**MADISON SQUARE GARDEN SPORTS CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

All amounts included in the following Notes to Consolidated Financial Statements are presented in thousands, except per share data or as otherwise noted.

Note 1. Description of Business and Basis of Presentation

Description of Business

Madison Square Garden Sports Corp. (together with its subsidiaries, collectively, “we,” “us,” “our,” “MSG Sports,” or the “Company”) owns and operates a portfolio of assets featuring some of the most recognized teams in all of sports, including the New York Knickerbockers (“Knicks”) of the National Basketball Association (“NBA”) and the New York Rangers (“Rangers”) of the National Hockey League (“NHL”). Both the Knicks and the Rangers play their home games in Madison Square Garden Arena (“The Garden”). The Company’s other professional sports franchises include two development league teams — the Hartford Wolf Pack of the American Hockey League and the Westchester Knicks of the NBA G League. These professional sports franchises are collectively referred to herein as the “sports teams.” In addition, the Company previously owned a controlling interest in Counter Logic Gaming (“CLG”), a North American esports organization. In April 2023, the Company sold its controlling interest in CLG to Hard Carry Gaming Inc. (“NRG”), a professional gaming and entertainment company in exchange for a noncontrolling equity interest in the combined NRG/CLG company. CLG and the sports teams are collectively referred to herein as the “teams.” The Company also operates a professional sports team performance center — the Madison Square Garden Training Center in Greenburgh, NY.

The Company operates and reports financial information in one segment. The Company’s decision to organize as one operating segment and report in one segment is based upon its internal organizational structure; the manner in which its operations are managed; and the criteria used by the Company’s Executive Chairman, its Chief Operating Decision Maker (“CODM”), to evaluate segment performance. The Company’s CODM reviews total company operating results to assess overall performance and allocate resources.

The Company was incorporated on March 4, 2015 as an indirect, wholly-owned subsidiary of MSG Networks Inc. (“MSG Networks”). All of the outstanding common stock of the Company was distributed to MSG Networks shareholders (the “MSGS Distribution”) on September 30, 2015.

On April 17, 2020, the Company distributed all of the outstanding common stock of Sphere Entertainment Co. (formerly Madison Square Garden Entertainment Corp. and referred to herein as “Sphere Entertainment”) to its stockholders (the “Sphere Distribution”).

On April 20, 2023 (the “MSG Distribution Date”), Sphere Entertainment distributed to its stockholders approximately 67% of the issued and outstanding shares of common stock of Madison Square Garden Entertainment Corp. (referred to herein as “MSG Entertainment”) to its stockholders (the “MSG Distribution”). All agreements between the Company and MSG Entertainment described herein were between the Company and Sphere Entertainment prior to the MSG Distribution (except agreements entered into after the MSG Distribution Date).

Unless the context otherwise requires, all references to MSG Entertainment, Sphere Entertainment and MSG Networks refer to such entity, together with its direct and indirect subsidiaries.

Basis of Presentation

The accompanying unaudited consolidated interim financial statements (referred to as the “Financial Statements” herein) have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and Article 10 of Regulation S-X of the Securities and Exchange Commission (the “SEC”) for interim financial information, and should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2023 (“fiscal year 2023”). The Financial Statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, the Financial Statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented. The results of operations for the periods presented are not necessarily indicative of the results that might be expected for future interim periods or for the full year. The dependence of MSG Sports on revenues from its NBA and NHL sports teams generally means it earns a disproportionate share of its revenues in the second and third quarters of the Company’s fiscal year, which is when the majority of the sports teams’ games are played.

Reclassifications

Certain reclassifications have been made in order to conform to the current period’s presentation and relate to the separation of Investments and unrealized loss (gain) on equity investments with readily determinable fair value and warrants on the consolidated statements of cash flows for the six months ended December 31, 2022.

MADISON SQUARE GARDEN SPORTS CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Continued)

Note 2. Accounting Policies**Principles of Consolidation**

The consolidated financial statements of the Company include the accounts of Madison Square Garden Sports Corp. and its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. For consolidated subsidiaries where the Company's ownership is less than 100%, the relevant amounts attributable to investors other than the Company are reflected under "Nonredeemable noncontrolling interests," "Net income (loss) attributable to nonredeemable noncontrolling interests" and "Comprehensive income (loss) attributable to nonredeemable noncontrolling interests" in the accompanying consolidated balance sheets, the accompanying consolidated statements of operations and consolidated statements of comprehensive income (loss), respectively.

