

Medical Mutual of Ohio to Offer Quicken Health Expense Tracker

New Online Tool for Simplifying and Organizing Health Care Information Available to 1.6 Million Members

CLEVELAND, Ohio and MOUNTAIN VIEW, Calif. – April 10, 2008 – [Medical Mutual of Ohio](#) will offer [Intuit Inc.](#)'s (Nasdaq: [INTU](#)) Quicken HealthSM Expense Tracker to its 1.6 million members.

Formerly named Quicken Health, [Quicken Health Expense Tracker](#) is an online tool that will be available at no extra cost to Medical Mutual members, helping them organize, understand and efficiently manage their medical claims and bills.

"Medical Mutual continues to be a leader in customer service," said Bob Mau, Medical Mutual vice president of eBusiness. "Offering Quicken Health Expense Tracker is another cutting-edge tool that will promote more cost-informed choices and greater satisfaction among our members."

The Quicken Health Group is working with [Ingenix](#), a leading health information technology company, to design [Open Medical Exchange](#), or OMX, the technology that will enable health plans to share health care benefits and expense information with consumers, in compliance with industry security and privacy regulations.

Expected to be in market by the end of this year, Quicken Health Expense Tracker has performed well in recent real-world consumer tests. Results overwhelmingly confirmed that the product addresses consumers' most important health care financial concerns, including knowing what to pay and why, providing insight into health care spending, helping find and fix errors, and making tax time easier. Overall, product users reported increased confidence in their ability to manage their health care expenses, make better decisions and know what to do next.

Crystal Foust, from Virginia Beach, Va., had an experience typical of many first-time users. "I love it!" she said. "Quicken Health Expense Tracker helps me manage my health care costs, see everything in one place and just makes it less overwhelming. It's a breath of fresh air and I can't wait for the final product."

The addition of Medical Mutual and the successful user test are a few of the many significant milestones that Intuit is reaching as it moves closer to bringing this new product to market.

"The addition of Medical Mutual of Ohio to the growing list of health plans scheduled to offer Quicken Health Expense Tracker is very exciting," said Peter Karpas, senior vice president and general manager for Intuit's Quicken Health Group. "Our goal is to fundamentally change the way people manage their health care, and it starts with forward-thinking plans like Medical Mutual."
