Part II  Organizational Action
Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action
The Class A Common Stock distribution of $0.610 per share declared on January 30, 2020 by The Blackstone Group Inc. ("Company") will be paid on February 18, 2020. The date of record is at the close of business on February 10, 2020.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis
The Company currently estimates that the Class A Common Stock shareholder's tax basis will reduce by $0.319 per share as a result of the above distributions.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates
Pursuant to Internal Revenue Code Sections 301(c) and 316(c), the distributions are treated as taxable dividend to the extent of the Company's current and accumulated earnings and profits. Distributions in excess of the Company's current and accumulated earnings and profits are treated as nontaxable return of capital to the extent of the stockholder's tax basis. Any distributions in excess of the stockholder's basis will be treated as capital gains for U.S. tax purposes. The taxability of the Company's distributions and the determination of the character of the distributions are based on the most current and accurate estimated earnings and profits information for the period ended December 31, 2020 available at the time this Form is published. The calculation of earnings and profits differs from income calculated in accordance with GAAP and non-GAAP metrics used in segment reporting (see related earnings & realized income) since it is based on taxable income which includes certain non-cash deduction, among other book to tax differences in income and expenses.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶

The return of capital in Item 15 above is an estimate based on the most current and accurate estimated earnings and profits information available at the time this Form is published for the reportable tax year 2020. The Company will report an updated Form 8937 in early January 2021 and upon the filing of the 2020 federal income tax return, if it determines that the amount of distributions treated as a return of capital with respect to each share of Class A Common Stock changes. The above information does not constitute tax advice. It is recommended that stockholders consult with their own tax advisors regarding the income tax consequences of amounts that may be revised at a later date.
