Forward-looking statements

This presentation contains forward-looking statements. There are a number of factors that could cause our results to differ materially from our expectations. See the section entitled “Cautions about forward-looking statements” in the accompanying Appendix for information regarding these statements and related risks and uncertainties. You can also learn more about these risks in our Form 10-K for fiscal 2021 and our other SEC filings, which are available on the Investor Relations page of Intuit’s website at www.intuit.com. We assume no obligation to update any forward-looking statement.

Non-GAAP financial measures

This presentation includes certain non-GAAP financial measures. See the section entitled “About non-GAAP financial measures” in the accompanying Appendix for an explanation of management’s use of these measures and reconciliations to the most directly comparable GAAP financial measures.

In this presentation, we may also announce plans or intentions regarding functionality that is not yet delivered. These statements do not represent an obligation to deliver this functionality to customers.

Some numbers may not agree with the sum of the components, nor with SEC filing(s), due to immaterial rounding adjustments. Financial results are reported under ASC 606 unless otherwise noted.

Intuit’s game plan to deliver for customers
Powering Prosperity Around the World
Our Values

Integrity Without Compromise
We speak the truth and assume best intent.
We value trust above all else.
We do the right thing, even when no one is looking.

Courage
We are bold and fearless in how we think and act.
We relentlessly hold a high bar for performance.
We value speed, a bias for learning and action.

Customer Obsession
We fall in love with our customers’ problems.
We deliver unrivaled customer benefit to power their prosperity.
We sweat every detail of the experience to deliver excellence.

Stronger Together
We champion diversity, inclusion, and a respectful environment.
We thrive on diverse voices to challenge and inform decisions.
We deliver exceptional results so others can count on us.

We Care And Give Back
We are stewards of the future.
We strengthen the communities around us.
We strive to give everyone the opportunity to prosper.

**Retail Employee**
TTO customer that adopts CK

As a single filer, Anna easily filed her 1040, without any schedules, in the TTO Free Federal Edition for no cost. In Year 2, Anna was married and filed itemized deductions in Deluxe jointly with her new husband. She didn’t have a bank account, so instead of waiting for a check again, she chose to deposit her federal refund into a Credit Karma Money account. In Year 3, they even found a new credit card in Credit Karma that helped them finance their dream vacation.

**Recent College Grad**
TTO customer that upgrades to TT Live and then adopts CK

Rachel started in TTO Deluxe as she filed her federal and state taxes with itemized deductions. She moved to Premier as she began dabbling in stocks, moving to Premier Live as her RSUs began to vest in Year 3. Along the way, she added Audit Defense in the MAX bundle and made a smart money decision by opening a Credit Karma Money account to get her federal refund deposited, and also by refinancing her auto loan through a personalized offer from Credit Karma.

**Marketing Professional**
CK member that adopts TTO Full Service

Rory is unemployed and has been accumulating credit card debt. He signed up for Credit Karma to understand and improve his credit score. In Year 2, he got a job as Marketing Manager and wanted to get his paycheck early so he opened a Credit Karma Money account to avoid fees and help him with building savings. In Year 3, Rory consolidated his debt so he could lower his overall interest cost through a personal loan obtained through Credit Karma. Rory also needed assistance with filing taxes; he opted for TTO Live Full Service Premier to let an expert handle his taxes for him.

Credit Karma vision
Autonomously help consumers save, pay down debt and get faster access to money

Help consumers find the right financial products
Match consumers with personalized offers on credit cards, loans and insurance, based on their data.

Put more money in consumers’ pockets
Maximize their tax refund, connect them to checking and savings accounts and enable faster access to their money.

Provide financial expertise and insights
Help consumers make better decisions about their money by delivering insights.
Help consumers find the right financial products

Match consumers with personalized offers on credit cards, loans and insurance, based on their data

OUTSTANDING BADGE: The outstanding badge on a financial offer from a loan or credit card partner lets the member know they have a high likelihood of being approved -- before they apply. Lightbox allows lenders to deploy targeting models in an encrypted environment, leveraging thousands of data points from Credit Karma members and Intuit customers to help determine approval with a high level of certainty; more than double the average approval rate for credit cards booked outside of Credit Karma.

KARMA DRIVE: Karma Drive, in partnership with a leading insurance provider, gives members in the U.S. an easy opportunity to try out usage-based insurance to see if their driving habits might qualify them for a discount on their auto insurance without committing to a new policy.

HOME PULSE: Home Pulse tracks the equity of members’ homes and connects them with the right products, like cash-out refinance and a home equity line of credit, to maximize their borrowing power based on the equity in their home.
Maximize their tax refund, connect them to checking and interest-bearing savings accounts and enable faster access to their money

INTRODUCE CONSUMERS TO CREDIT KARMA MONEY: Credit Karma Money helps members change their relationship with money, with a focus on saving for the future, paying bills on time and building wealth. It offers the opportunity for TurboTax customers to deposit up to $105B in tax refunds and eligible QuickBooks Payroll customers to deposit up to $232B of payroll into a new Credit Karma Money interest-bearing savings and checking accounts with no fees from Credit Karma.

ENABLE FASTER ACCESS TO MONEY: Use Intuit’s financial data and money platforms to help consumers pay down debt and access paychecks early.

BILL TRACKING AND NOTIFICATIONS: Provide tracking and notifications designed to remind members of upcoming bills so they can make on-time or early payments and protect their credit.

Put more money in consumers’ pockets
Provide financial expertise and insights

Help consumers make better decisions about their money by delivering insights

COMPLETE PROFILE: By combining Credit Karma credit and assets data with Intuit’s verified income and cash flow data, we can offer unparalleled financial insights to help members understand their complete financial picture.

