## **Q3 2025 Update**

November 5, 2025

# Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws. When used, the words “anticipate”, “believe”, “estimate”, “expect”, “intend”, “may”, “might”, “plan”, “project”, “result”, “should”, “will”, “seek”, “target”, “see”, “likely”, “position”, “opportunity”, “outlook”, “potential”, “future” and similar expressions which do not relate solely to historical matters are intended to identify forward-looking statements. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors that are beyond our control, including risks related to our ability to meet our estimated forecasts related to stabilized capitalization rates and market capitalization rates. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected.

We caution investors that forward-looking statements are based on management’s beliefs and on assumptions made by, and information currently available to, management. Some of the risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following: (i) our ability to identify and acquire industrial properties on terms favorable to us; (ii) general volatility of the capital markets and the market price of our common stock; (iii) adverse economic or real estate conditions or developments in the industrial real estate sector and/or in the markets in which we own properties; (iv) a decline in economic activity caused by ongoing changes and negotiations of trade policies, tariffs and related government actions (v) our dependence on key personnel and our reliance on third-party property managers; (vi) our inability to comply with the laws, rules and regulations applicable to companies, and in particular, public companies; (vii) our ability to manage our growth effectively; (viii) tenant bankruptcies and defaults on, or non-renewal of, leases by tenants; (ix) decreased rental rates or increased vacancy rates; (x) elevated interest rates and operating costs; (xi) declining real estate valuations and impairment charges; (xii) our expected leverage, our failure to obtain necessary outside financing, and existing and future debt service obligations; (xiii) our ability to make distributions to our stockholders; (xiv) our failure to successfully hedge against interest rate increases; (xv) our failure to successfully operate acquired properties; (xvi) risk relating to our real estate development, redevelopment, renovation and expansion strategies and activities (including elevated inflation, supply chain disruptions and construction delays); (xvii) the impact of any future pandemic, epidemic or outbreak of any highly infectious disease on the U.S., regional and global economies and on our business, financial condition and results of operations and that of our tenants; (xviii) risks associated with security breaches through cyber attacks, cyber intrusions or otherwise, as well as other significant disruptions of our information technology networks and related systems; (xix) our failure to qualify or maintain our status as a real estate investment trust (“REIT”), and possible adverse changes to tax laws; (xx) uninsured or underinsured losses and costs relating to our properties or that otherwise result from future litigation; (xxi) environmental uncertainties and risks related to natural disasters; (xxii) financial market fluctuations; and (xxiii) changes in real estate and zoning laws and increases in real property tax rates. Other factors that could materially affect results can be found in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024, including those set forth under the sections titled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in the Company’s preliminary prospectus supplement relating to the offering under the section titled “Risk Factors”, and in our other public filings.

We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

# Investment Strategy

## Unique and Highly Selective Market Approach

- Acquire, own and operate industrial real estate in six major coastal U.S. markets. Exclusively.
  - Mix of core and value-add investments
  - No greenfield development
  - No joint ventures
  - Emphasis on discount to replacement cost provides margin of safety
- Superior market fundamentals
  - Strong demand generators (high population densities, high volume distribution points, logistics infrastructure)
  - Physical and regulatory constraints to new supply
    - Shrinking supply in certain submarkets

## Functional Assets in Infill Locations

- Broad product opportunity set <sup>(1)</sup>
  - Warehouse / distribution (80.4%)
  - Improved land (10.0%) <sup>(2)</sup>
  - Transshipment (6.2%)
  - Flex (including light industrial and R&D) (3.4%)
- Functional and flexible assets
  - Cater to sub-market tenant demands, including last-mile distribution
  - Generally suitable for multiple tenants
  - Opportunity for higher and better use over time

**Goal: Superior same store NOI and per share NAV growth**

(1) Reflects Terreno portfolio composition based on annualized base rent ("ABR") as of September 30, 2025. Excludes six properties under development or redevelopment as of September 30, 2025, that, upon completion, will consist of nine buildings aggregating approximately 0.9 million square feet, and approximately 10.7 acres of land for future development.

(2) Includes 44 improved land parcels totaling approximately 146.4 acres that were 93.6% leased as of September 30, 2025. Such land is used for industrial outdoor storage and may be redeveloped to higher and better use.

