Purpose

The purpose of the Committee is to assist the Board in fulfilling its oversight of the Company’s accounting and financial reporting processes, audits of the Company’s financial statements and internal control of financial reporting, and the Company’s financial plans and strategies.

The Committee has the responsibilities and powers set forth in this Charter. Management is responsible for the preparation, presentation, and integrity of the Company’s financial statements, for the appropriateness of the accounting principles and reporting policies that are used by the Company and for establishing and maintaining internal control over financial reporting. The independent registered public accounting firm is responsible for auditing the Company’s financial statements and management’s assessment of the effectiveness of internal control over financial reporting, and for reviewing the Company’s unaudited interim financial statements. The members of the Committee are not employees of the Company and are not responsible for conducting the audit or performing other accounting procedures.

Duties and Responsibilities

The Committee, in carrying out its responsibilities, believes its policies and procedures should remain flexible, in order to be better positioned to address and react to changing conditions and circumstances. The Committee will monitor the overall corporate “tone” for quality financial reporting, the Company’s focus on sound business risk practices, and the Company’s approach to promoting ethical financial reporting practices. These duties and responsibilities are set forth as a guide with the understanding that the Committee may supplement them as appropriate.

The Committee shall have the following duties and responsibilities, in addition to such other responsibilities as the Board may delegate or assign to the Committee from time to time:
