u>\$ (8,876)</u>	<u>\$ 2,430</u>	<u>\$ 2,181</u>	

(1) Amounts also include any changes in intangible asset balances for the periods presented that resulted from foreign currency translations.

(2) Represents weighted-average useful lives (in years) of intangible assets acquired during fiscal 2022.

As of August 31, 2021, estimated future amortization expenses related to intangible assets were as follows (in millions):

Remainder of fiscal 2022	\$ 834
Fiscal 2023	716
Fiscal 2024	473
Fiscal 2025	124
Fiscal 2026	24
Fiscal 2027	6
Thereafter	4
Total intangible assets, net	<u>\$ 2,181</u>

The changes in the carrying amounts of goodwill, net, which is generally not deductible for tax purposes, for our operating segments for the three months ended August 31, 2021 were as follows:

(in millions)	Cloud and License	Hardware	Services	Total Goodwill, net
Balances as of May 31, 2021	\$ 39,786	\$ 2,367	\$ 1,782	\$ 43,935
Goodwill adjustments, net ⁽¹⁾	186	—	(259)	(73)
Balances as of August 31, 2021	<u>\$ 39,972</u>	<u>\$ 2,367</u>	<u>\$ 1,523</u>	<u>\$ 43,862</u>

(1) Amounts include any changes in goodwill balances for the period presented that resulted from foreign currency translations and the realignment of an operating segment component.

5. RESTRUCTURING ACTIVITIES

Fiscal 2022 Oracle Restructuring Plan

During the first quarter of fiscal 2022, our management approved, committed to and initiated plans to restructure and further improve efficiencies in our operations due to our acquisitions and certain other operational activities (2022 Restructuring Plan). The total estimated restructuring costs associated with the 2022 Restructuring Plan are up to \$353 million and will be recorded to the restructuring expense line item within our condensed consolidated statements of operations as they are incurred. We recorded \$55 million of restructuring expenses in connection with the 2022 Restructuring Plan in the first three months of fiscal 2022 and we expect to incur the majority of the estimated remaining \$298 million through the end of fiscal 2023. Any changes to the estimates of executing the 2022 Restructuring Plan will be reflected in our future results of operations.

Summary of All Plans

(in millions)	Accrued May 31, 2021 ⁽²⁾	Three Months Ended August 31, 2021				Accrued August 31, 2021 ⁽²⁾	Total Costs Accrued to Date	Total Expected Program Costs
		Initial Costs ⁽³⁾	Adj. to Cost ⁽⁴⁾	Cash Payments	Others ⁽⁵⁾			
2022 Restructuring Plan⁽¹⁾								
Cloud and license	\$ —	\$ 37	\$ —	\$ (13)	\$ —	\$ 24	\$ 37	\$ 247
Hardware	—	3	—	(2)	—	1	3	26
Services	—	4	—	(1)	—	3	4	37
Other ⁽⁶⁾	—	11	—	(2)	—	9	11	43
Total 2022 Restructuring Plan	\$ —	\$ 55	\$ —	\$ (18)	\$ —	\$ 37	\$ 55	\$ 353
Total other restructuring plans ⁽⁷⁾	\$ 225	\$ —	\$ (17)	\$ (50)	\$ (6)	\$ 152		
Total restructuring plans	\$ 225	\$ 55	\$ (17)	\$ (68)	\$ (6)	\$ 189		

(1) Restructuring costs recorded for individual line items primarily related to employee severance costs.

(2) As of August 31, 2021 and May 31, 2021, substantially all restructuring liabilities have been recorded in other current liabilities within our condensed consolidated balance sheets.

(3) Costs recorded for the respective restructuring plans during the current period presented.

(4) All plan adjustments were changes in estimates whereby increases and decreases in costs were generally recorded to operating expenses in the period of adjustments.

(5) Represents foreign currency translation and certain other adjustments.

(6) Represents employee related severance costs for functions that are not included within our operating segments and certain other restructuring costs.

(7) Other restructuring plans presented in the table above included condensed information for other Oracle based plans and other plans associated with certain of our acquisitions whereby we continued to make cash outlays to settle obligations under these plans during the period presented but for which the periodic impact to our condensed consolidated statements of operations was not significant.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

6. DEFERRED REVENUES

Deferred revenues consisted of the following:

(in millions)	August 31, 2021	May 31, 2021
Cloud services and license support	\$ 9,033	\$ 7,728
Hardware	599	618
Services	318	399
Cloud license and on-premise license	61	30
Deferred revenues, current	10,011	8,775
Deferred revenues, non-current (in other non-current liabilities)	773	679
Total deferred revenues	\$ 10,784	\$ 9,454

Deferred cloud services and license support revenues and deferred hardware revenues substantially represent customer payments made in advance for cloud or support contracts that are typically billed in advance with corresponding revenues generally being recognized ratably over the contractual periods. Deferred services revenues include prepayments for our services business and revenues for these services are generally recognized as the services are performed. Deferred cloud license and on-premise license revenues typically resulted from customer payments that related to undelivered products and services or specified enhancements.

7. STOCKHOLDERS' (DEFICIT) EQUITY

Common Stock Repurchases

Our Board of Directors has approved a program for us to repurchase shares of our common stock. As of August 31, 2021, approximately \$7.6 billion remained available for stock repurchases pursuant to our stock repurchase program. We repurchased 94.0 million shares for \$8.0 billion during the three months ended August 31, 2021 (including 0.8 million shares for \$71 million that were repurchased but not settled) and 89.8 million shares for \$5.0 billion during the three months ended August 31, 2020 under the stock repurchase program.

Our stock repurchase authorization does not have an expiration date and the pace of our repurchase activity will depend on factors such as our working capital needs, our cash requirements for acquisitions and dividend payments, our debt repayment obligations or repurchases of our debt, our stock price, and economic and market conditions. Our stock repurchases may be effected from time to time through open market purchases or pursuant to a Rule 10b5-1 plan. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

Dividends on Common Stock

In September 2021, our Board of Directors declared a quarterly cash dividend of \$0.32 per share of our outstanding common stock. The dividend is payable on October 26, 2021 to stockholders of record as of the close of business on October 12, 2021. Future declarations of dividends and the establishment of future record and payment dates are subject to the final determination of our Board of Directors.

Fiscal 2022 Stock-Based Awards Activity and Compensation Expense

During the first quarter of fiscal 2022, we issued 47 million restricted stock-based units (RSUs), substantially all of which were issued as a part of our annual stock-based award process and are subject to service-based vesting restrictions. These fiscal 2022 stock-based award issuances were partially offset by stock-based award forfeitures and cancellations of 2 million shares during the first quarter of fiscal 2022.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

The RSUs that were granted during the three months ended August 31, 2021 have vesting restrictions, valuations and contractual lives of a similar nature to those described in Note 13 of Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021.

Further, during the first quarter of fiscal 2022, the Compensation Committee of our Board of Directors approved an amendment to the terms of the performance-based stock options (PSOs) granted on July 20, 2017 to our Chief Executive Officer and Chief Technology Officer. The amendment extends the term of the performance period for each of the six tranches of the PSOs that require the attainment of both a performance metric and a market capitalization metric by three additional fiscal years from May 31, 2022 to May 31, 2025. A seventh PSO tranche that was based upon a market-based metric was achieved and accordingly the tranche vested in the first quarter of fiscal 2022 without any amendment. If any of the remaining operational and market capitalization performance goals are achieved before May 31, 2025 additional tranches may vest. Upon amendment, we estimated the revised fair values of the six unvested tranches of the PSOs using a Monte Carlo simulation approach. We will recognize incremental stock-based compensation expense if any of the remaining unvested tranches becomes probable of achievement over the longer of the (a) estimated implicit service period for performance-metric achievement, or (b) derived service period for market-based metric achievement. We have preliminarily estimated service periods for those tranches that have been deemed probable of achievement to be approximately three to four years.

Stock-based compensation expense is included in the following operating expense line items in our condensed consolidated statements of operations:

(in millions)	Three Months Ended August 31,	
	2021	2020
Cloud services and license support	\$ 40	\$ 30
Hardware	3	3
Services	14	12
Sales and marketing	95	71
Research and development	344	276
General and administrative	49	36
Total stock-based compensation	<u>\$ 545</u>	<u>\$ 428</u>

8. INCOME TAXES

Our effective tax rates for each of the periods presented are the result of the mix of income earned in various tax jurisdictions that apply a broad range of income tax rates. Our provision for income taxes varied from the tax computed at the U.S. federal statutory income tax rate for the periods presented primarily due to earnings in foreign operations, state taxes, the U.S. research and development tax credit, settlements with tax authorities, the tax effects of stock-based compensation, the Foreign Derived Intangible Income deduction and the tax effect of Global Intangible Low-Taxed Income. Our effective tax rates were 8.4% and 13.3% for the three months ended August 31, 2021 and 2020, respectively.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

Our net deferred tax assets were \$5.7 billion and \$5.8 billion as of August 31, 2021 and May 31, 2021, respectively. We believe that it is more likely than not that the net deferred tax assets will be realized in the foreseeable future. Realization of our net deferred tax assets is dependent upon our generation of sufficient taxable income in future years in appropriate tax jurisdictions to obtain benefit from the reversal of temporary differences, net operating loss carryforwards and tax credit carryforwards. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Domestically, U.S. federal and state taxing authorities are currently examining income tax returns of Oracle and various acquired entities for years through fiscal 2020. Our U.S. federal income tax returns have been examined for all years prior to fiscal 2010 and, with some exceptions, we are no longer subject to audit for those periods. Our U.S. state income tax returns, with some exceptions, have been examined for all years prior to fiscal 2007, and we are no longer subject to audit for those periods.

