## **SunOpta Announces Further Expansion of Aseptic Processing and Packaging Capabilities to Meet Continued Growth in Demand**

TORONTO, April 8, 2014 (GLOBE NEWSWIRE) -- SunOpta Inc. ("SunOpta" or the "Company") (Nasdaq:STKL) (TSX:SOY), a leading global company focused on natural and organic foods, today announced further expansion to its aseptic processing and packaging operations in Modesto, California. In order to continue to meet committed customer demand and enable new growth opportunities, the Company will add a third processor at the Modesto facility. The installation is expected to be commissioned during the third quarter of 2014 and will increase processing capacity at the facility by approximately 33%, while also improving operating flexibility and efficiencies. The Company also expects to add additional aseptic filling lines at the Modesto plant over the course of 2014 in order to meet increased product demand from new and existing customers across a broad array of categories including non-dairy, nutritional beverages and dairy.

The Modesto, California aseptic processing and packaging operation was initially commissioned in 2010, and since that time has undergone a number of expansions to meet continued growing demand for low acid non-dairy products including soymilk, almond beverage and coconut milk, and other low acid products such as aseptic dairy and tea based beverages. The operation is paired with the Company's aseptic processing and packaging operation in Alexandria, Minnesota to strategically provide reliable and cost effective production from multiple operating facilities.

Steve Bromley, Chief Executive Officer, SunOpta Inc. commented, "We are excited about our latest growth initiatives in our value-added aseptic processing and packaging capabilities in Modesto. This expansion is an important step in enabling us to meet growing customer demand and will support new product innovation. Together with our Alexandria plant, we believe we are now the largest carton based low acid aseptic manufacturer in the United States, which offers key processing scale and geographic advantages to our customers. The continued investment in our aseptic platform is directly aligned with our core strategies to aggressively grow our value-added ingredients and packaged foods portfolio, and to leverage our integrated platform to become a pure play natural and organic foods company."

SunOpta's vertically integrated aseptic beverage capabilities are unique and utilize operations incorporating raw material sourcing through ingredient production and finished packaged products, ensuring control of quality and organic certification, as well as providing traceability from the farm to the retail shelf. Current production capabilities include soymilk, rice beverage, almond beverage, hemp milk, sunflower milk, ancient grain beverages, coconut based beverages, nutritional beverages, teas, dairy products and broths among others.

### **About SunOpta Inc.**

SunOpta Inc. is a leading global company focused on natural, organic and specialty foods products. The Company specializes in sourcing, processing and packaging of natural and organic food products, integrated from seed through packaged products with a focus on strategically vertically integrated business models. The Company's core natural and organic food operations focus on value-added grains, fiber and fruit based product offerings, supported by a global infrastructure. The Company has two non-core holdings, a 66% ownership position in Opta Minerals Inc., listed on the Toronto Stock Exchange, a producer, distributor, and recycler of environmentally friendly industrial materials; and a minority ownership position in Mascoma Corporation, an innovative biofuels company.

### **Forward-Looking Statements**

Certain statements included in this press release may be considered "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation, which are based on information available to us on the date of this release. These forward-looking statements include, but are not limited to, the estimated timing of completion and increased capacity resulting from the addition of a third processor and additional filling lines at its Modesto, CA plant, as well as our core strategies of growing our value-added ingredients and packaged foods portfolios and leveraging our integrated platform to become a pure play natural and organic foods company. Terms and phrases such as "continue", "will", "expected", "believe" and other similar terms and phrases are intended to identify these forward looking statements. Forward looking statements are based on information available to us on the date of this release and are based on estimates and assumptions made by the Company in light of its experience and its perception of historical trends, current

conditions and expected future developments as well as other factors the Company believes are appropriate in the circumstances including the time required to effect and increases in capacity as a result of prior expansion activities, that all third party and regulatory approvals will be obtained and that there are no material unanticipated variations in budgeted costs. The Company makes no representation that reasonable business people in possession of the same information would reach the same conclusions. Whether actual timing and results will agree with expectations and predications of the Company is subject to many risks and uncertainties including possible labour or construction delays in connection with the expansion of the facilities, potential installation, processing or other operational issues which might affect timing or capacity, issues with respect to throughput and product quality, delays with or inability to secure ingredients and consumer preferences and acceptance of our products, as well as other risks described from time to time under "Risk Factors" in the Company's Annual Report on Form 10-K and its Quarterly Reports on Form 10-Q (available at [www.sec.gov](http://www.sec.gov)). Consequently all forward-looking statements made herein are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by the Company will be realized.