# Current Portfolio Overview

## Occupancy <sup>(1)</sup> <sup>(2)</sup>

## Six Major Coastal U.S. Markets <sup>(2)</sup> <sup>(3)</sup>

## Key Metrics <sup>(4)</sup>

|                                         |                           |                                                |                |
|-----------------------------------------|---------------------------|------------------------------------------------|----------------|
| Square Feet <sup>(2)</sup>              | 20.2 million              | Average Acquisition Size                       | \$22.5 million |
| Number of Buildings <sup>(2)</sup>      | 307                       | Weighted Average Occupancy at Acquisition      | 85.4%          |
| 44 Improved Land Parcels <sup>(2)</sup> | 146.4 acres; 93.6% leased | Square Feet Under Development or Redevelopment | 0.9 million    |

(1) Portfolio and Same Store occupancy based on approximately 20.2 million and 14.1 million square feet, respectively, as of September 30, 2025, and excludes 44 improved land parcels consisting of approximately 146.4 acres. Occupancy at September 30, 2025 included 381,000 square feet (approximately 190bps) of vacancy acquired as part of a multi-market portfolio.

(2) Excludes six properties under development or redevelopment as of September 30, 2025, that, upon completion, will consist of nine buildings aggregating approximately 0.9 million square feet, and approximately 10.7 acres of land for future development.

(3) Based on annualized base rent ("ABR") by market including approximately 20.2 million square feet and 44 improved land parcels consisting of approximately 146.4 acres as of September 30, 2025.

(4) Portfolio as of September 30, 2025.

# Terreno's Submarket Focus

## Highly Focused Submarket Strategy

- 40% of portfolio located in **shrinking supply** submarkets <sup>(1)</sup>
  - Characterized by shrinking industrial supply. Offers opportunities to convert existing buildings into higher and better use over time. Urban infill.
- 42% of portfolio in **no net new supply** submarkets <sup>(1)</sup>
  - Characterized by older existing industrial product. Offers opportunities to redevelop existing buildings into new, modern industrial buildings. Infill.
- 18% of portfolio in **new supply** submarkets <sup>(1)</sup>
  - Characterized by industrial buildings that will remain in their current state for the foreseeable future with previously undeveloped land available for industrial development.

## Percentage Decrease in Industrial Supply Since 2010 <sup>(2)</sup> In Select Submarkets

| Submarket           | SF Decrease<br>(Millions of SF) | Total SF Decrease<br>Since 2010 | Annual SF<br>Decrease |
|---------------------|---------------------------------|---------------------------------|-----------------------|
| Washington, D.C.    | 1.9                             | 21.0%                           | 1.4%                  |
| South San Francisco | 2.2                             | 14.0%                           | 0.9%                  |
| Seattle Eastside    | 1.3                             | 8.5%                            | 0.6%                  |
| Brooklyn/Queens     | 10.4                            | 5.8%                            | 0.4%                  |
| LAX Airport         | 0.9                             | 5.3%                            | 0.4%                  |

7 <sup>(1)</sup> As of November 4, 2025. Reflects Terreno portfolio composition based on geography and purchase price, includes six properties under development or redevelopment and improved land parcels. Developments and redevelopments are included at total investment. Refer to Appendix for submarket classifications.

<sup>(2)</sup> Data provided by Costar. As a comparison, industrial supply has increased 20% nationally and 57% in the Inland Empire since 2010.

# Submarket Focus: Infill

Terreno portfolio located within highest density population submarkets as compared to other industrial REITs

- TRNO represents average population density within 5-mile and 10-mile radius of owned properties as of November 4, 2025, weighted by square footage. Peers represent average population density within 5-mile and 10-mile radius of owned properties, weighted by square footage, and ranked by 5-mile radius.
- PLD excluded due to lack of disclosed data.

# Submarket Focus: Ownership Density

Expanding presence in infill submarkets <sup>(1)</sup>

**13% ownership of Seattle Eastside industrial product <sup>(2)</sup>**

Redmond-Woodinville Road, Woodinville submarket, WA:

**12% ownership of Washington, D.C. industrial product**

V Street NE, Northeast submarket, Washington, D.C.:

**3% ownership of South San Francisco industrial product**

South San Francisco submarket, CA:

**2% ownership of Miami-Dade County industrial product**

Airport/Doral submarket, FL:

# Shrinking Supply: Seattle Eastside

Approximately 8.5% Decrease in Supply and 9.0% Average Annual Increase in Rental Rate Since 2010

Source: CoStar

- The Eastside's continued urbanization and light rail expansion has led to significant portions of industrial zones being rezoned or slated for redevelopment.
- The Bellevue-520 Corridor and Redmond have seen older industrial properties replaced with mixed-use developments including residential, office and retail spaces.