Internationally, tax authorities for numerous non-U.S. jurisdictions are also examining returns affecting our unrecognized tax benefits. With some exceptions, we are generally no longer subject to tax examinations in non-U.S. jurisdictions for years prior to fiscal 2001.

We are under audit by the IRS and various other domestic and foreign tax authorities with regards to income tax and indirect tax matters and are involved in various challenges and litigation in a number of countries, including, in particular, Australia, Brazil, Canada, India, Indonesia, Israel, Mexico, New Zealand, Pakistan, Saudi Arabia, South Korea and Spain, where the amounts under controversy are significant. In some, although not all, cases, we have reserved for potential adjustments to our provision for income taxes and accrual of indirect taxes that may result from examinations by, or any negotiated agreements with, these tax authorities or final outcomes in judicial proceedings, and we believe that the final outcome of these examinations, agreements or judicial proceedings will not have a material effect on our results of operations. If events occur which indicate payment of these amounts is unnecessary, the reversal of the liabilities would result in the recognition of benefits in the period we determine the liabilities are no longer necessary. If our estimates of the federal, state, and foreign income tax liabilities and indirect tax liabilities are less than the ultimate assessment, it could result in a further charge to expense.

We believe that we have adequately provided under GAAP for outcomes related to our tax audits. However, there can be no assurances as to the possible outcomes or any related financial statement effect thereof.

9. SEGMENT INFORMATION

ASC 280, *Segment Reporting*, establishes standards for reporting information about operating segments. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision makers (CODMs) are our Chief Executive Officer and Chief Technology Officer. We are organized by line of business and geographically. While our CODMs evaluate results in a number of different ways, the line of business management structure is the primary basis for which the allocation of resources and financial results are assessed. The tabular information below presents the financial information provided to our CODMs for their review and assists our CODMs with evaluating the company's performance and allocating company resources.

We have three businesses—cloud and license, hardware and services—each of which is comprised of a single operating segment. All three of our businesses market and sell our offerings globally to businesses of many sizes, government agencies, educational institutions and resellers with a worldwide sales force positioned to offer the combinations that best meet customer needs.

Our cloud and license business engages in the sale, marketing and delivery of our enterprise applications and infrastructure technologies through cloud and on-premise deployment models including our cloud services and

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

license support offerings; and our cloud license and on-premise license offerings. Cloud services and license support revenues are generated from offerings that are typically contracted with customers directly, billed to customers in advance, delivered to customers over time with our revenue recognition occurring over the contractual terms, and renewed by customers upon completion of the contractual terms. Cloud services and license support contracts provide customers with access to the latest updates to the applications and infrastructure technologies as they become available and for which the customer contracted and also include related technical support services over the contractual term. Cloud license and on-premise license revenues represent fees earned from granting customers licenses, generally on a perpetual basis, to use our database and middleware and our applications software products within cloud and on-premise IT environments. We generally recognize revenues at the point in time the software is made available to the customer to download and use, which typically is immediate upon signature of the license contract. In each fiscal year, our cloud and license business' contractual activities are typically highest in our fourth fiscal quarter and the related cash flows are typically highest in the following quarter (i.e., in the first fiscal quarter of the next fiscal year) as we receive payments from these contracts.

Our hardware business provides infrastructure technologies including Oracle Engineered Systems, servers, storage, industry-specific hardware, operating systems, virtualization, management and other hardware-related software to support diverse IT environments. Our hardware business also offers hardware support, which provides customers with software updates for the software components that are essential to the functionality of their hardware products and can also include product repairs, maintenance services and technical support services.

Our services business provides services to customers and partners to help maximize the performance of their investments in Oracle applications and infrastructure technologies.

We do not track our assets for each business. Consequently, it is not practical to show assets by operating segment.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table presents summary results for each of our three businesses:

(in millions)	Three Months Ended August 31,	
	2021	2020
Cloud and license:		
Revenues ⁽¹⁾	\$ 8,184	\$ 7,834
Cloud services and license support expenses	1,153	958
Sales and marketing expenses	1,626	1,633
Margin ⁽²⁾	\$ 5,405	\$ 5,243
Hardware:		
Revenues	\$ 763	\$ 814
Hardware products and support expenses	238	239
Sales and marketing expenses	89	98
Margin ⁽²⁾	\$ 436	\$ 477
Services:		
Revenues	\$ 781	\$ 720
Services expenses	609	585
Margin ⁽²⁾	\$ 172	\$ 135
Totals:		
Revenues ⁽¹⁾	\$ 9,728	\$ 9,368
Expenses	3,715	3,513
Margin ⁽²⁾	\$ 6,013	\$ 5,855

(1) Cloud and license revenues presented for management reporting included revenues related to cloud and license obligations that would have otherwise been recorded by the acquired businesses as independent entities but were not recognized in our condensed consolidated statements of operations for the periods presented due to business combination accounting requirements. The table below provides a reconciliation of our total operating segment revenues to our total revenues as reported in our condensed consolidated statements of operations.

(2) The margins reported reflect only the direct controllable costs of each line of business and do not include allocations of research and development, general and administrative and certain other allocable expenses, net. Additionally, the margins reported above do not reflect amortization of intangible assets, acquisition related and other expenses, restructuring expenses, stock-based compensation, interest expense or certain other non-operating expenses, net.

ORACLE CORPORATION

Stock-based compensation for operating segments	(152)	(116)
Expense allocations and other, net	(90)	(105)
Interest expense	(705)	(614)
Non-operating expenses, net	(41)	(2)
Income before provision for income taxes	\$ 2,681	\$ 2,595

(1) Cloud and license revenues presented for management reporting included revenues related to cloud and license obligations that would have otherwise been recorded by the acquired businesses as independent entities but were not recognized in our condensed consolidated statements of operations for the periods presented due to business combination accounting requirements. This table includes a reconciliation of our total operating segment revenues to our total revenues as reported in our condensed consolidated statements of operations.

Disaggregation of Revenues

We have considered information that is regularly reviewed by our CODMs in evaluating financial performance, and disclosures presented outside of our financial statements in our earnings releases and used in investor presentations to disaggregate revenues to depict how the nature, amount, timing and uncertainty of revenues and cash flows are affected by economic factors. The principal category we use to disaggregate revenues is the nature of our products and services as presented in our condensed consolidated statements of operations, the total of which is reconciled to revenues from our reportable segments as per the preceding tables of this footnote.

The following table is a summary of our total revenues by geographic region. The relative proportion of our total revenues between each geographic region as presented in the table below was materially consistent across each of our operating segments' revenues for the periods presented.

Total cloud services and license support revenues	<u>\$ 7,371</u>	<u>\$ 6,947</u>

10. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income for the period by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income for the period by the weighted-average number of common shares outstanding during the period, plus the dilutive effect of outstanding restricted stock-based awards, stock options, and shares issuable under the employee stock purchase plan as applicable pursuant to the treasury stock method. The following table sets forth the computation of basic and diluted earnings per share:

(in millions, except per share data)	Three Months Ended August 31,	
	2021	2020
Net income	<u>\$ 2,457</u>	<u>\$ 2,251</u>
Weighted average common shares outstanding	2,769	3,041
Dilutive effect of employee stock plans	92	66
Dilutive weighted average common shares outstanding	<u>2,861</u>	<u>3,107</u>
Basic earnings per share	\$ 0.89	\$ 0.74
Diluted earnings per share	\$ 0.86	\$ 0.72
Shares subject to anti-dilutive restricted stock-based awards and stock options excluded from calculation(1)	30	36

(1) Substantially all of these weighted shares are related to contingently issuable shares related to PSO arrangements that could be dilutive in the future.

11. LEGAL PROCEEDINGS

Hewlett-Packard Company Litigation

On June 15, 2011, Hewlett-Packard Company, now Hewlett Packard Enterprise Company (HP), filed a complaint in the California Superior Court, County of Santa Clara against Oracle Corporation alleging numerous causes of action including breach of contract, breach of the covenant of good faith and fair dealing, defamation, intentional interference with prospective economic advantage, and violation of the California Unfair Business Practices Act. The complaint alleged that when Oracle announced on March 22 and 23, 2011 that it would no longer develop future versions of its software to run on HP's Itanium-based servers, it breached a settlement agreement signed on September 20, 2010 (the HP Settlement Agreement), resolving litigation between HP and one of Oracle's former CEOs who had previously acted as HP's chief executive officer and chairman of HP's board of directors. HP sought a judicial declaration of the parties' rights and obligations under the HP Settlement Agreement and other equitable and monetary relief. Oracle answered the complaint and filed cross-claims.

After a bench trial on the meaning of the HP Settlement Agreement, the court found that the HP Settlement Agreement required Oracle to continue to develop certain of its software products for use on HP's Itanium-based servers at no cost to HP. The case proceeded to a jury trial in May 2016. On June 30, 2016, the jury returned a verdict in favor of HP on its claims for breach of contract and breach of the implied covenant of good faith and fair dealing and against Oracle on its cross-claims. The jury awarded HP \$3.0 billion in damages. Under the court's rulings, HP is entitled to post-judgment interest, but not pre-judgment interest, on this award.