Use of Estimates

The preparation of the accompanying Financial Statements in conformity with GAAP requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenues and expenses. Such estimates include the valuation of accounts receivable, goodwill, intangible assets, other long-lived assets, fair value of investments, deferred tax valuation allowance, tax accruals, and other liabilities. In addition, estimates are used in revenue recognition, revenue sharing expense (net of escrow and excluding playoffs), luxury tax expense, income tax expense, performance and share-based compensation, depreciation and amortization, litigation matters and other matters. Management believes its use of estimates in the Financial Statements to be reasonable.

Management evaluates its estimates on an ongoing basis using historical experience and other factors, including the general economic environment and actions it may take in the future. The Company adjusts such estimates when facts and circumstances dictate. However, these estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on management's best judgment at a point in time and, as such, these estimates may ultimately differ from actual results. Changes in estimates resulting from weakness in the economic environment or other factors beyond the Company's control could be material and would be reflected in the Company's financial statements in future periods.

Rangers LLC is required to make mandatory prepayments in certain circumstances, including without limitation if qualified revenues are less than 17% of the maximum available amount under the Rangers Revolving Credit Facility.

In addition to the financial covenant described above, the Rangers Credit Agreement and related security agreement contain certain customary representations and warranties, affirmative covenants and events of default. Revenues

Revenues decreased \$26,796, or 8%, to \$326,898 for the three months ended December 31, 2023 as compared to the prior year period. Revenues decreased \$7,839, or 2%, for the six months ended December 31, 2023 as compared to the prior year period. The net decreases were attributable to the following:

	Three Months	Six Months
Decrease in pre/regular season ticket-related revenues	\$ (19,045)	\$ (18,709)
Decrease in suite revenues	(5,895)	(5,679)
Decrease in sponsorship and signage revenues	(5,811)	(5,527)
Increase in revenues from local media rights fees	1,952	2,184
Increase in revenues from league distributions	1,651	18,643
Other net increases	352	1,249
	\$ (26,796)	\$ (7,839)

The decreases in pre/regular season ticket-related revenues for the three and six months ended December 31, 2023 were primarily due to the Knicks and the Rangers playing fewer home games at The Garden during the current year periods as compared to the prior year periods, partially offset by higher average per-game revenue. The Knicks played 15 games at The Garden during the three and six months ended December 31, 2023 as compared to 21 games during the prior year periods. The Rangers played 17 games at The Garden during the three months ended December 31, 2023 and 19 games at The Garden during the six months ended December 31, 2023 as compared to 20 and 22 games, respectively, during the prior year periods.

[Table of Contents](#)

The decreases in suite revenues for the three and six months ended December 31, 2023 were primarily due to the Knicks and the Rangers playing fewer games at The Garden during the current year periods as compared to the prior year periods, partially offset by higher net sales of suites products, including revenue related to new premium hospitality offerings which were made available at the start of the 2023-24 seasons.

The decreases in sponsorship and signage revenues for the three and six months ended December 31, 2023 were primarily due to the Knicks and the Rangers playing fewer games at The Garden during the current year periods as compared to the prior year periods.

The increases in revenues from local media rights fees for the three and six months ended December 31, 2023 were primarily due to contractual rate increases.

The increase in revenues from league distributions for the three months ended December 31, 2023 was primarily due to increased national media rights fees in the current year period, partially offset by lower other league distributions in the current year period. The increase in revenues from league distributions for the six months ended December 31, 2023 was primarily due to an increase in and the timing of recognition of certain league distributions unrelated to national media rights fees and, to a lesser extent, increased national media rights fees in the current year period.