 Demolished or Repurposed Industrial Inventory

 Terreno Properties (18 buildings, 3 improved land parcels)

# Superior Long-Term Results

<sup>(1)</sup> See Appendix for details.

# Market Leading Corporate Structure

## Management Alignment

- Executive Team's long-term incentive compensation fully aligned with stockholders
  - Performance shares tied to three-year total stockholder return exceeding the MSCI U.S. REIT Index and FTSE Nareit Equity Industrial Index
  - No annual cash bonus plan for CEO and President with their long-term compensation paid solely in stock
- No stock options, SARs, dividend equivalent units or UPREIT units
- Significant senior management and board investment in common shares (approximately 1.9% of outstanding shares valued at \$115.4 million)

## Corporate Governance

- Tied for #4 among all REITs for Corporate Governance by Green Street Advisors, May 29, 2025
- Majority independent directors with diverse expertise serving annual terms; no classification of Board without shareholder approval ("MUTA opt-out")
- Adopted a majority voting standard in non-contested director elections
- Opted out of three Maryland anti-takeover provisions (no opt in without stockholder approval)
- Ownership limits designed to protect REIT status and not for the purpose of serving as an anti-takeover device
- No stockholder rights plan unless approved in advance by stockholders or if adopted, subject to termination if not ratified by stockholders within 12 months

# Key Takeaways

- Focused strategy
  - Six major coastal US markets, exclusively
  - Flexible and functional assets in infill locations
- Acquisition opportunities across our target markets at discounts to replacement cost
  - Ability to convert value-add investments into stabilized assets and realize value
  - Urban infill locations provide superior rent growth and higher and better use opportunities over time
- Strong balance sheet including an investment grade credit rating
- Demonstrated value creation with 45 properties sold since 2010 IPO for an aggregate sales price of approximately \$1.1 billion earning a 12.7% unleveraged IRR
- 12.0% dividend CAGR since initiating dividend in 2011
- 9.7% compounded annual total shareholder return since 2010 IPO
- Aligned management team and market leading corporate governance

---

(1) See Reporting Definitions for further explanation.

(2) The Company had six properties under development or redevelopment as of September 30, 2025, that, upon completion, will consist of nine buildings aggregating approximately 0.9 million square feet, and approximately 10.7 acres of land for future development.

(3) As of September 30, 2025, the Company had one property held for sale. The property consists of two buildings located in the New York City/Northern New Jersey market (net book value of approximately \$30.4 million and net liabilities of approximately \$0.2 million) and was sold on October 6, 2025 for a sales price of approximately \$144.2 million.

(4) Excludes deferred financing costs, loan fees and fair market value adjustment.

Average cash-basis same store growth since IPO: 10.9%

(1) Approximately \$0.3 million (50bps) of the increase in cash-basis same store NOI for the three months ended September 30, 2025 was related to properties that were acquired vacant or with near term expirations. Same store NOI is computed as rental revenues, including tenant expense reimbursements, less property operating expenses on a same store basis. The same store pool includes all properties that were owned as of September 30, 2025 and since January 1, 2024 and excludes properties that were held for sale, disposed of prior to or were under development or redevelopment as of September 30, 2025. See Reporting Definitions for further explanation.

(2) Historical same store results include cash-basis same store NOI growth %'s as reported in the Company's Form 10-Q and 10-K's. Previously reported cash-basis same store NOI growth has not been adjusted for properties that were subsequently disposed of or held for sale.

(1) Excludes below-market lease adjustments recorded at acquisition. Total expected investment for the properties includes the initial purchase price, buyer's due diligence and closing costs, estimated near-term redevelopment expenditures, capitalized interest and leasing costs necessary to achieve stabilization.

(2) Excludes below-market lease adjustments recorded at acquisition.

(3) Estimated stabilized cap rates are calculated as estimated annualized cash basis net operating income for the property stabilized to market occupancy (generally 95%) divided by the total expected investment for the property.

(4) "Countyline Phase IV" is a 121-acre project entitled for 2.2 million square feet of industrial distribution buildings located in Miami's Countyline Corporate Park ("Countyline"), immediately adjacent to our seven buildings within Countyline. Countyline Phase IV, a landfill redevelopment adjacent to Florida's Turnpike and the southern terminus of I-75, is expected to contain ten LEED-certified industrial distribution buildings at completion.