After the trial court denied Oracle's motion for a new trial, Oracle filed a notice of appeal on January 17, 2017. On February 2, 2017, HP filed a notice of appeal of the trial court's denial of pre-judgment interest. Oral argument was held on May 27, 2021. On June 14, 2021, the Court of Appeal affirmed both the judgment against Oracle noted above, and the denial of pre-judgment interest. Oracle has posted a mandated surety bond with the trial court for the amounts owing. On June 29, 2021, Oracle filed a Petition for Rehearing with the Court of Appeal, which was denied on July 8, 2021. On July 26, 2021, Oracle filed a Petition for Review with the California Supreme Court, and briefing on that Petition is now complete. No amounts have been paid or recorded to our results of operations. If the Court of Appeal's judgment is ultimately affirmed, we would be liable for the amount of the jury award that is described above plus post-judgment interest.

We continue to believe that we have meritorious defenses against HP's claims and intend to vigorously defend against them.

We cannot currently estimate a reasonably possible range of loss for this action due to the complexities and uncertainty surrounding this process and the nature of the claims. Litigation is inherently unpredictable, and the outcome of the process related to this action is uncertain. It is possible that the resolution of this action could have a material impact on our future cash flows and results of operations.

Derivative Litigation Concerning Oracle's NetSuite Acquisition

On May 3 and July 18, 2017, two alleged stockholders filed separate derivative lawsuits in the Court of Chancery of the State of Delaware, purportedly on Oracle's behalf. Thereafter, the court consolidated the two derivative cases and designated the July 18, 2017 complaint as the operative complaint. The consolidated lawsuit was brought against all the then-current members and one former member of our Board of Directors, and Oracle as a nominal defendant. Plaintiff alleged that the defendants breached their fiduciary duties by causing Oracle to agree to purchase NetSuite Inc. (NetSuite) at an excessive price. The complaint sought (and the operative complaint continues to seek) declaratory relief, unspecified monetary damages (including interest), and attorneys' fees and costs. The defendants filed a motion to dismiss, which the court denied on March 19, 2018.

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

On May 4, 2018, our Board of Directors established a Special Litigation Committee (the SLC) to investigate the allegations in this derivative action. Three non-employee directors served on the SLC. On August 15, 2019, the SLC filed a letter with the court, stating that the SLC believed that plaintiff should be allowed to proceed with the derivative litigation on behalf of Oracle. After the SLC advised the Board that it had fulfilled its duties and obligations, the Board withdrew the SLC's authority, except that the SLC maintained certain authority to respond to discovery requests in the litigation.

After plaintiff filed the July 18, 2017 complaint, an additional plaintiff joined the case. Plaintiffs filed several amended complaints, and filed their most recent amended complaint on December 11, 2020. The operative complaint asserts claims for breach of fiduciary duty against our Chief Executive Officer, our Chief Technology Officer, the estate of Mark Hurd (our former Chief Executive Officer who passed away on October 18, 2019), and two other members of our Board of Directors. Oracle is named as a nominal defendant. On December 11, 2020, the estate of Mark Hurd and the two other members of our Board of Directors moved to dismiss this complaint, and a hearing on this motion was held on February 16, 2021. On June 21, 2021, the court granted this motion as to the estate of Mark Hurd and one Board member and denied the motion as to the other Board member, who filed an answer to the complaint on August 9, 2021. On December 28, 2020, our Chief Executive Officer, our Chief Technology Officer, and Oracle as a nominal defendant filed answers to the operative complaint.

The parties are conducting discovery. Trial is scheduled to commence on July 18, 2022.

While Oracle continues to evaluate these claims, we do not believe this litigation will have a material impact on our financial position or results of operations.

Securities Class Action and Derivative Litigation Concerning Oracle's Cloud Business

On August 10, 2018, a putative class action, brought by an alleged stockholder of Oracle, was filed in the U.S. District Court for the Northern District of California against us, our Chief Technology Officer, our then-two Chief Executive Officers, two other Oracle executives, and one former Oracle executive. As noted above, Mr. Hurd, one of our then-two Chief Executive Officers, passed away on October 18, 2019. On March 8, 2019, plaintiff filed an amended complaint. Plaintiff alleges that the defendants made or are responsible for false and misleading statements regarding Oracle's cloud business. Plaintiff further alleges that the former Oracle executive engaged in insider trading. Plaintiff seeks a ruling that this case may proceed as a class action, and seeks damages, attorneys' fees and costs, and unspecified declaratory/injunctive relief. On April 19, 2019, defendants moved to dismiss plaintiff's amended complaint. On December 17, 2019, the court granted this motion, giving plaintiffs an opportunity to file an amended complaint, which plaintiff filed on February 17, 2020. On April 23, 2020, defendants filed a motion to dismiss, and the court held a hearing on this motion on September 24, 2020. On March 22, 2021, the court granted in part and denied in part this motion. The court dismissed the action as to one Oracle executive and the former Oracle executive. The court permitted plaintiff to proceed with only a narrow omissions theory against the remaining defendants. On April 21, 2021, defendants filed an answer to the complaint. Trial is scheduled to commence on November 6, 2023. We believe that we have meritorious defenses against this action, and we will continue to vigorously defend it.

On February 12 and May 8, 2019, two stockholder derivative lawsuits were filed in the United States District Court for the Northern District of California. The cases were consolidated, and on July 8, 2019, a single plaintiff filed a consolidated complaint. The consolidated complaint brought various claims relating to the 10b-5 class action described immediately above. The parties agreed to stay the derivative case pending resolution of defendants' motion to dismiss the securities case, which the court granted in part and denied in part on March 22, 2021.

Plaintiff filed an amended complaint on June 4, 2021. The derivative suit is brought by an alleged stockholder of Oracle, purportedly on Oracle's behalf, against our Chief Technology Officer, our Chief Executive Officer, and the

ORACLE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
August 31, 2021
(Unaudited)

estate of Mark Hurd. Plaintiff claims that the alleged actions described in the class action discussed above caused harm to Oracle, and that defendants violated their fiduciary duties of candor, good faith, loyalty, and due care by failing to prevent this alleged harm. Plaintiff also brings derivative claims for violations of federal securities laws. Plaintiffs seek a ruling that this case may proceed as a derivative action, a finding that defendants are liable for breaching their fiduciary duties, damages, an order directing defendants to enact corporate reforms, attorneys' fees and costs, and unspecified relief. On June 14, 2021, the court "so ordered" a stipulation from the parties, staying this case pending resolution of the 10b-5 action.

While Oracle continues to evaluate these claims, we do not believe this litigation will have a material impact on our financial position or results of operations.

Derivative Litigation Concerning Oracle's Board Composition and Hiring Practices

On July 2 and 10, 2020, two alleged stockholders filed derivative lawsuits in the U.S. District Court for the Northern District of California, purportedly on Oracle's behalf, and thereafter, filed a consolidated complaint on August 21, 2020. On July 30, 2020, a third alleged stockholder filed a derivative lawsuit in the same court. On October 16, 2020, defendants moved to consolidate all these actions, and the court granted this motion on November 30, 2020.

On December 7, 2020, plaintiffs filed a consolidated derivative complaint against all members of our Board of Directors, and Oracle as a nominal defendant, seeking declaratory and injunctive relief, monetary damages, interest, corporate governance changes, disgorgement, restitution, punitive damages, and an award of attorneys' fees, expert fees, and costs. Plaintiffs allege that: (a) defendants breached their fiduciary duties by permitting Oracle to violate anti-discrimination laws and Oracle's own policies, failing to ensure sufficient diversity on the board, failing to ensure an independent board chairman, rehiring Ernst & Young LLP as Oracle's auditors, and by breaching the HP Settlement Agreement (discussed above); (b) defendants made false and misleading statements in Oracle's proxy statements; (c) defendants received unjust compensation and were unjustly enriched; (d) defendants aided and abetted this conduct; and (e) our Chief Technology Officer and our Chief Executive Officer are liable for abuse of control. On January 6, 2021, defendants moved to dismiss the complaint. On May 24, 2021, the court granted defendants' motion. Regarding the claims concerning Oracle's proxy statements, the court granted plaintiffs leave to file an amended complaint within 30 days. Plaintiffs did not file an amended complaint within 30 days. On September 3, 2021, the court entered judgment for defendants on these claims. Regarding the remaining claims, the court granted plaintiffs leave to re-file those claims in Delaware Chancery Court.

While Oracle continues to evaluate these claims, we do not believe this litigation will have a material impact on our financial position or results of operations.

Other Litigation

We are party to various other legal proceedings and claims, either asserted or unasserted, which arise in the ordinary course of business, including proceedings and claims that relate to acquisitions we have completed or to companies we have acquired or are attempting to acquire. While the outcome of these matters cannot be predicted with certainty, we do not believe that the outcome of any of these matters, individually or in the aggregate, will result in losses that are materially in excess of amounts already recognized, if any.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

We begin Management’s Discussion and Analysis of Financial Condition and Results of Operations with an overview of our businesses and significant trends. This overview is followed by a summary of our critical accounting policies and estimates that we believe are important to understanding the assumptions and judgments incorporated in our reported financial results. We then provide a more detailed analysis of our results of operations and financial condition.

