Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact are forward-looking statements and, in some cases, can be identified by the use of the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “project,” “result,” “should,” “will,” “seek,” “target,” “see,” “likely,” “position,” “opportunity,” “outlook,” “potential,” “enthusiastic,” “future,” and similar expressions. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected.

We caution investors that forward-looking statements are based on management's beliefs and on assumptions made by, and information currently available to, management. Factors that may cause actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, but are not limited to: (i) our ability to identify and acquire industrial properties on terms favorable to us; (ii) general volatility of the capital markets and the market price of our stock; (iii) adverse economic or real estate conditions or developments in the industrial real estate sector and/or in the markets in which we acquire properties; (iv) our dependence on key personnel and our reliance on third parties to properly manage the majority of our industrial properties; (v) our dependence upon tenants; (vi) our ability to comply with the laws, rules and regulations applicable to companies, and in particular, public companies; (vii) our ability to manage our growth effectively; (viii) tenant bankruptcies and defaults on or non-renewal of leases by tenants; (ix) decreased rental rates or increased vacancy rates; (x) increased interest rates and operating costs; (xi) declining real estate valuations and impairment charges; (xii) our expected leverage, our failure to obtain necessary outside financing, and future debt obligations; (xiii) our ability to make distributions to our stockholders; (xiv) our failure to successfully hedge against interest rate increases; (xv) our failure to successfully operate acquired properties; (xvi) our failure to maintain our status as a real estate investment trust (“REIT”) and possible adverse changes to tax laws; (xvii) uninsured or underinsured losses relating to our properties; (xviii) environmental uncertainties and risks related to natural disasters; (xix) financial market fluctuations; and (xx) changes in real estate and zoning laws and increases in real property tax rates. Other factors that could materially affect results can be found in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, including those set forth under the sections titled “Risk Factors” and “Management's Discussion and Analysis of Financial Condition and Results of Operations,” in the Company's preliminary prospectus supplement relating to the offering under the section titled “Risk Factors”, and in our other public filings.

We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events, or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Investment Strategy

Unique and Highly Selective Market Approach

- Acquire, own and operate industrial real estate in six major coastal U.S. markets. Exclusively.
 - Mix of core and value-add investments
 - No greenfield development
 - No complex joint ventures
- Superior market fundamentals, including lower vacancy and higher rent growth
 - Strong demand generators (high population densities, near high volume distribution points)
 - Physical and regulatory constraints to new supply
 - Shrinking supply in certain submarkets

Focus on Functional Assets in Infill Locations

- Broad product opportunity set ⁽¹⁾
 - Warehouse / distribution (81.4%)
 - Flex (including light industrial and R&D) (8.3%)
 - Transshipment (4.6%)
 - Improved land (5.7%) ⁽²⁾
- Functional and flexible assets
 - Cater to sub-market tenant demands, including last-mile distribution
 - Generally suitable for multiple tenants
 - Adjacent to transportation infrastructure
- Multiple value creation opportunities
 - Emphasis on discount to replacement cost provides margin of safety
 - Opportunity for higher and better use over time

(1) Reflects Terreno portfolio composition based on annualized base rent as of June 30, 2019. Excludes four properties under redevelopment (including one property held for sale) that upon completion will contain approximately 0.6 million square feet.

(2) Includes 17 improved land parcels totaling approximately 74.7 acres that are 93.0% leased at June 30, 2019. Such land is used for truck, trailer and container storage and/or car parking and may be redeveloped to higher and better use.

Recent Highlights

Financial Highlights

- Net Income available to common stockholders of \$0.16 per diluted share for the quarter ended June 30, 2019 compared to \$0.25 per diluted share for the quarter ended March 31, 2019 and \$0.35 for the quarter ended June 30, 2018.
- Funds From Operations (FFO)⁽¹⁾ of \$0.33 per diluted share for the quarter ended June 30, 2019 compared to \$0.35 per diluted share for the quarter ended March 31, 2019 and \$0.32 for the quarter ended June 30, 2018. FFO for the quarter ended June 30, 2019 decreased from the prior quarter primarily due to increased performance share award expense.

Operating Highlights

- Cash-basis Same Store NOI⁽¹⁾ for the three months ended June 30, 2019 increased approximately 12.7% as compared to the same period in 2018 due to increased revenue on new and renewed leases. In addition, approximately \$0.6 million (230bps) of the increase in cash-basis same store NOI for the three months ended June 30, 2019 was related to properties that were acquired vacant or with near term expirations.
- Cash rents on new and renewed leases commencing during the three and six months ended June 30, 2019 increased approximately 19.9% and 16.2% on approximately 0.6 million and 1.6 million square feet, respectively.
- Total portfolio, excluding four properties under redevelopment and 17 improved land parcels, was 97.9% leased as of June 30, 2019 as compared to 98.1% at March 31, 2019 and 98.2% at June 30, 2018.
- The same store portfolio of approximately 12.0 million square feet, representing approximately 92.4% of our total square feet, was 98.8% leased at June 30, 2019 as compared to 99.0% at March 31, 2019 and 98.1% at June 30, 2018.

⁽¹⁾ This is a non-GAAP financial measure, please see our Reporting Definitions for further explanation.

