

"The Tractor Supply team delivered a strong third quarter. This performance was driven by ongoing share gains, agile execution through an extended summer season and healthy transaction growth. Our results were in line with our expectations and reflect the unwavering commitment of our 52,000 Team Members who live Life Out Here every day."

"As we enter the fourth quarter, we are well positioned for the fall and winter seasons, operating with discipline and controlling what we can control. With improved visibility on tariffs and the broader demand environment, we are narrowing our full-year guidance range to reflect our year-to-date performance and a balanced outlook. We are encouraged by the early momentum in our Life Out Here 2030 strategic initiatives – enhancing the customer experience, expanding our capabilities and strengthening our foundation for long-term growth."

Hal Lawton
 President & Chief Executive Officer