Business Overview

Oracle provides products and services that address enterprise information technology (IT) environments. Our products and services include enterprise applications and infrastructure offerings that are delivered worldwide through a variety of flexible and interoperable IT deployment models. These models include on-premise deployments, cloud-based deployments, and hybrid deployments (an approach that combines both on-premise and cloud-based deployment) such as our Oracle Cloud@Customer offering (an instance of Oracle Cloud in a customer’s own data center). Accordingly, we offer choice and flexibility to our customers and facilitate the product, service and deployment combinations that best suit our customers’ needs. Through our worldwide sales force and Oracle Partner Network, we sell to customers all over the world including businesses of many sizes, government agencies, educational institutions and resellers.

We have three businesses: cloud and license; hardware; and services; each of which comprises a single operating segment. The descriptions set forth below as a part of this Item 2 Management’s Discussion and Analysis of Financial Condition and Results of Operations and the information contained within Note 9 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report provide additional information related to our businesses and operating segments and align to how our chief operating decision makers (CODMs), which include our Chief Executive Officer and Chief Technology Officer, view our operating results and allocate resources.

Impacts of the COVID-19 Pandemic on Oracle’s Business

For a discussion of the impacts on and risks to our business from COVID-19, please refer to “Impacts of the COVID-19 Pandemic on Oracle’s Business” included in Item 1 Business and certain risk factors included in Item 1A Risk Factors in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021; and the information presented below in Results of Operations as a part of this Item 2 of this Quarterly Report.

Cloud and License Business

Our cloud and license business, which represented 84% of our total revenues on a trailing 4-quarter basis, markets, sells and delivers a broad spectrum of enterprise applications and infrastructure technologies through our cloud and license offerings. Revenue streams included in our cloud and license business are:

- Cloud services and license support revenues, which include:
 - license support revenues, which are earned by providing Oracle license support services to customers that have elected to purchase support services in connection with the purchase of Oracle applications and infrastructure software licenses for use in cloud, on-premise and other IT environments. Substantially all license support customers renew their support contracts with us upon expiration in order to continue to benefit from technical support services and the periodic issuance of unspecified updates and enhancements, which current license support customers are entitled to receive. License support contracts are generally priced as a percentage of the net fees paid by the customer to purchase a cloud license and/or on-premise license; are generally billed in advance of the support services being performed; are generally renewed at the customer’s option; and are generally recognized as revenues ratably over the contractual period that the support services are provided, which is generally one year; and

- cloud services revenues, which provide customers access to Oracle Cloud applications and infrastructure technologies via cloud-based deployment models that Oracle develops, provides unspecified updates and enhancements for, deploys, hosts, manages and supports and that customers access by entering into a subscription agreement with us for a stated period. Oracle Cloud Services arrangements are generally billed in advance of the cloud services being performed; generally have durations of one to three years; are generally renewed at the customer's option; and are generally recognized as revenues ratably over the contractual period of the cloud contract or, in the case of usage model contracts, as the cloud services are consumed over time.
- Cloud license and on-premise license revenues, which include revenues from the licensing of our software products including Oracle Applications, Oracle Database, Oracle Middleware and Java, among others, which our customers deploy within cloud-based, on-premise and other IT environments. Our cloud license and on-premise license transactions are generally perpetual in nature and are generally recognized as revenues up front at the point in time when the software is made available to the customer to download and use. Revenues from usage-based royalty arrangements for distinct cloud licenses and on-premise licenses are recognized at the point in time when the software end user usage occurs. The timing of a few large license transactions can substantially affect our quarterly license revenues due to the point-in-time nature of revenue recognition for license transactions, which is different than the typical revenue recognition pattern for our cloud services and license support revenues in which revenues are generally recognized ratably over the contractual terms. Cloud license and on-premise license customers have the option to purchase and renew license support contracts, as further described above.

Providing choice and flexibility to our customers as to when and how they deploy Oracle applications and infrastructure technologies are important elements of our corporate strategy. In recent periods, customer demand for our applications and infrastructure technologies delivered through our Oracle Cloud Services has increased. To address customer demand and enable customer choice, we have introduced certain programs for customers to pivot their applications and infrastructure licenses and the related license support to the Oracle Cloud for new deployments and to migrate to and expand with the Oracle Cloud for their existing workloads. The proportion of our cloud services and license support revenues relative to our cloud license and on-premise license revenues, hardware revenues and services revenues has increased and we expect this trend to continue. Cloud services and license support revenues represented 76% and 74% of our total revenues in the first three months of fiscal 2022 and 2021, respectively.

Our cloud and license business' revenue growth is affected by many factors, including the strength of general economic and business conditions; governmental budgetary constraints; the strategy for and competitive position of our offerings; the continued renewal of our cloud services and license support customer contracts by the customer contract base; substantially all customers continuing to purchase license support contracts in connection with their license purchases; the pricing of license support contracts sold in connection with the sales of licenses; the pricing, amounts and volumes of licenses and cloud services sold; our ability to manage Oracle Cloud capacity requirements to meet existing and prospective customer demand; and foreign currency rate fluctuations.

On a constant currency basis, we expect that our total cloud and license revenues generally will continue to increase due to:

- expected growth in our cloud services and license support offerings; and
- continued demand for our cloud license and on-premise license offerings.

We believe these factors should contribute to future growth in our cloud and license business' total revenues, which should enable us to continue to make investments in research and development and our cloud operations to develop, improve, increase the capacity of and expand the geographic footprint of our cloud and license products and services.

Our cloud and license business' margin has historically trended upward over the course of the four quarters within a particular fiscal year due to the historical upward trend of our cloud and license business' revenues over those quarterly periods and because the majority of our costs for this business are generally fixed in the short term. The historical upward trend of our cloud and license business' revenues over the course of the four quarters within a particular fiscal year is primarily due to the addition of new cloud services and license support contracts to the

customer contract base that we generally recognize as revenues ratably or based upon customer usage over the respective contractual terms and the renewal of existing customers' cloud services and license support contracts over the course of each fiscal year that we generally recognize as revenues in a similar manner; and the historical upward trend of our cloud license and on-premise license revenues, which we generally recognize at a point in time upon delivery; in each case over those four fiscal quarterly periods.

Hardware Business

Our hardware business, which represented 8% of our total revenues on a trailing 4-quarter basis, provides a broad selection of enterprise hardware products and hardware-related software products including Oracle Engineered Systems, servers, storage, industry-specific hardware offerings, operating systems, virtualization, management and other hardware-related software, and related hardware support. Each hardware product and its related software, such as an operating system or firmware, are highly interdependent and interrelated and are accounted for as a combined performance obligation. The revenues for this combined performance obligation are generally recognized at the point in time that the hardware product and its related software are delivered to the customer and ownership is transferred to the customer. We expect to make investments in research and development to improve existing hardware products and services and to develop new hardware products and services. The majority of our hardware products are sold through indirect channels, including independent distributors and value-added resellers. Our hardware support offerings provide customers with unspecified software updates for software components that are essential to the functionality of our hardware products and associated software products. Our hardware support offerings can also include product repairs, maintenance services and technical support services. Hardware support contracts are entered into and renewed at the option of the customer, are generally priced as a percentage of the net hardware products fees and are generally recognized as revenues ratably as the hardware support services are delivered over the contractual terms.

We generally expect our hardware business to have lower operating margins as a percentage of revenues than our cloud and license business due to the incremental costs we incur to produce and distribute these products and to provide support services, including direct materials and labor costs.

Our quarterly hardware revenues are difficult to predict. Our hardware revenues, cost of hardware and hardware operating margins that we report are affected by many factors, including our manufacturing partners' abilities to timely manufacture or deliver a few large hardware transactions; our strategy for and the position of our hardware products relative to competitor offerings; customer demand for competing offerings, including cloud infrastructure offerings; the strength of general economic and business conditions; governmental budgetary constraints; whether customers decide to purchase hardware support contracts at or in close proximity to the time of hardware product sale; the percentage of our hardware support contract customer base that renews its support contracts and the close association between hardware products, which have a finite life, and customer demand for related hardware support as hardware products age; customer decisions to either maintain or upgrade their existing hardware infrastructure to newly developed technologies that are available; and foreign currency rate fluctuations.

Services Business

Our services business, which represented 8% of our total revenues on a trailing 4-quarter basis, helps customers and partners maximize the performance of their investments in Oracle applications and infrastructure technologies. We believe that our services are differentiated based on our focus on Oracle technologies, extensive experience, broad sets of intellectual property and best practices. Our services offerings include consulting services and advanced customer services. Our services business has lower margins than our cloud and license and hardware businesses. Our services revenues are affected by many factors including our strategy for, and the competitive position of, our services; customer demand for our cloud and license and hardware offerings and the associated services for these offerings; general economic conditions; governmental budgetary constraints; personnel reductions in our customers' IT departments; tighter controls over customer discretionary spending; and foreign currency rate fluctuations.

Acquisitions

Our selective and active acquisition program is another important element of our corporate strategy. Historically, we have invested billions of dollars to acquire a number of complementary companies, products, services and technologies. The pace of our acquisitions has slowed in recent years, but as compelling opportunities become available, we may acquire companies, products, services and technologies in furtherance of our corporate strategy. Note 2 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report provides additional information related to our recent acquisitions.

We believe that we can fund our future acquisitions with our internally available cash, cash equivalents and marketable securities, cash generated from operations, additional borrowings or from the issuance of additional securities. We estimate the financial impact of any potential acquisition with regard to earnings, operating margin, cash flows and return on invested capital targets before deciding to move forward with an acquisition.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP) as set forth in the Financial Accounting Standards Board's Accounting Standards Codification (ASC), and we consider the various staff accounting bulletins and other applicable guidance issued by the SEC. GAAP, as set forth within the ASC, requires us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. To the extent that there are differences between these estimates, judgments or assumptions and actual results, our financial statements will be affected. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results include:

- Revenue Recognition;
- Business Combinations;
- Goodwill and Intangible Assets—Impairment Assessments;
- Accounting for Income Taxes; and
- Legal and Other Contingencies.

During the first quarter of fiscal 2022, there were no significant changes to our critical accounting policies and estimates. Management's Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of our Annual Report on Form 10-K for our fiscal year ended May 31, 2021 provides a more complete discussion of our critical accounting policies and estimates.

Results of Operations

Presentation of Operating Segment Results and Other Financial Information

In our results of operations discussion below, we provide an overview of our total consolidated revenues, total consolidated operating expenses and total consolidated operating margin, all of which are presented on a GAAP basis. We also present a GAAP-based discussion below for substantially all of the other expense items as presented in our consolidated statements of operations that are not directly attributable to our three businesses.

In addition, we discuss below the results of each of our three businesses—cloud and license, hardware and services—which are our operating segments as defined pursuant to ASC 280, *Segment Reporting*. The financial reporting for our three businesses that is presented below is presented in a manner that is consistent with that used by our CODMs. Our operating segment presentation below reflects revenues, direct costs and sales and marketing expenses that correspond to and are directly attributable to each of our three businesses. We also utilize these inputs to calculate and present a segment margin for each of our three businesses in the discussion below.

Consistent with our internal management reporting processes, the below operating segment presentation is noted to include any revenues adjustments related to cloud services and license support contracts that would have otherwise been recorded by the acquired businesses as independent entities but were not recognized in our condensed consolidated statements of operations for the periods presented due to business combination accounting requirements. Refer to “Supplemental Disclosure Related to Certain Charges” below for additional discussion of these items and Note 9 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for a reconciliation of the summations of our total operating segment revenues as presented in the discussion below to total revenues as presented per our condensed consolidated statements of operations for all periods presented.

In addition, research and development expenses, general and administrative expenses, stock-based compensation expenses, amortization of intangible assets, certain other expense allocations, acquisition related and other expenses, restructuring expenses, interest expense, non-operating expenses, net and provision for income taxes are not attributed to our three operating segments because our management does not view the performance of our three businesses including such items and/or it is impractical to do so. Refer to “Supplemental Disclosure Related to Certain Charges” below for additional discussion of certain of these items and Note 9 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for a reconciliation of the summations of total segment margin as presented in the discussion below to total income before provision for income taxes as presented per our condensed consolidated statements of operations for all periods presented.

We experienced COVID-19 related impacts to our businesses during each of the first quarter of fiscal 2022 and 2021. Certain of these historical impacts on our operating results are further discussed below. Any future impacts are currently unknown.

Constant Currency Presentation

Our international operations have provided and are expected to continue to provide a significant portion of each of our businesses’ revenues and expenses. As a result, each of our businesses’ revenues and expenses and our total revenues and expenses will continue to be affected by changes in the U.S. Dollar against major international currencies. In order to provide a framework for assessing how our underlying businesses performed, excluding the effects of foreign currency rate fluctuations, we compare the percent change in the results from one period to another period in this Quarterly Report using constant currency disclosure. To present this information, current and comparative prior period results for entities reporting in currencies other than U.S. Dollars are converted into U.S. Dollars at constant exchange rates (i.e., the rates in effect on May 31, 2021, which was the last day of our prior fiscal year) rather than the actual exchange rates in effect during the respective periods. For example, if an entity reporting in Euros had revenues of 1.0 million Euros from products sold on August 31, 2021 and 2020, our financial statements would reflect reported revenues of \$1.17 million in the first quarter of fiscal 2022 (using 1.17 as the month-end average exchange rate for the period) and \$1.18 million in the first quarter of fiscal 2021 (using 1.18 as the month-end average exchange rate for the period). The constant currency presentation, however, would translate the results for the first quarter of fiscal 2022 and 2021 using the May 31, 2021 exchange rate and indicate, in this example, no change in revenues during the period. In each of the tables below, we present the percent change based on actual, unrounded results in reported currency and in constant currency.

Total Revenues and Operating Expenses

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Total Revenues by Geography:				
Americas	\$ 5,321	5%	4%	\$ 5,068
EMEA ⁽¹⁾	2,784	2%	-1%	2,738
Asia Pacific	1,623	4%	3%	1,561
Total revenues	9,728	4%	2%	9,367
Total Operating Expenses	6,301	2%	1%	6,156
Total Operating Margin	\$ 3,427	7%	5%	\$ 3,211
Total Operating Margin %	35%			34%
% Revenues by Geography:				
Americas	55%			54%
EMEA	28%			29%
Asia Pacific	17%			17%

Total revenues	\$ 9,728	4%	2%	\$ 9,367
% Revenues by Business:				
Cloud and license	84%			83%
Hardware	8%			9%
Services	8%			8%

(1) Comprised of Europe, the Middle East and Africa

Excluding the effects of foreign currency rate fluctuations, our total revenues increased in the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, due to growth in our cloud and license business' revenues and services business' revenues, which were partially offset by a decline in our hardware business' revenues. The constant currency increase in our cloud and license business' revenues during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, was primarily attributable to growth in our cloud services and license support revenues as customers purchased our applications and infrastructure technologies via cloud and license deployment models and renewed their related cloud contracts and license support contracts to continue to gain access to the latest versions of our technologies and to receive support services. The constant currency increase in our services business' revenues during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, was attributable to an increase in revenues for all of our primary services offerings. The constant currency decrease in our hardware business' revenues during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, was due to the emphasis we placed on the marketing and sale of our growing cloud-based infrastructure technologies and the de-emphasis of our sales and marketing efforts for certain of our non-strategic hardware products and related support services. All three of our businesses' revenues were adversely impacted during each of the first quarter of fiscal 2022 and 2021 due to the effects of the COVID-19 pandemic. While we expect these effects to be temporary, the impacts of COVID-19 for future periods are unknown. In constant currency, total revenues growth during the first quarter of fiscal 2022 in the Americas and Asia Pacific regions was partially offset by a slight decline in total revenues growth in the EMEA region.

Table of Contents

Excluding the effects of foreign currency rate fluctuations, our total operating expenses increased during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to higher cloud services and license support expenses, which increased primarily due to higher infrastructure investments that were made to support the increase in our cloud and license business' revenues; higher services expenses, which increased primarily due to higher external contractor expenses; and higher research and development expenses, which increased primarily due to higher employee related expenses. These constant currency expense increases were partially offset by lower amortization of intangible assets and lower restructuring expenses during the first quarter of fiscal 2022. In addition, during the first quarter of fiscal 2022, we recorded a \$125 million gain on an operating asset sale, which was allocated as a benefit to most of our operating expense lines as presented per our condensed consolidated statement of operations during this period. During each of the first quarter of fiscal 2022 and fiscal 2021, we curtailed a number of variable expenditures across all of our lines of businesses and functions including employee travel expenses and marketing expenses, among others, primarily in response to COVID-19. We expect certain of these expenses may normalize in future periods provided global economic and health conditions improve.

In constant currency, our total operating margin and total operating margin as a percentage of total revenues increased in the first quarter of fiscal 2022, relative to the corresponding prior year period, due to higher revenues and the aforementioned gain.

Supplemental Disclosure Related to Certain Charges

To supplement our condensed consolidated financial information, we believe that the following information is helpful to an overall understanding of our past financial performance and prospects for the future.

Our operating results reported pursuant to GAAP included the following business combination accounting adjustments and expenses related to acquisitions and certain other expense and income items that affected our GAAP net income:

(in millions)	Three Months Ended August 31,	
	2021	2020
Cloud services and license support deferred revenues ⁽¹⁾	\$ —	\$ 1
Amortization of intangible assets ⁽²⁾	303	345
Acquisition related and other ⁽³⁾	21	19
Restructuring ⁽⁴⁾	38	174
Stock-based compensation, operating segments ⁽⁵⁾	152	116
Stock-based compensation, R&D and G&A ⁽⁵⁾	393	312
Income tax effects ⁽⁶⁾	(420)	(336)
	<u>\$ 487</u>	<u>\$ 631</u>

(1) In connection with our acquisitions, we have estimated the fair values of the cloud services and license support contracts assumed. Due to our application of business combination accounting rules, we did not recognize the cloud services and license support revenue amounts as presented in the above table that would have otherwise been recorded by the acquired businesses as independent entities upon delivery of the contractual obligations. To the extent customers for which these contractual obligations pertain renew these contracts with us, we expect to recognize revenues for the full contracts' values over the respective contracts' renewal periods.