Direct operating expenses

Direct operating expenses increased \$6,523, or 3%, to \$232,225 for the three months ended December 31, 2023 as compared to the prior year period. Direct operating expenses increased \$6,362, or 3%, to \$235,745 for the six months ended December 31, 2023 as compared to the prior year period. The net increases were attributable to the following:

	Three Months	Six Months
Increase in team personnel compensation	\$ 12,192	\$ 10,863
Increase in net provisions for league revenue sharing expense (net of escrow and excluding playoffs) and NBA luxury tax	2,626	3,634
Decrease in operating lease costs associated with the Knicks and the Rangers playing home games at The Garden	(7,255)	(7,255)
Other net decreases	(1,040)	(880)
	<u>\$ 6,523</u>	<u>\$ 6,362</u>

The increases in team personnel compensation for the three and six months ended December 31, 2023 were primarily due to roster changes for the Knicks and the Rangers, partially offset by the absence of expenses related to Counter Logic Gaming (“CLG”) in the current year periods, following the Company’s sale of its controlling interest in CLG in April 2023.

Net provisions for league revenue sharing expense (net of escrow and excluding playoffs) and NBA luxury tax were as follows:

	Three Months Ended December 31,			Six Months Ended December 31,		
	2023	2022	Increase	2023	2022	Increase
Net provisions for league revenue sharing expense (net of escrow and excluding playoffs) and NBA luxury tax	\$ 23,584	\$ 20,958	\$ 2,626	\$ 22,418	\$ 18,784	\$ 3,634

The increases in net provisions for league revenue sharing expense (net of escrow and excluding playoffs) and NBA luxury tax for the three and six months ended December 31, 2023 were primarily related to higher provisions for league revenue sharing expense (net of escrow and excluding playoffs) of \$2,276 and \$2,276, respectively. In addition, the increase in net provisions for league revenue sharing expense (net of escrow and excluding playoffs) and NBA luxury tax for the six months ended December 31, 2023 was partially due to the net impact of adjustments to prior seasons’ revenue sharing expense (net of escrow).

The Knicks were not a luxury tax payer for the 2022-23 season and, therefore, received an equal share of the portion of luxury tax receipts that were distributed to non-tax paying teams. The Knicks’ roster as of December 31, 2023 would not result in the team being a luxury tax payer for the 2023-24 season.

[Table of Contents](#)

The actual amounts for the 2023-24 seasons may vary significantly from the recorded provisions based on actual operating results for each league and all teams within each league for the season and other factors.

The decreases in operating lease costs associated with the Knicks and the Rangers playing home games at The Garden for the three and six months ended December 31, 2023 were a result of the Knicks and the Rangers playing fewer games at The Garden during the current year periods as compared to the prior year periods.

Selling, general and administrative expenses

Selling, general and administrative expenses primarily consist of (i) administrative costs, including compensation, costs under the Company's Services Agreement, and professional fees, (ii) fees related to the Company's sponsorship sales and service representation agreements, and (iii) sales and marketing costs. Selling, general and administrative expenses generally do not fluctuate in line with changes in the Company's revenues and direct operating expenses.

Selling, general and administrative expenses for the three months ended December 31, 2023 decreased \$10,570, or 14%, to \$65,066 as compared to the prior year period driven by lower employee compensation and related benefits of \$7,821, primarily due to executive management transition costs recognized in the prior year period, and lower other general and administrative expenses.

Selling, general and administrative expenses for the six months ended December 31, 2023 decreased \$12,295, or 9%, to \$118,622 as compared to the prior year period driven by lower employee compensation and related benefits of \$10,527, primarily due to executive management transition costs recognized in the prior year period, and lower other general and administrative expenses.

Depreciation and amortization

Depreciation and amortization for the three months ended December 31, 2023 decreased \$48, or 6%, to \$790 as compared to the prior year period.

Depreciation and amortization for the six months ended December 31, 2023 decreased \$279, or 15%, to \$1,584 as compared to the prior year period.

Operating income

Operating income for the three months ended December 31, 2023 decreased \$22,701, or 44%, to \$28,817 as compared to the prior year period primarily due to lower revenues and, to a lesser extent, higher direct operating expenses, partially offset by lower selling, general and administrative expenses.

Operating income for the six months ended December 31, 2023 decreased \$1,627, or 10%, to \$13,993 as compared to the prior year period primarily due to lower revenues and higher direct operating expenses, partially offset by lower selling, general and administrative expenses.

