“We are pleased to report a strong finish to 2025, highlighted by record quarterly net income. We are especially happy with the strong deposit growth during the quarter, which will set us up well to grow both loans and securities in 2026,” said F. Scott Dueser, Chairman and CEO of First Financial Bankshares, Inc. “We are encouraged by our organic balance sheet growth of almost \$1.50 billion in the past year, increasing earning assets while continuing to grow net interest income. As we enter 2026, we will continue to remain focused on sound lending growth, managing the changing interest rate environment and the regulatory landscape. We appreciate the continued support of our customers, shareholders and associates and assure you that we will continue to put You First!”

Net interest income for the fourth quarter of 2025 was \$131.37 million compared to \$127.00 million for the third quarter of 2025 and \$116.12 million for the fourth quarter of 2024. The net interest margin, on a tax-equivalent basis, was 3.81 percent for the fourth quarter of 2025 compared to 3.80 percent for the third quarter of 2025 and 3.67 percent in the fourth quarter of 2024. Average interest-earning assets were \$14.08 billion for the fourth quarter of 2025 compared to \$12.86 billion for the same quarter a year ago.

The Company recorded a credit provision reversal of \$2.49 million for the fourth quarter of 2025 compared to a provision for credit losses of \$24.44 million for the third quarter of 2025 and \$1.00 million in the fourth quarter 2024. The Company recorded a provision for credit losses of \$28.61 million for the year ended December 31, 2025, compared to \$13.82 million recorded in 2024.

The allowance for credit losses totaled \$105.54 million or 1.29 percent of total loans held-for-investment (“loans hereafter”) at December 31, 2025, compared to \$98.33 million, at December 31, 2024, or 1.24 percent of loans. Additionally, the reserve for unfunded commitments totaled \$6.39 million at December 31, 2025 compared to \$8.68 million at December 31, 2024.

For the fourth quarter of 2025, net charge-offs totaled \$391 thousand compared to net charge-offs of \$22.34 million for the third quarter of 2025 and \$1.94 million for the fourth quarter of 2024. Nonperforming assets as a percentage of loans and foreclosed assets totaled 0.69 percent on December 31, 2025, compared to 0.71 percent at September 30, 2025 and 0.80 percent at December 31, 2024. Classified loans totaled \$255.61 million at December 31, 2025, compared to \$252.96 million at September 30, 2025 and \$233.85 million at December 31, 2024.

Noninterest income for the fourth quarter of 2025 was \$33.35 million compared to \$30.98 million for the fourth quarter of 2024. Notable changes for the fourth quarter of 2025 when compared to the same quarter a year ago are as follows:

- Mortgage income increased to \$4.22 million for the fourth quarter of 2025 compared to \$3.01 million in the fourth quarter of 2024 due to increased loan origination volumes and pricing margins.
- Trust fee income increased to \$13.51 million for the fourth quarter of 2025 compared to \$12.66 million in the same quarter last year which represents an increase of \$850 thousand or 6.71 percent. Trust revenue has increased primarily due to growth in market value of assets under management to \$11.94 billion at December 31, 2025 compared to \$10.83 billion at December 31, 2024.

Noninterest expense for the fourth quarter of 2025 totaled \$77.65 million compared to \$70.10 million for the fourth quarter of 2024. Notable changes for the fourth quarter of 2025 when compared to the same quarter a year ago are as follows:

- Salary, commissions, and employee benefit costs rose to \$47.23 million for the fourth quarter of 2025, compared to \$41.64 million in the fourth quarter of 2024. The increase from the fourth quarter of 2024 is largely due to merit-based pay increases and market adjustments for front line staff over the prior year, an increase of \$1.17 million in profit sharing expense and an increase of \$384 thousand in officer bonus and incentive accruals related to the Company's growth in net income over the prior year and increased mortgage activity.
- Noninterest expense, excluding salary related costs, increased \$1.97 million for the fourth quarter of 2025 compared to the same period in 2024 largely due to increases in software amortization and expense and operational and other losses.

The Company's efficiency ratio was 46.10 percent for the fourth quarter of 2025 and 46.81 percent for the fourth quarter of 2024. The decrease from the same period in the prior year is primarily due to the increase in net interest income in 2025.

As of December 31, 2025, consolidated total assets were \$15.45 billion compared to \$13.98 billion at December 31, 2024. Loans totaled \$8.16 billion at December 31, 2025, compared with loans of \$7.91 billion at December 31, 2024. Loans grew \$245.18 million, or 3.10 percent, from December 31, 2024 balances. Deposits and Repurchase Agreements totaled \$13.41 billion at December 31, 2025, compared to \$12.90 billion at September 30, 2025 and \$12.16 billion at December 31, 2024. During the fourth quarter of 2025, Deposits and Repurchase Agreements grew \$511.59 million, or 15.74 percent annualized, when compared to September 30, 2025 balances and \$1.25 billion from December 31, 2024, or 10.26 percent.

Shareholders' equity was \$1.92 billion as of December 31, 2025, compared to \$1.61 billion at December 31, 2024, resulting from growth in retained earnings and improvement in Other Comprehensive Income ("OCI") due to the decrease in unrealized losses in the bond portfolio related to lower longer-term interest rates. The unrealized loss on the securities portfolio, net of applicable tax, totaled \$269.94 million at December 31, 2025, compared to \$424.29 million at December 31, 2024.