(2) Represents the amortization of intangible assets, substantially all of which were acquired in connection with our acquisitions. As of August 31, 2021, estimated future amortization related to intangible assets was as follows (in millions):

Remainder of fiscal 2022	\$ 834
Fiscal 2023	716
Fiscal 2024	473
Fiscal 2025	124
Fiscal 2026	24
Fiscal 2027	6
Thereafter	4
Total intangible assets, net	<u>\$ 2,181</u>

[Table of Contents](#)

- (3) Acquisition related and other expenses primarily consist of personnel related costs for transitional and certain other employees, certain business combination adjustments including certain adjustments after the measurement period has ended and certain other operating items, net.
- (4) Restructuring expenses during the first quarter of fiscal 2022 primarily related to employee severance in connection with our Fiscal 2022 Oracle Restructuring Plan (2022 Restructuring Plan). Restructuring expenses during the first quarter of fiscal 2021 primarily related to employee severance in connection with our Fiscal 2019 Oracle Restructuring Plan (2019 Restructuring Plan). Additional information regarding certain of our restructuring plans is provided in management's discussion below under "Restructuring Expenses," in Note 5 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report, and in Note 8 of Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021.
- (5) Stock-based compensation was included in the following operating expense line items of our condensed consolidated statements of operations (in millions):

	Three Months Ended August 31,	
	2021	2020
Cloud services and license support	\$ 40	\$ 30
Hardware	3	3
Services	14	12
Sales and marketing	95	71
Stock-based compensation, operating segments	152	116
Research and development	344	276
General and administrative	49	36
Total stock-based compensation	\$ 545	\$ 428

- (6) For the first quarter of fiscal 2022 and 2021, respectively, the applicable jurisdictional tax rates applied to our income before provision for income taxes after excluding the tax effects of items within the table above such as for stock-based compensation, amortization of intangible assets, restructuring, and certain other acquisition related items, and for the first quarter of fiscal 2022, after excluding the net deferred tax effects associated with a previously recorded income tax benefit that resulted from a partial realignment of our legal entity structure, resulted in effective tax rates of 18.0% and 19.1%, respectively, instead of 8.4% and 13.3%, respectively, which represented our effective tax rates as derived per our condensed consolidated statements of operations.

Cloud and License Business

Our cloud and license business engages in the sale and marketing of our applications and infrastructure technologies that are delivered through various deployment models and include: Oracle license support offerings; Oracle cloud services offerings; and Oracle cloud license and on-premise license offerings. License support revenues are typically generated through the sale of license support contracts related to cloud licenses and on-premise licenses; are purchased by our customers at their option; and are generally recognized as revenues ratably over the contractual term, which is generally one year. Our cloud services deliver applications and infrastructure technologies on a subscription basis via cloud-based deployment models that we develop, provide unspecified updates and enhancements for, deploy, host, manage and support. Revenues for our cloud services are generally recognized over the contractual term, which is generally one to three years, or in the case of usage model contracts, as the cloud services are consumed. Cloud license and on-premise license revenues represent fees earned from granting customers licenses, generally on a perpetual basis, to use our database and middleware and our applications software products within cloud and on-premise IT environments and are generally recognized up front at the point in time when the software is made available to the customer to download and use. We continue to place significant emphasis, both domestically and internationally, on direct sales through our own sales force. We also continue to market certain of our offerings through indirect channels. Costs associated with our cloud and license business are included in cloud services and license support expenses, and sales and marketing expenses. These costs are largely personnel and infrastructure related including the cost of providing our cloud services and license support offerings, salaries and commissions earned by our sales force for the sale of our cloud and license offerings, and marketing program costs.

Revenues by Offerings:				
Cloud services and license support(1)	\$ 7,371	6%	5%	\$ 6,948
Cloud license and on-premise license	813	-8%	-9%	886
Total revenues(1)	<u>\$ 8,184</u>	4%	3%	<u>\$ 7,834</u>
Cloud Services and License Support Revenues by Ecosystem:				
Applications cloud services and license support(1)	\$ 3,041	8%	7%	\$ 2,817
Infrastructure cloud services and license support(1)	4,330	5%	3%	4,131
Total cloud services and license support revenues(1)	<u>\$ 7,371</u>	6%	5%	<u>\$ 6,948</u>

(1) Includes cloud services and license support revenue adjustments related to certain cloud services and license support contracts that would have otherwise been recorded as revenues by the acquired businesses as independent entities but were not recognized in our GAAP-based condensed consolidated statements of operations for the periods presented due to business combination accounting requirements. Such revenue adjustments were included in our operating segment results for purposes of reporting to and review by our CODMs. See "Presentation of Operating Segment Results and Other Financial Information" above for additional information.

(2) Excludes stock-based compensation and certain expense allocations. Also excludes amortization of intangible assets and certain other GAAP-based expenses, which were not allocated to our operating segment results for purposes of reporting to and review by our CODMs, as further described under "Presentation of Operating Segment Results and Other Financial Information" above.

Excluding the effects of foreign currency rate fluctuations, our cloud and license business' total revenues increased in the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to growth in our cloud services and license support revenues as customers purchased our applications and infrastructure technologies via cloud and license deployment models and renewed their related cloud contracts and license support contracts to continue to gain access to the latest versions of our technologies and to receive support for which we delivered such cloud and support services during the periods presented. This increase in our first quarter of fiscal 2022 cloud and license business' revenues was partially offset by a decline in EMEA license revenues during the fiscal 2022 period due to an exceptionally strong license result during the corresponding prior year period. The growth in our cloud and license business' revenues was adversely impacted during each of the first quarter of fiscal 2022 and fiscal 2021 due to the COVID-19 pandemic, and the impacts of COVID-19 for future periods are unknown. In constant currency, total revenue growth in the Americas and Asia Pacific regions was partially offset by a decline in total revenue growth in the EMEA region for this business during the first quarter of fiscal 2022.

In constant currency, our total cloud and license business' expenses increased in the first quarter of fiscal 2022, relative to the corresponding prior year period, due to higher cloud services and license support expenses during the first quarter of fiscal 2022, which were primarily attributable to higher technology infrastructure expenses and higher employee related expenses to support the increase in our cloud and license business' revenues. These constant currency expense increases were partially offset by lower sales and marketing expenses, which decreased primarily due to an allocation of the gain from the operating asset sale described above, partially offset by higher employee related expenses and higher marketing expenses. Our cloud services and license support expenses have

grown in recent periods and we expect this growth to accelerate during fiscal 2022 as we increase our existing data center capacity and establish data centers in new geographic locations in order to meet current and expected customer demand.

Excluding the effects of currency rate fluctuations, our cloud and license business' total margin increased during the first quarter of fiscal 2022 relative to the first quarter of fiscal 2021 due to the increase in total revenues. Total margin as a percentage of revenues for this segment decreased marginally during the first quarter of fiscal 2022 in comparison to the prior year period due to expenses growth.

Hardware Business

Our hardware business' revenues are generated from the sales of our Oracle Engineered Systems, server, storage, and industry-specific hardware offerings. The hardware product and related software, such as an operating system or firmware, are highly interdependent and interrelated and are accounted for as a combined performance obligation. The revenues for this combined performance obligation are generally recognized at the point in time that the hardware product is delivered to the customer and ownership is transferred to the customer. Our hardware business also earns revenues from the sale of hardware support contracts purchased by our customers at their option and that are generally recognized as revenues ratably as the hardware support services are delivered over the contractual term, which is generally one year. The majority of our hardware products are sold through indirect channels such as independent distributors and value-added resellers and we also market and sell our hardware products through our direct sales force. Operating expenses associated with our hardware business include the cost of hardware products, which consists of expenses for materials and labor used to produce these products by our internal manufacturing operations or by third-party manufacturers, warranty and related expenses and the impact of periodic changes in inventory valuation, including the impact of inventory determined to be excess and obsolete; the cost of materials used to repair customer products; the cost of labor and infrastructure to provide support services; and sales and marketing expenses, which are largely personnel related and include variable compensation earned by our sales force for the sales of our hardware offerings.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Hardware Revenues:				
Americas	\$ 372	-9%	-10%	\$ 409
EMEA	232	5%	4%	220
Asia Pacific	159	-14%	-15%	185

Asia Pacific	21%			23%

⁽¹⁾ Excludes stock-based compensation and certain expense allocations. Also excludes amortization of intangible assets and certain other GAAP-based expenses, which were not allocated to our operating segment results for purposes of reporting to and review by our CODMs, as further described under "Presentation of Operating Segment Results and Other Financial Information" above.

Table of Contents

Our constant currency hardware revenues declined in the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to our continued emphasis on the marketing and sale of our growing cloud-based infrastructure technologies and the de-emphasis of our sales and marketing efforts for certain of our non-strategic hardware products and related support services, the net impact of which resulted in reduced sales volumes of certain of our hardware product lines and also impacted the volume of hardware support contracts sold in recent periods. Our hardware business' revenues were also adversely impacted during each of the first quarter of fiscal 2022 and fiscal 2021 due to the impacts of the COVID-19 pandemic, and any such prospective impacts are unknown. Constant currency decreases in hardware revenue growth in the Americas and Asia Pacific regions were partially offset by a constant currency increase in hardware revenue growth in the EMEA region during the first quarter of fiscal 2022.

Excluding the effects of currency rate fluctuations, total hardware expenses decreased in the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to lower hardware product expenses, lower hardware support costs and lower sales and marketing costs, all of which aligned to lower hardware revenues.

In constant currency, our hardware business' total margin and total margin as a percentage of revenues decreased in the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 due to lower total revenues for this business.