(5) This redevelopment property was initially acquired in 2017 for a total initial investment, including closing costs and acquisition costs, of approximately \$39.9 million. The property was in the operating portfolio until January 2024 where redevelopment commenced. The amount spent to date includes the total initial investment and capital expenditures incurred prior to redevelopment and excludes accumulated depreciation recorded since acquisition. We expect a total incremental investment of approximately \$64.0 million.

# Appendix: Countyline Corporate Park Phase IV

Countyline Corporate Park Phase IV is a 121-acre landfill redevelopment project in Miami's Countyline Corporate Park ("Countyline"), immediately adjacent to Terreno Realty Corporation's seven buildings within Countyline. At expected completion in 2027, Countyline Phase IV is expected to contain ten LEED-certified industrial distribution buildings totaling approximately 2.2 million square feet:

# Appendix: Value Realized

- **Property:** Interstate Logistics Center
- **Location:** South Brunswick, New Jersey
- **Size:** 603,000 square foot industrial distribution building on 35.5 acres which is 100% leased
- **Acquisition Price:** The original 413,000 square foot property was purchased in September 2010 for \$22.5 million. In 2013 the company acquired the adjacent land and expanded the building by 190,000 square feet for an additional investment of \$13.6 million

- **Value Created:** Sold in October 2025 for approximately \$144.2 million, generating an unleveraged IRR of 13.4%

**Value Realized – Sold for approximately \$144.2 million (net book value of approximately \$30.4 million) generating an unleveraged internal rate of return of 13.4%**

(1) Shrinking Supply: Characterized by shrinking industrial supply. Offers opportunities to convert existing buildings into higher and better use over time. Super infill.

(2) No Net New Supply: Characterized by older existing industrial product. Offers opportunities to redevelop existing buildings into new, modern industrial buildings. Infill.

(3) New Supply: Characterized by industrial buildings that will remain in their current state for the foreseeable future with previously undeveloped land available for industrial development.

(4) As of November 4, 2025. Reflects Terreno portfolio composition based on geography and purchase price, includes six properties under development or redevelopment and improved land parcels. Developments and redevelopments are included at total investment.

# Appendix: Environmental Highlights

We contribute positively to the environment by owning and operating facilities in infill locations close to population centers thereby minimizing vehicle miles traveled and the concomitant use of fuel and production of airborne particulate matter pollution. We do not develop buildings in greenfield locations. When re-leasing and redeveloping, we reduce our carbon footprint by upgrading existing facilities with energy efficient lighting and heating, and water saving solutions. Many of our properties are in historical manufacturing sites and we remove hazardous materials and remediate those sites that have environmental contaminants.

## Recent Highlights

### Rooftop Solar

- Entered agreements to host rooftop solar projects in our Washington, D.C., Los Angeles, and New York/Northern New Jersey markets, most recently completing construction of an approximately 6MW solar facility in Washington D.C. - the largest rooftop solar array in D.C. at time of completion. Total rooftops hosting solar represented approximately 6.4% of our portfolio at year-end 2024, exceeding our 2024 target of 5%, and representing approximately 8.7 MW of solar power generation.

### Green Building Certifications

- Achieved LEED certification on approximately 1.6 million square feet of newly-developed buildings built on former landfill and industrial land sites.
- Commenced LEED certification on an additional 1.8 million square feet of newly-developed buildings built on former landfill and industrial land sites, as part of our sustainability goal to achieve an additional 1 million square feet of LEED certified buildings by year-end 2025.

### Commitment to ESG Excellence

- More than 81% of our portfolio now contains energy efficient lighting and we are committed to upgrading the lighting across the portfolio as we gain access to units during vacancy periods.
- Increased the number of white or reflective surface roofs to approximately 82% of our portfolio.
- Increased ourGRESB Real Estate Assessment score from 35 in 2021 to 64 in 2025, and our MSCI ESG rating was upgraded from B to BBB during 2023.

# Appendix: Reporting Definitions

**Adjusted EBITDA:** We compute Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, gain on sales of real estate investments, acquisition costs and stock-based compensation. We believe that presenting Adjusted EBITDA provides useful information to investors regarding our operating performance because it is a measure of our operations on an unleveraged basis before the effects of tax, gain (loss) on sales of real estate investments, non-cash depreciation and amortization expense, acquisition costs and stock-based compensation. By excluding interest expense, Adjusted EBITDA allows investors to measure our operating performance independent of our capital structure and indebtedness and, therefore, allows for more meaningful comparison of our operating performance between quarters as well as annual periods and for the comparison of our operating performance to that of other companies, both in the real estate industry and in other industries. As we are currently in a growth phase, acquisition costs are excluded from Adjusted EBITDA to allow for the comparison of our operating performance to that of stabilized companies.

The following table reflects the calculation of Adjusted EBITDA reconciled from net income for the three and nine months ended September 30, 2025 and 2024 (dollars in thousands):

|                                          | For the Three Months<br>Ended September 30, |                  |                  |              | For the Nine Months Ended<br>September 30, |                   |                  |              |

# Appendix: Reporting Definitions

**Adjusted Funds from Operations (AFFO):** We compute AFFO by adding to or subtracting from FFO (see definition below) (i) acquisition costs (ii) stock-based compensation (iii) straight-line rents, (iii) amortization of above- and below-market lease intangibles and (iv) non-recurring capital expenditures required to stabilize acquired vacancy or renovation projects. We use AFFO as a meaningful supplemental measure of our operating performance because it captures trends in our portfolio operating results when compared year over year. We also believe that AFFO is a widely recognized supplemental measure of the performance of REITs and is used by investors as a basis to assess operating performance in comparison to other REITs. As a result, we believe that the use of AFFO, together with the required GAAP presentations, provide a more complete understanding of our operating performance.

**Funds from Operations (FFO):** We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (“Nareit”), which defines FFO as net income (loss) (determined in accordance with GAAP), excluding gains (losses) from sales of property and impairment write-downs of depreciable real estate, plus depreciation and amortization on real estate assets and after adjustments for unconsolidated partnerships and joint ventures (which are calculated to reflect FFO on the same basis). We believe that presenting FFO provides useful information to investors regarding our operating performance because it is a measure of our operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets.

We believe that FFO is a meaningful supplemental measure of our operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting alone to be insufficient. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our operating performance.

# Appendix: Reporting Definitions

**In-Place Cap Rate:** We compute estimated in-place cap rates, at the time of acquisition, as annualized cash basis net operating income for the property divided by the total acquisition cost for the property. Total acquisition cost for the property includes the initial purchase price, the effects of marking assumed debt to market (if any), buyer's due diligence and closing costs. We define cash basis net operating income for the property as net operating income excluding straight-line rents and amortization of lease intangibles.

**Net Debt:** We compute net debt as total debt, less deferred financing costs and cash and cash equivalents. We believe that presenting net debt provides useful information to investors regarding our ability to repay our outstanding consolidated indebtedness.

**Net Operating Income (NOI):** We compute NOI as rental revenues, including tenant expense reimbursements, less property operating expenses. We compute same store NOI as rental revenues, including tenant expense reimbursements, less property operating expenses on a same store basis. NOI excludes depreciation, amortization, general and administrative expenses, acquisition costs and interest expense. We compute cash-basis same store NOI as same store NOI excluding straight-line rents and amortization of lease intangibles. The same store pool includes all properties that were owned and in operation as of September 30, 2025 and since January 1, 2024 and excludes properties that were either disposed of prior to, held for sale to a third party or in development or redevelopment as of September 30, 2025. As of September 30, 2025, the same store pool consisted of 237 buildings aggregating approximately 14.1 million square feet representing approximately 70.0% of our total square feet owned and 42 improved land parcels consisting of approximately 142.5 acres representing approximately 97.3% of our total acreage owned. We believe that presenting NOI, same store NOI and cash-basis same store NOI provides useful information to investors regarding the operating performance of our properties because NOI excludes certain items that are not considered to be controllable in connection with the management of the property, such as depreciation, amortization, general and administrative expenses, acquisition costs and interest expense. By presenting same store NOI and cash-basis same store NOI, the operating results on a same store basis are directly comparable from period to period.

# Appendix: Reporting Definitions

**Stabilized Cap Rate:** We compute estimated stabilized cap rates, at the time of acquisition, as annualized cash basis net operating income for the property stabilized to market occupancy (generally 95%) divided by the total acquisition cost for the property. Total acquisition cost for the property includes the initial purchase price, the effects of marking assumed debt to market (if any), buyer's due diligence and closing costs, estimated near-term capital expenditures and leasing costs necessary to achieve stabilization. We define cash basis net operating income for the property as net operating income excluding straight-line rents and amortization of lease intangibles.