Interest expense, net

Net interest expense for the three months ended December 31, 2023 increased \$1,288, or 23%, to \$6,800 as compared to the prior year period primarily due to increased interest expense caused by higher average interest rates in the current year period and higher average borrowings under the Knicks Revolving Credit Facility in the current year period. The increase was partially offset by lower average borrowings under the Rangers Revolving Credit Facility in the current year period.

Net interest expense for the six months ended December 31, 2023 increased \$4,808, or 57%, to \$13,276 as compared to the prior year period primarily due to increased interest expense caused by higher average interest rates in the current year period and higher average borrowings under the Rangers Revolving Credit Facility and the Knicks Revolving Credit Facility in the current year period.

Miscellaneous income (expense), net

Miscellaneous income, net for the three months ended December 31, 2023 increased \$2,606 to \$2,991 as compared to the prior year period primarily due to the recognition of unrealized gains in the current year period related to the Company's investments in Xtract One common stock and warrants which were made in the third and fourth quarters of fiscal year 2023. Miscellaneous income (expense), net for the six months ended December 31, 2023 decreased \$9,893 to a net expense of \$9,674 as compared to the prior year period primarily due to the recognition of unrealized losses in the current year period related to the Company's investments in Xtract One common stock and warrants.

Income taxes

See Note 17 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of the Company's income taxes.

Adjusted operating income

During the fourth quarter of fiscal year 2023, the Company amended the definition of adjusted operating income (loss) so that the impact of the non-cash portion of operating lease costs related to the Company's Arena License Agreements with MSG Entertainment is no longer excluded in the calculation of adjusted operating income (loss) in all periods presented.

The Company evaluates performance based on several factors, of which the key financial measure is operating income (loss) excluding (i) depreciation, amortization and impairments of property and equipment, goodwill and other intangible assets, (ii) share-based compensation expense or benefit, (iii) restructuring charges or credits, (iv) gains or losses on sales or dispositions of businesses, (v) the impact of purchase accounting adjustments related to business acquisitions, and (vi) gains and losses related to the remeasurement of liabilities under the Company's Executive Deferred Compensation Plan, which is referred to as adjusted operating income (loss), a non-GAAP measure.

Management believes that the exclusion of share-based compensation expense or benefit allows investors to better track the performance of the Company's business without regard to the settlement of an obligation that is not expected to be made in cash. In addition, management believes that the exclusion of gains and losses related to the remeasurement of liabilities under the Company's Executive Deferred Compensation Plan provides investors with a clearer picture of the Company's operating performance given that, in accordance with GAAP, gains and losses related to the remeasurement of liabilities under the Company's Executive Deferred Compensation Plan are recognized in Operating income (loss) whereas gains and losses related to the remeasurement of the assets under the Company's Executive Deferred Compensation Plan, which are equal to and therefore fully offset the gains and losses related to the remeasurement of liabilities, are recognized in Miscellaneous income (expense), net, which is not reflected in Operating income (loss).

The Company believes adjusted operating income (loss) is an appropriate measure for evaluating the operating performance of the Company. Adjusted operating income (loss) and similar measures with similar titles are common performance measures used by investors and analysts to analyze the Company's performance. The Company uses revenues and adjusted operating income (loss) measures as the most important indicators of its business performance and evaluates management's effectiveness with specific reference to these indicators.

Adjusted operating income (loss) should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities, and other measures of performance and/or liquidity presented in accordance with GAAP. Since adjusted operating income (loss) is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies. The Company has presented the components that reconcile operating income (loss), the most directly comparable GAAP financial measure, to adjusted operating income (loss).

[Table of Contents](#)

The following are the reconciliations of operating income to adjusted operating income for the three and six months ended December 31, 2023 and 2022:

	Three Months Ended				Six Months Ended			
	December 31,		Change		December 31,		Change	
	2023	2022	\$	%	2023	2022	\$	%

Depreciation and amortization	790	838			1,584	1,863		
Share-based compensation	6,570	11,619			10,719	18,839

(a) During the fourth quarter of fiscal year 2023, the Company amended the definition of adjusted operating income (loss) so that the impact of the non-cash portion of operating lease costs related to the Company's Arena License Agreements with MSG Entertainment is no longer excluded. Pursuant to GAAP, recognition of operating lease costs is recorded on a straight-line basis over the term of the agreement based upon the value of total future payments under the arrangement. As a result, operating lease costs is comprised of a contractual cash component plus or minus a non-cash component for each period presented. Adjusted operating income includes operating lease costs of (i) \$15,409 and \$16,238 of expense paid in cash for the three and six months ended December 31, 2023, respectively, and \$19,416 and \$20,221 of expense paid in cash for the three and six months ended December 31, 2022, respectively, and (ii) a non-cash expense of \$8,953 and \$9,435, for the three and six months ended December 31, 2023, respectively, and \$12,202 and \$12,708 for the three and six months ended December 31, 2022, respectively.

For the three months ended December 31, 2023, adjusted operating income decreased \$27,408, or 43%, to \$37,016 as compared to the prior year period. The decrease in adjusted operating income was primarily due to lower revenues and, to a lesser extent, higher direct operating expenses, partially offset by lower selling, general and administrative expenses.

For the six months ended December 31, 2023, adjusted operating income decreased \$9,637, or 26%, to \$27,031 as compared to the prior year period. The decrease in adjusted operating income was primarily due to lower revenues and higher direct operating expenses, partially offset by lower selling, general and administrative expenses.

Liquidity and Capital Resources

Overview

Our primary sources of liquidity are cash and cash equivalents, cash flow from operations and available borrowing capacity under our credit facilities. See Note 12 to the consolidated financial statements included in “Part I - Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for a discussion of the Knicks Credit Agreement, the Rangers Credit Agreement, and the Rangers NHL Advance Agreement (each as defined therein).

Our principal uses of cash include the operation of our businesses, working capital-related items, the repayment of outstanding debt, repurchases of shares of the Company’s Class A Common Stock, dividends, if declared, and investments.

As of December 31, 2023, we had \$37,880 in Cash and cash equivalents. In addition, as of December 31, 2023, the Company’s deferred revenue obligations were \$218,450, net of billed, but not yet collected deferred revenue. This balance is primarily comprised of obligations in connection with tickets, suites and local media rights. In addition, the Company’s deferred revenue obligations included \$11,033 from the NBA, which the league provided to each team.

We regularly monitor and assess our ability to meet our net funding and investing requirements. The decisions of the Company as to the use of its available liquidity will be based upon the ongoing review of the funding needs of the business, management’s view of a favorable allocation of cash resources, and the timing of cash flow generation. To the extent the Company desires to access alternative sources of funding through the capital and credit markets, restrictions imposed by the NBA and NHL and potentially challenging U.S. and global economic and market conditions could adversely impact its ability to do so at that time.

We believe we have sufficient liquidity, including approximately \$37,880 in Cash and cash equivalents as of December 31, 2023, along with \$195,000 of additional available borrowing capacity under existing credit facilities, to fund our operations and satisfy any obligations for the foreseeable future.

Financing Agreements and Stock Repurchases

See Note 12 and Note 15 to the consolidated financial statements included in “Part I — Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for discussions of the Company’s debt obligations and various financing agreements, and the Company’s stock repurchases, respectively.

Contractual Obligations

The Company did not have any material changes in its contractual obligations since the end of fiscal year 2023 other than activities in the ordinary course of business.

Cash Flow Discussion

The following table summarizes the Company’s cash flow activities for the six months ended December 31, 2023 and 2022:

	Six Months Ended December 31,	
	2023	2022
Net (loss) income	\$ (4,597)	\$ 3,309
Adjustments to reconcile net (loss) income to net cash (used in) provided by operating activities:	18,325	24,937
Changes in working capital assets and liabilities	(33,985)	3,331
Net cash (used in) provided by operating activities	(20,257)	31,577
Net cash used in investing activities	(5,238)	(1,314)
Net cash provided by (used in) financing activities	26,268	(76,123)
Net increase (decrease) in cash, cash equivalents and restricted cash	\$ 773	\$ (45,860)

Operating Activities

Net cash used in operating activities for the six months ended December 31, 2023 was \$20,257 as compared to net cash provided by operating activities in the prior period of \$31,577. This was primarily due to the decrease in net (loss) income adjusted for non-cash items in addition to changes in working capital assets and liabilities. The changes in working capital assets and liabilities were primarily driven by (i) lower accrued and other liabilities of \$60,478 primarily due to higher payments related to employee compensation, league revenue sharing, and income taxes in the current year period, (ii) higher prepaid expenses and other assets of \$10,236 primarily due to higher payments for income taxes in the current year period and lower receipts related to escrow and player compensation recoveries in the current year period, (iii) \$7,586 related to operating lease right-of-use assets and lease liabilities due to the timing of recognition of operating lease costs and higher lease payments, (iv) higher net related party

[Table of Contents](#)

receivables of \$6,114 due to the timing of collections related to the Company's sponsorship sales and service representation agreements and Arena License Agreements, (v) higher accounts receivable, net of \$4,793 due to the timing of collections related to sponsorship and ticket sales. These changes are partially offset by (i) higher deferred revenue of \$33,592 primarily due to the higher collections of ticket sales in advance of recognition of pre/regular season ticket-related revenues, (ii) lower net related party payables of \$11,592 primarily due to the timing of payments related to the Services Agreement, and (iii) lower investments of \$7,344 primarily related to the Company's Executive Deferred Compensation Plan.

Investing Activities

Net cash used in investing activities for the six months ended December 31, 2023 increased by \$3,924 to \$5,238 as compared to the prior year period primarily due to higher purchases of investments in the current year period.

Financing Activities

Net cash provided by financing activities for the six months ended December 31, 2023 was \$26,268 as compared to net cash used in financing activities for the six months ended December 31, 2022 of \$76,123. This was primarily due to the impact of dividends paid and the accelerated share repurchase in the prior year period and, to a lesser extent, lower taxes paid in lieu of shares issued for equity-based compensation in the current year period. These impacts were partially offset by additional borrowings under the Knicks Revolving Credit Facility and the Rangers Revolving Credit Facility in the prior year period and higher principal repayments under the Company's credit facilities in the current year period.

Seasonality of Our Business

The Company's dependence on revenues from its NBA and NHL sports teams generally means that it earns a disproportionate share of its revenues in the second and third quarters of the Company's fiscal year, which is when the majority of the sports teams' games are played.

Critical Accounting Policies

Recently Issued Accounting Pronouncements

See Note 2 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussion of recently issued accounting pronouncements.

Critical Accounting Policies

The following discussion has been included to provide the results of our annual impairment testing of goodwill and identifiable indefinite-lived intangible assets performed during the first quarter of fiscal year 2024. There have been no material changes to the Company's critical accounting policies from those set forth in our Annual Report on Form 10-K for the fiscal year ended June 30, 2023.

Goodwill

The carrying amount of goodwill as of December 31, 2023 was \$226,523. Goodwill is tested annually for impairment as of August 31st and at any time upon the occurrence of certain events or changes in circumstances. The Company performs its goodwill impairment test at the reporting unit level, which is the same as or one level below the operating segment level. The Company has one operating and reportable segment, and one reporting unit for goodwill impairment testing purposes.

The Company has the option to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. If the Company can support the conclusion that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company would not need to perform a quantitative impairment test for that reporting unit. If the Company cannot support such a conclusion or the Company does not elect to perform the qualitative assessment, the first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The estimates of the fair value of the Company's reporting units are primarily determined using discounted cash flows and comparable market transactions. These valuations are based on estimates and assumptions including projected future cash flows, discount rates, determination of appropriate market comparables and the determination of whether a premium or discount should be applied to comparables. Significant judgments inherent in a discounted cash flow analysis include the selection of the appropriate discount rate, the estimate of the amount and timing of projected future cash flows and identification of appropriate continuing growth rate assumptions. The discount rates used in the analysis are intended to reflect the risk inherent in the projected future cash flows. The amount of an impairment loss is measured as the amount by which a reporting unit's carrying value exceeds its fair value determined in step one, not to exceed the carrying amount of goodwill.

[Table of Contents](#)

The Company elected to perform the qualitative assessment of impairment for the Company's reporting unit for the fiscal year 2024 impairment test. These assessments considered factors such as:

- macroeconomic conditions;
- industry and market considerations;
- market capitalization;
- cost factors;
- overall financial performance of the reporting unit;
- other relevant company-specific factors such as changes in management, strategy or customers; and
- relevant reporting unit specific events such as changes in the carrying amount of net assets.