Services Business

We offer services to customers and partners to help maximize the performance of their investments in Oracle applications and infrastructure technologies. Services revenues are generally recognized over time as the services are performed. The cost of providing our services consists primarily of personnel related expenses, technology infrastructure expenditures, facilities expenses and external contractor expenses.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Services Revenues:				
Americas	\$ 367	8%	7%	\$ 339
EMEA	255	13%	10%	225
Asia Pacific	159	2%	2%	156
Total revenues	781	8%	7%	720
Total Expenses⁽¹⁾	609	4%	2%	585
Total Margin	\$ 172	28%	27%	\$ 135
Total Margin %	22%			19%
% Revenues by Geography:				
Americas	47%			47%
EMEA	33%			31%
Asia Pacific	20%			22%

(1) Excludes stock-based compensation and certain allocations. Also excludes certain other GAAP-based expenses, which were not allocated to our operating segment results for purposes of reporting to and review by our CODMs, as further described under "Presentation of Operating Segment Results and Other Financial Information" above.

Excluding the effects of currency rate fluctuations, our total services revenues increased in the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, due to revenue increases in each of our primary services offerings. Our services business revenues were adversely affected during each of the first quarter of fiscal 2022 and fiscal 2021 by the impacts of COVID-19, including the impacts of consulting project delays due to customer resource constraints and in-person meeting restrictions imposed by certain jurisdictions. In constant currency, the Americas, EMEA and Asia Pacific regions contributed 48%, 47% and 5%, respectively, to the constant currency revenues growth for this business in the first quarter of fiscal 2022.

In constant currency, total services expenses increased in the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to higher external contractor expenses.

Table of Contents

In constant currency, total margin and total margin as a percentage of total services revenues increased during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, in each case due to higher total revenues for this business.

Research and Development Expenses: Research and development expenses consist primarily of personnel related expenditures. We intend to continue to invest significantly in our research and development efforts because, in our judgment, they are essential to maintaining our competitive position.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Research and development ⁽¹⁾	\$ 1,340	2%	1%	\$ 1,313
Stock-based compensation	344	25%	25%	276
Total expenses	<u>\$ 1,684</u>	<u>6%</u>	<u>5%</u>	<u>\$ 1,589</u>
% of Total Revenues	18%			17%

(1) Excluding stock-based compensation

On a constant currency basis, total research and development expenses increased in the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to higher employee related expenses due to increased headcount and higher stock-based compensation expenses, partially offset by an allocation of the gain from the operating asset sale described above.

General and Administrative Expenses: General and administrative expenses primarily consist of personnel related expenditures for IT, finance, legal and human resources support functions.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
General and administrative ⁽¹⁾	\$ 249	-4%	-5%	\$ 259
Stock-based compensation	49	38%	38%	36
Total expenses	<u>\$ 298</u>	<u>1%</u>	<u>0%</u>	<u>\$ 295</u>
% of Total Revenues	3%			3%

(1) Excluding stock-based compensation

Excluding the effects of foreign currency rate fluctuations, total general and administrative expenses were flat during the first quarter of fiscal 2022 in comparison to the first quarter of fiscal 2021 as higher stock-based compensation expenses were offset by an allocation of the gain from an operating asset sale as described above.

Amortization of Intangible Assets: Substantially all of our intangible assets were acquired through our business combinations. We amortize our intangible assets over, and monitor the appropriateness of, the estimated useful lives of these assets. We also periodically review these intangible assets for potential impairment based upon relevant facts and circumstances. Note 4 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report has additional information regarding our intangible assets and related amortization.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Developed technology	\$ 127	-19%	-19%	\$ 158
Cloud services and license support agreements and related relationships	155	-6%	-5%	164
Other	21	-6%	-6%	23
Total amortization of intangible assets	<u>\$ 303</u>	<u>-12%</u>	<u>-12%</u>	<u>\$ 345</u>

Amortization of intangible assets decreased in the first quarter of fiscal 2022 due to a reduction in expenses associated with certain of our intangible assets that became fully amortized, partially offset by a smaller amount of additional amortization from intangible assets that we acquired in connection with our recent acquisitions.

[Table of Contents](#)

Acquisition Related and Other Expenses: Acquisition related and other expenses primarily consist of personnel related costs for transitional and certain other employees, certain business combination adjustments, including adjustments after the measurement period has ended, and certain other operating items, net.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Transitional and other employee related costs	\$ 2	-6%	-6%	\$ 2
Business combination adjustments, net	3	182%	181%	1
Other, net	16	-6%	-6%	16
Total acquisition related and other expenses	<u>\$ 21</u>	<u>4%</u>	<u>4%</u>	<u>\$ 19</u>

On a constant currency basis, acquisition related and other expenses increased modestly during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to higher business combination adjustments, net.

Restructuring Expenses: Restructuring expenses resulted from the execution of management approved restructuring plans that were generally developed to improve our cost structure and/or operations, often in conjunction with our acquisition integration strategies and/or other strategic initiatives. Restructuring expenses consist of employee severance costs and other contract termination costs to improve our cost structure prospectively. For additional information regarding our restructuring plans, see Note 5 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report and Note 8 of Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2021.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Restructuring expenses	<u>\$ 38</u>	<u>-78%</u>	<u>-78%</u>	<u>\$ 174</u>

Restructuring expenses in the first quarter of fiscal 2022 primarily related to our 2022 Restructuring Plan. Restructuring expenses in the first quarter of fiscal 2021 primarily related to our 2019 Restructuring Plan, which is substantially complete. Our management approved, committed to and initiated the 2022 Restructuring Plan and the 2019 Restructuring Plan in order to restructure and further improve efficiencies in our operations. We may incur additional restructuring expenses in future periods due to the initiation of new restructuring plans or from changes in estimated costs associated with existing restructuring plans.

The majority of the initiatives undertaken by our 2022 Restructuring Plan were effected to implement our continued emphasis in developing, marketing and selling our cloud-based offerings. These initiatives impacted certain of our sales and marketing and research and development operations. Certain of the cost savings realized pursuant to our 2022 Restructuring Plan initiatives were offset by investments in resources and geographies that better address the

development, marketing, sale and delivery of our cloud-based offerings including investments in our second-generation cloud infrastructure.

Interest Expense:

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Interest expense	<u>\$ 705</u>	<u>15%</u>	<u>15%</u>	<u>\$ 614</u>

Interest expense increased during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to higher average borrowings resulting from our issuance of \$15.0 billion of senior notes in March 2021.

[Table of Contents](#)

Non-Operating Expenses, net: Non-operating expenses, net consists primarily of interest income, net foreign currency exchange losses, the noncontrolling interests in the net profits of our majority-owned subsidiaries (primarily Oracle Financial Services Software Limited and Oracle Corporation Japan) and net other income and expenses, including net realized gains and losses related to all of our investments, net unrealized gains and losses related to the small portion of our investment portfolio related to our deferred compensation plan, net unrealized gains and losses related to equity securities and non-service net periodic pension income and losses.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Interest income	\$ 20	-37%	-37%	\$ 31
Foreign currency losses, net	(35)	-31%	-35%	(50)
Noncontrolling interests in income	(47)	25%	25%	(38)
Other, net	21	-62%	-61%	55
Total non-operating expenses, net	\$ (41)	*	*	\$ (2)

* Not meaningful

Our non-operating expenses, net increased in the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to lower other income, net, which was primarily attributable to changes in market values associated with certain marketable equity securities that we held for certain employee benefit plans and classified as trading, and for which an equal and offsetting amount was recorded to our operating expenses in the same period; and due to higher losses associated with equity investments for which we follow the equity method of accounting; in each case during the first quarter of fiscal 2022 relative to the first quarter of fiscal 2021.

Provision for Income Taxes: Our effective income tax rates for each of the periods presented were the result of the mix of income earned in various tax jurisdictions that apply a broad range of income tax rates. Our provision for income taxes varied from the tax computed at the U.S. federal statutory income tax rate for the periods presented primarily due to earnings in foreign operations, state taxes, the U.S. research and development tax credit, settlements with tax authorities, the tax effects of stock-based compensation, the Foreign Derived Intangible Income deduction and the tax effect of Global Intangible Low-Taxed Income. Future effective tax rates could be adversely affected by an unfavorable shift of earnings weighted to jurisdictions with higher tax rates, by unfavorable changes in tax laws and regulations, by adverse rulings in tax related litigation, or by shortfalls in stock-based compensation realized by employees relative to stock-based compensation that was recorded for book purposes, among others.

(Dollars in millions)	Three Months Ended August 31,			
	2021	Percent Change		2020
		Actual	Constant	
Provision for income taxes	\$ 224	-35%	-36%	\$ 344
Effective tax rate	8.4%			13.3%

Provision for income taxes decreased during the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021, primarily due to an increase in tax benefits related to stock-based compensation partially offset by higher income before provision for income taxes.

Liquidity and Capital Resources

(Dollars in millions)	August 31, 2021	Change	May 31, 2021
Working capital	\$ 24,046	-23%	\$ 31,403
Cash, cash equivalents and marketable securities	\$ 39,310	-16%	\$ 46,554

Working capital: The decrease in working capital as of August 31, 2021 in comparison to May 31, 2021 was primarily due to cash used for repurchases of our common stock, cash used to pay dividends to our stockholders and cash used for capital expenditures during the first quarter of fiscal 2022. These unfavorable impacts were partially offset by the favorable impacts to our net current assets resulting from our net income during the first quarter of fiscal 2022 and cash proceeds from stock option exercises. Our working capital may be impacted by some or all of the aforementioned factors in future periods, the amounts and timing of which are variable.