Market Leading Corporate Structure

Management Alignment

- Executive Team's long-term incentive compensation fully aligned with stockholders
 - Performance shares tied to three-year total stockholder return exceeding the MSCI U.S. REIT Index and FTSE Nareit Equity Industrial Index
 - No annual cash bonus plan for CEO and President with their long-term compensation paid solely in stock
- No stock options, SARs, dividend equivalent units or UPREIT units
- Significant senior management and board investment in common shares (approximately 2.4% of outstanding shares valued at \$76 million)
 - \$11 million invested by management in public offerings and open market purchases

Corporate Governance

- Majority independent directors with diverse expertise serving annual terms; no classification of Board without shareholder approval ("MUTA opt-out")
- Adopted a majority voting standard in non-contested director elections
- Opted out of three Maryland anti-takeover provisions (no opt in without stockholder approval)
- Ownership limits designed to protect REIT status and not for the purpose of serving as an anti-takeover device
- No stockholder rights plan unless approved in advance by stockholders or if adopted, subject to termination if not ratified by stockholders within 12 months

Key Takeaways

- Focused strategy
 - Six major coastal US markets, exclusively

(1) Same Store NOI is computed as rental revenues, including tenant expense reimbursements, less property operating expenses on a same store basis. The same store pool includes all properties that were owned as of June 30, 2019 and since January 1, 2018 and excludes properties that were disposed of, or held for sale to a third party or were under redevelopment. See Reporting Definitions for further explanation.

(2) Historical Same Store Results include cash-basis same store NOI growth %'s as reported in the Company's Form 10-Q and 10-K's. Previously reported cash-basis same store NOI growth has not been adjusted for properties that were subsequently disposed of or are held for sale to a third party.

(3) Included in cash-basis same store NOI was termination income of \$0.2 million and \$23,000 for the three months ended June 30, 2019 and 2018, respectively.

Appendix: Reporting Definitions

Adjusted EBITDA: We compute Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, gain on sales of real estate investments, acquisition costs and stock-based compensation. We believe that presenting Adjusted EBITDA provides useful information to investors regarding our operating performance because it is a measure of our operations on an unleveraged basis before the effects of tax, gain (loss) on sales of real estate investments, non-cash depreciation and amortization expense, acquisition costs and stock-based compensation. By excluding interest expense, Adjusted EBITDA allows investors to measure our operating performance independent of our capital structure and indebtedness and, therefore, allows for more meaningful comparison of our operating performance between quarters as well as annual periods and for the comparison of our operating performance to that of other companies, both in the real estate industry and in other industries. As we are currently in a growth phase, acquisition costs are excluded from Adjusted EBITDA to allow for the comparison of our operating performance to that of stabilized companies.

The following table reflects the calculation of Adjusted EBITDA reconciled from net income for the three and six months ended June 30, 2019 and 2018 (dollars in thousands):

	<i>For the Three Months Ended June 30,</i>				<i>For the Six Months Ended June 30,</i>

Adjusted EBITDA	\$ 28,741	\$ 25,026	\$ 3,715	14.8%	\$ 56,987	\$ 49,264	\$ 7,723	15.7%

Appendix: Reporting Definitions

Adjusted Funds from Operations (AFFO): We compute AFFO by adding to or subtracting from FFO (see definition below) (i) acquisition costs (ii) stock-based compensation (iii) straight-line rents, (iii) amortization of above- and below-market lease intangibles and (iv) non-recurring capital expenditures required to stabilize acquired vacancy or renovation projects. We use AFFO as a meaningful supplemental measure of our operating performance because it captures trends in our portfolio operating results when compared year over year. We also believe that AFFO is a widely recognized supplemental measure of the performance of REITs and is used by investors as a basis to assess operating performance in comparison to other REITs. As a result, we believe that the use of AFFO, together with the required GAAP presentations, provide a more complete understanding of our operating performance.

Funds from Operations (FFO): We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (“Nareit”), which defines FFO as net income (loss) (determined in accordance with GAAP), excluding gains (losses) from sales of property and impairment write-downs of depreciable real estate, plus depreciation and amortization on real estate assets and after adjustments for unconsolidated partnerships and joint ventures (which are calculated to reflect FFO on the same basis). We believe that presenting FFO provides useful information to investors regarding our operating performance because it is a measure of our operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets.

We believe that FFO is a meaningful supplemental measure of our operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting alone to be insufficient. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our operating performance.

Appendix: Reporting Definitions

Net Operating Income (NOI): We compute NOI as rental revenues, including tenant expense reimbursements, less property operating expenses. We compute same store NOI as rental revenues, including tenant expense reimbursements, less property operating expenses on a same store basis. NOI excludes depreciation, amortization, general and administrative expenses, acquisition costs and interest expense. We compute cash-basis same store NOI as same store NOI excluding straight-line rents and amortization of lease intangibles. The same store pool includes all properties that were owned as of June 30, 2019 and since January 1, 2018 and excludes properties that were either disposed of prior to, held for sale to a third party or in redevelopment as of June 30, 2019. As of June 30, 2019, the same store pool consisted of 189 buildings aggregating approximately 12.0 million square feet representing approximately 92.4% of our total square feet owned and ten improved land parcels containing 47.2 acres. We believe that presenting NOI, same store NOI and cash-basis same store NOI provides useful information to investors regarding the operating performance of our properties because NOI excludes certain items that are not considered to be controllable in connection with the management of the property, such as depreciation, amortization, general and administrative expenses, acquisition costs and interest expense. By presenting same store NOI and cash-basis same store NOI, the operating results on a same store basis are directly comparable from period to period.

Stabilized Cap Rate: We compute estimated stabilized cap rates as annualized cash basis net operating income stabilized to market occupancy (generally 95%) divided by total acquisition cost. Total acquisition cost includes the initial purchase price, the effects of marking assumed debt to market, buyer's due diligence and closing costs, estimated near-term capital expenditures and leasing costs necessary to achieve stabilization.