The Company performed its most recent annual impairment test of goodwill during the first quarter of fiscal year 2024, and there was no impairment of goodwill. Based on this impairment test, the Company concluded it was not more likely than not that the fair value of the reporting unit was less than its carrying amount.

Identifiable Indefinite-Lived Intangible Assets

Identifiable indefinite-lived intangible assets are tested annually for impairment as of August 31st and at any time upon the occurrence of certain events or substantive changes in circumstances. The following table sets forth the amount of identifiable indefinite-lived intangible assets reported in the Company's consolidated balance sheet as of December 31, 2023:

Sports franchises	\$	102,564
Photographic related rights		1,080
	\$	<u>103,644</u>

The Company has the option to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. In the qualitative assessment, the Company must evaluate the totality of qualitative factors, including any recent fair value measurements, that impact whether an indefinite-lived intangible asset other than goodwill has a carrying amount that more likely than not exceeds its fair value. The Company must proceed to conducting a quantitative analysis, if the Company (i) determines that such an impairment is more likely than not to exist, or (ii) forgoes the qualitative assessment entirely. Under the quantitative assessment, the impairment test for identifiable indefinite-lived intangible assets consists of a comparison of the estimated fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess. For all periods presented, the Company elected to perform a qualitative assessment of impairment for the indefinite-lived intangible assets. These assessments considered the events and circumstances that could affect the significant inputs used to determine the fair value of the intangible asset.

Examples of such events and circumstances include:

- cost factors;
- financial performance;
- legal, regulatory, contractual, business or other factors;
- other relevant company-specific factors such as changes in management, strategy or customers;
- industry and market considerations; and
- macroeconomic conditions.

The Company performed its most recent annual impairment test of identifiable indefinite-lived intangible assets during the first quarter of fiscal year 2024, and there were no impairments identified. Based on this impairment test, the Company concluded it was not more likely than not that the fair value of the indefinite-lived intangible assets was less than their carrying amount.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the disclosures regarding market risks in connection with our interest rate risk exposure. See Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," of our Annual Report on Form 10-K for the fiscal year ended June 30, 2023.

Potential interest rate risk exposure:

We have potential interest rate risk exposure related to outstanding borrowings incurred under our credit facilities. Changes in interest rates may increase interest expense payments with respect to any borrowings incurred under the credit facilities.

[Table of Contents](#)

Borrowings under our credit facilities incur interest, depending on our election, at a floating rate based upon SOFR plus a credit spread adjustment, the U.S. Federal Funds Rate or the U.S. Prime Rate, plus, in each case, a fixed spread. If appropriate, we may seek to reduce such exposure through the use of interest rate swaps or similar instruments. As of December 31, 2023, we had a total of \$330 million of borrowings outstanding under our credit facilities. The effect of a hypothetical 100 basis point increase in floating interest rates prevailing as of December 31, 2023 and continuing for a full year would increase interest expense by approximately \$3.3 million.

Item 4. Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Executive Chairman (our principal executive officer) and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). Based on that evaluation, the Company's Executive Chairman and Chief Financial Officer concluded that as of December 31, 2023 the Company's disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934) during the quarter ended December 31, 2023 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a defendant in various lawsuits. Although the outcome of these lawsuits cannot be predicted with certainty (including the extent of available insurance, if any), management does not believe that resolution of these lawsuits will have a material adverse effect on the Company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

As of December 31, 2023, the Company had approximately \$185 million remaining under the \$525 million Class A Common Stock share repurchase program authorized by the Company's Board of Directors on September 11, 2015. Under the authorization, shares of Class A Common Stock may be purchased from time to time in open market or private transactions, block trades or such other manner as the Company may determine, in accordance with applicable insider trading and other securities laws and regulations, with the timing and amount of purchases depending on market conditions and other factors. The Company has been funding and expects to continue to fund stock repurchases, if any, through a combination of cash on hand, cash generated by operations and available borrowing capacity under its existing credit facilities. During the three months ended December 31, 2023, the Company did not make any share repurchases under its share repurchase program.