Cash, cash equivalents and marketable securities: Cash and cash equivalents primarily consist of deposits held at major banks, money market funds, Tier-1 commercial paper and other securities with original maturities of 90 days or less. Marketable securities consist of corporate debt securities and certain other securities. The decrease in cash, cash equivalents and marketable securities at August 31, 2021 in comparison to May 31, 2021 was primarily due to \$8.0 billion of settled repurchases of our common stock, debt repayments, payments of cash dividends to our stockholders and cash used for capital expenditures. These cash outflows during the first quarter of fiscal 2022 were partially offset by certain cash inflows generated by our operations and from stock option exercises during the first quarter of fiscal 2022.

The amount of cash, cash equivalents and marketable securities that we report in U.S. Dollars for a significant portion of the cash, cash equivalents and marketable securities balances held by our foreign subsidiaries is subject to translation adjustments caused by changes in foreign currency exchange rates as of the end of each respective reporting period (the offset to which is substantially recorded to accumulated other comprehensive loss in our condensed consolidated balance sheets and is also presented as a line item in our condensed consolidated statements of comprehensive income included elsewhere in this Quarterly Report). As the U.S. Dollar generally strengthened against certain major international currencies during the first quarter of fiscal 2022, the amount of cash, cash equivalents and marketable securities that we reported in U.S. Dollars for these subsidiaries decreased on a net basis as of August 31, 2021 relative to what we would have reported using constant currency rates from the May 31, 2021 balance sheet date.

(Dollars in millions)	Three Months Ended August 31,		
	2021	Change	2020
Net cash provided by operating activities	\$ 5,391	-9%	\$ 5,953
Net cash used for investing activities	\$ (781)	-92%	\$ (9,655)
Net cash used for financing activities	\$ (11,468)	77%	\$ (6,493)

Cash flows from operating activities: Our largest source of operating cash flows is cash collections from our customers following the purchase and renewal of their license support agreements. Payments from customers for these license support agreements are generally received near the beginning of the contracts' terms, which are generally one year in length. Over the course of a fiscal year, we also have historically generated cash from the sales of new licenses, cloud services, hardware offerings and other services. Our primary uses of cash from operating activities are for employee related expenditures, material and manufacturing costs related to the production of our hardware products, taxes, interest payments and leased facilities.

Net cash provided by operating activities decreased during the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to certain cash unfavorable working capital changes, net, partially offset by higher net income, in each case in the first quarter of fiscal 2022, relative to the first quarter of fiscal 2021.

Cash flows from investing activities: The changes in cash flows from investing activities primarily relate to the timing of our purchases, maturities and sales of our investments in marketable securities, and investments in capital and other assets, including certain intangible assets, to support our growth.

Net cash used for investing activities decreased during the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily resulting from a decrease in cash used for the purchases of marketable securities and other investments and an increase in cash proceeds from sales and maturities of marketable securities and other investments, partially offset by an increase in capital expenditures, in each case during the first quarter of fiscal 2022 relative to the first quarter of fiscal 2021.

Cash flows from financing activities: The changes in cash flows from financing activities primarily relate to borrowings and repayments related to our debt instruments, stock repurchases, dividend payments and net proceeds related to employee stock programs.

Net cash used for financing activities increased during the first quarter of fiscal 2022 compared to the first quarter of fiscal 2021 primarily due to higher stock repurchases, higher payments of dividends, higher net cash used for our employee stock program and higher debt repayments, in each case during the first quarter of fiscal 2022 in comparison to the first quarter of fiscal 2021.

Free cash flow: To supplement our statements of cash flows presented on a GAAP basis, we use non-GAAP measures of cash flows on a trailing 4-quarter basis to analyze cash flows generated from our operations. We believe that free cash flow is also useful as one of the bases for comparing our performance with our competitors. The presentation of non-GAAP free cash flow is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity. We calculate free cash flow as follows:

(Dollars in millions)	Trailing 4-Quarters Ended August 31,		
	2021	Change	2020
Net cash provided by operating activities	\$ 15,325	17%	\$ 13,092
Capital expenditures	(2,761)	71%	(1,614)
Free cash flow	\$ 12,564	9%	\$ 11,478
Net income	\$ 13,952		\$ 10,249
Free cash flow as percent of net income	90%		112%

Contractual Obligations: During the first quarter of fiscal 2022, there were no significant changes to our estimates of future payments under our fixed contractual obligations and commitments as presented in Part II, Item 7 Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for our fiscal year ended May 31, 2021.

We believe that our current cash, cash equivalents and marketable securities and cash generated from operations will be sufficient to meet our working capital, capital expenditures and contractual obligation requirements. In addition, we believe that we could fund our future acquisitions, dividend payments and repurchases of common stock or debt with our internally available cash, cash equivalents and marketable securities, cash generated from operations, additional borrowings or from the issuance of additional securities.

Restricted Stock-Based Awards and Stock Options

Our stock-based compensation program is a key component of the compensation package we provide to attract and retain certain of our talented employees and align their interests with the interests of existing stockholders.

We recognize that restricted stock-based awards and stock options dilute existing stockholders and have sought to control the number of stock-based awards granted while providing competitive compensation packages. Consistent with these dual goals, our cumulative potential dilution since June 1, 2018 has been a weighted-average annualized rate of 1.0% per year. The potential dilution percentage is calculated as the average annualized new restricted stock-based awards and stock options granted and assumed, net of restricted stock-based awards and stock options forfeited by employees leaving the company, divided by the weighted-average outstanding shares during the calculation period. This maximum potential dilution will only result if all restricted stock-based awards vest and all stock options are exercised. Of the outstanding stock options at August 31, 2021, which generally have a ten-year exercise period, all have exercise prices lower than the market price of our common stock on such date. In recent years, our stock repurchase program has more than offset the dilutive effect of our stock-based compensation program. However, we may modify the levels of our stock repurchases in the future depending on a number of factors, including the amount of cash we have available for acquisitions, to pay dividends, to repay or repurchase indebtedness or for other purposes. At August 31, 2021, the maximum potential dilution from all outstanding restricted stock-based awards and unexercised stock options, regardless of when granted and regardless of whether vested or unvested, was 8.3%.

Recent Accounting Pronouncements

For information with respect to recent accounting pronouncements, if any, and the impact of these pronouncements on our consolidated financial statements, if any, see Note 1 of Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no significant changes to our quantitative and qualitative disclosures about market risk during the first quarter of fiscal 2022. Please refer to Part II, Item 7A Quantitative and Qualitative Disclosures about Market Risk included in our Annual Report on Form 10-K for our fiscal year ended May 31, 2021 for a more complete discussion of the market risks we encounter.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: Based on our management’s evaluation (with the participation of our Principal Executive and Financial Officer), as of the end of the period covered by this Quarterly Report, our Principal Executive and Financial Officer has concluded that our “disclosure controls and procedures” (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) were effective to provide reasonable assurance that the information required to be disclosed by us in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms and is accumulated and communicated to our management (including our Principal Executive and Financial Officer) as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting: There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls: Our management, including our Principal Executive and Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well-conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The material set forth in Note 8 (pertaining to information regarding contingencies related to our income taxes) and Note 11 (pertaining to information regarding legal contingencies) of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q is incorporated herein by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report, you should carefully consider the factors discussed in Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for our fiscal year ended May 31, 2021. The risks discussed in our Annual Report on Form 10-K could materially affect our business, financial condition and future results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be insignificant also may materially and adversely affect our business, financial condition or operating results in the future.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our Board of Directors has approved a program for us to repurchase shares of our common stock. As of August 31, 2021, approximately \$7.6 billion remained available for stock repurchases pursuant to our stock repurchase program.

Our stock repurchase authorization does not have an expiration date and the pace of our repurchase activity will depend on factors such as our working capital needs, our cash requirements for acquisitions and dividend payments, our debt repayment obligations or repurchases of our debt, our stock price, and economic and market conditions. Our stock repurchases may be effected from time to time through open market purchases or pursuant to a Rule 10b5-1 plan. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

The following table summarizes the stock repurchase activity for the three months ended August 31, 2021 and the approximate dollar value of shares that may yet be purchased pursuant to our stock repurchase program:

(in millions, except per share amounts)	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
June 1, 2021—June 30, 2021	30.8	\$ 81.19	30.8	\$ 13,148.4
July 1, 2021—July 31, 2021	52.0	\$ 86.49	52.0	\$ 8,648.4
August 1, 2021—August 31, 2021	11.2	\$ 89.50	11.2	\$ 7,648.4
Total	94.0	\$ 85.11	94.0

**CERTIFICATION OF PRINCIPAL EXECUTIVE AND FINANCIAL OFFICER PURSUANT TO
EXCHANGE ACT RULE 13a-14(a)/15d-14(a)
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Safra A. Catz, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Oracle Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the Finance and Audit Committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF PRINCIPAL EXECUTIVE AND FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350 AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002**

The certification set forth below is being submitted in connection with the quarterly report on Form 10-Q of Oracle Corporation for the purpose of complying with Rule 13a-14(b) or Rule 15d-14(b) of the Securities Exchange Act of 1934 and Section 1350 of Chapter 63 of Title 18 of the United States Code.

Safra A. Catz, the Chief Executive Officer (Principal Executive and Financial Officer) of Oracle Corporation, certifies that, to the best of her knowledge:

1. the quarterly report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. the information contained in the quarterly report fairly presents, in all material respects, the financial condition and results of operations of Oracle Corporation.

Date: September 13, 2021
