

California's Leading Advocate for Life Sciences.

Supporting the most innovative life science cluster in the world with powerful advocacy and transformative programs to assist companies in their quest to improve the human condition.

Our Five Pillars of Service

Public Policy & Advocacy

Biocom California drives advocacy and public policy initiatives that give members a strong and respected voice with elected representatives and regulatory officials at the federal, state and local levels.

Building Networks

Biocom California hosts specialized events, conferences, expert committees, leadership dinners, advocacy fly-ins, industry-focused meetings, scientific and executive roundtables, partnering events and member-to-member networking.

Capital Development & Partnering

Biocom California connects member companies with strategic partners, VCs and other sources of funding through a variety of partnering events. Our annual Global Life Science Partnering Conference is a premier forum for business development and deal-making.

Business Strategies and Services

Biocom California's Purchasing Group offers robust, strategic, consortium-level programs that leverage group buying power to reduce costs and increase efficiency for our members.

Workforce Development

Biocom California Institute provides high-quality programs to accelerate the growth of the life science ecosystem through career exploration, hands-on experiences, internships, fellowships, professional development, and veterans initiatives.

25+ years.

Advocating for life science innovation since 1995

Biocom California works on behalf of more than 1,500 members to drive public policy, build an enviable network of industry leaders, create access to capital, introduce cutting-edge workforce development and STEM education programs, and create robust value-driven purchasing programs. Biocom California provides the strongest public voice for research institutions and companies that fuel the state economy.
