

# Endeavour SILVER

## Overview

Endeavour Silver is a mid-tier precious metals mining company that owns three high-grade, underground, silver-gold mines in Mexico. Since start-up in 2004 the company has grown to 9.7 million ounces of silver equivalent production in 2016. We find, build and operate quality silver mines in a socially, economically and environmentally responsible manner to create real value for all our stakeholders. Endeavour Silver's shares trade on the TSX under the symbol EDR and on the NYSE under the symbol EXK.

## Property Locations

## Production 2004–2016

(1) Silver equivalents calculated at a 70:1 gold:silver ratio, no base metals

## Investor Highlights

- Mid-tier precious metals miner; on track to produce 8.5-9.0 million oz Ag Eq in 2017
- Three high-grade silver-gold mines located in two historic mining districts of Mexico
- El Compas gold-silver project now in development; PEA shows robust economics, production in 2018
- Terronera silver-gold discovery still growing; PFS shows robust economics, permitting underway
- Renewed focus on reducing operating costs; new focus on near-term growth
- Building new mines over the next three years; best organic growth profile in silver mining sector

**Cautionary Note on Forward-Looking Statements**  
 This factsheet by Endeavour Silver Corp. ("Endeavour") may include statements concerning future operations, prospects, strategies, plans, projections, forecasts, financial conditions and economic performance, as well as intentions and objectives, that are forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. These statements are based upon a number of assumptions and estimates that are subject to significant risks and uncertainties, many of which are beyond our control.

## 2017 Catalysts

- Improve Guanaceví - get mine back on plan: rising production, falling costs
- Complete El Compas development - grow resources, explore multiple new veins, consolidate land holdings in district, target production in 2018
- Receive Terronera permits - make production decision, commence mine development, explore multiple new veins, expand resource potential, target production in 2019
- Drill Parral targets - aggressive drill program, verify historic resources; grow resources, explore multiple new veins, consolidate land holdings in district, target production in 2020
- Expand project pipeline - accretive mergers and acquisitions
- Extend mine lives - aggressive brownfields exploration

## Financial Highlights

(expressed in US\$)	2016	H1 2017
Revenue	\$ 157 million	\$ 69.1 million
Mine operating cash flow	\$ 53 million	\$ 20.8 million
Operating cash flow <sup>(1)</sup>	\$ 24 million	\$ 13.3 million
Cash costs <sup>(2)</sup>	\$ 6.78/oz	\$ 8.09/oz
AISC <sup>(3)</sup>	\$ 12.43/oz	\$ 19.38/oz

(1) Before changes in working capital  
 (2) \$/oz silver, net of by-product credits  
 (3) All-in sustaining cost, \$/oz silver, net of by-product credits

## Guanaceví Mine

Guanaceví is located 260 km northwest of the city of Durango in Durango state. Today, three underground mines feed a central, 1,200 tonne-per-day plant that produces doré bars, with a total work force of about 550 employees and 400 contractors.

## Bolañitos Mine

Bolañitos is located 10 km northwest of the city of Guanajuato, in Guanajuato state. Today, one underground mine feeds a central, 1,600 tonne-per-day plant to produce silver-gold concentrates, employing 350 people and 200 contractors.

## El Cubo Mine

El Cubo is located 6 km southeast of the city of Guanajuato, in Guanajuato state. Three underground mining operations feed a central plant to produce silver-gold concentrates, providing employment for 600 employees and 300 contractors.

## El Compas

El Compas is located 1 km south of the city of Zacatecas, in Zacatecas state. An updated resource estimate and preliminary economic assessment in March 2017 could lead to the construction of Endeavour's fourth mine.

## Terronera

Terronera is located 50 km northeast of the city of Puerto Vallarta, in Jalisco state. An updated resource estimate and pre-feasibility study in March 2017 could lead to the construction of Endeavour's fifth mine.

## Parral

Parral is located 5 km north of the city of Hidalgo de Parral, in Chihuahua state. An aggressive drill program in 2017 will focus on verifying and expanding the historic resources followed by a PEA.