TAILORED INSIGHTS AND AUTOMATION: Use machine learning to provide optimal credit building, borrowing and saving strategies while automating and simplifying the process to remove friction, inertia and complexity.

BUILD WEALTH: Enable the combined customer base to build wealth and achieve financial goals through education and a unified, comprehensive suite of financial products.

Some features noted may not be live at this time – auto payments.

Our trusted brands will deliver breakthrough benefits that improve members’ lives.
Credit Karma’s data platform and recurring engagement creates powerful network effects, driving revenue growth

**Financial Partners Win**

Credit Karma financial partners win because we help our members understand how likely it is that they will be approved for a financial product before they apply. With Lightbox, members who apply for products through Credit Karma have more than double the average approval rate for credit cards booked outside of Credit Karma.

**Members Win**

Credit Karma members win because we match them to financial products that are personalized for their financial situation. When they apply for a product through Credit Karma, they have a high likelihood of approval. The average consumer has no idea what products they qualify for (81% of subprime credit card applications are rejected), so on Credit Karma, they are less likely to waste time applying for products they aren’t qualified for and don’t hurt their credit when they are denied for those products.

**Credit Karma Wins**

Credit Karma wins because when a member is approved for a financial product we recommend, we typically get paid. We also build further trust with our members. Over time we create a virtuous cycle, as we have more offers on the platform, we attract more members. We help our partners market their products more efficiently and effectively, allowing them to personalize offer for the members, allowing us to gain share of wallet within more mature verticals and grow into new verticals.

Prosperity based on customers on Intuit's platform.
Financial principles remain enduring

**Grow organic revenue double digits**
- Customer growth fueled by delivery of the customer benefit
- Grow average revenue per customer

**Operating income dollars grow faster than revenue**
- Revenue grows faster than expense
- Acceptable LTV/CAC as we grow online

**Deploy cash to the highest-yield opportunities - targeting 15% ROI over 5 years**
- Investing in organic growth drivers (R&D, infrastructure, sales & marketing)
- Use acquisitions to accelerate growth in talent and technology

**Return excess cash to shareholders via dividend and share repurchase**
- Utilize grid to achieve favorable volume weighted average price targeting a return >= Intuit’s WACC
- Dividends expected to grow at or slightly ahead of earnings

**Maintain a strong balance sheet**
- Net cash position at the end of FY and average cash balance of $700M net of debt due in 2 years
- Maintain investment grade rating
Combined platform revenue driving revenue growth

- QuickBooks Online, TurboTax Online, and Credit Karma revenue grew 39% to $6.6B in FY’21
- Small business online ecosystem revenue grew 26% in FY’21
- >80% of Intuit’s FY’22 revenue is expected to come from existing customers

Prioritizing investment opportunities is in our DNA

Investing to drive customer, revenue and operating income growth

**Investing in highest-yielding opportunities**

- Investing to drive durable growth
- Focusing on organic growth drivers and M&A that will accelerate speed and velocity
- Making deliberate trade offs and investment decisions based on our financial principles

**Areas of Investment Include:**

- Revolutionize speed to benefit
- Connect people to experts
- Unlock smart money decisions
- Be the center of small business growth
- Disrupt the small business mid-market
A track record of margin expansion

Platform strategy drives margin expansion over time

- GAAP guidance in FY’22 implies operating margin declines just over 2 points, due to investments in stock-based compensation, and full year impact of the Credit Karma acquisition.

- Non-GAAP guidance in FY’22 implies operating margin expands an average of a point each year since FY’19, even though our initial guidance after closing the Credit Karma acquisition included a negative 2-point operating margin impact.

- In FY’21, non-GAAP operating margin expanded by ~140 bps.
Overall capital allocation

A healthy mix of uses of capital

- Investing in organic growth drivers (R&D, infrastructure, sales & mktg)
- Use acquisitions to accelerate speed and velocity, growth in talent and technology and fill out our product roadmap
- 15% increase in cash dividend in FY’22
- % of FCF returned to shareholders remains strong
- Expect capex as % of revenue ~2-3% going forward

Share repurchase guiding principles

Our intent is to be in the market each quarter, guided by these principles

Share repurchase is used to return cash to shareholders in the absence of acceptable investment opportunities

1. At a maximum, we limit repurchase amounts to:
   - Cash in excess of liquidity needs
   - Price level defined by “smart grid” to exceed cost of capital on average

2. At a minimum, we expect share repurchases to offset dilution from stock-based compensation over a 3-year period

About non-GAAP financial measures

The accompanying presentation contains non-GAAP financial measures. Table 1, Table 2 and Table 3 reconcile the non-GAAP financial measures in the presentation to the most directly comparable financial measures prepared in accordance with Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures include non-GAAP operating income (loss), non-GAAP net income (loss), and non-GAAP net income (loss) per share.

Non-GAAP financial measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names, and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

We compute non-GAAP financial measures using the same consistent method from quarter to quarter and year to year. We may consider whether other significant items that arise in the future should be excluded from our non-GAAP financial measures.

We exclude the following items from all of our non-GAAP financial measures:
• Share-based compensation expense
• Amortization of acquired technology
• Amortization of other acquired intangible assets
• Goodwill and intangible asset impairment charges
• Gains and losses on disposals of businesses and long-lived assets
• Professional fees for business combinations

We also exclude the following items from non-GAAP net income (loss) and diluted net income (loss) per share:
• Gains and losses on debt and equity securities and other investments
• Income tax effects and adjustments
• Discontinued operations

We believe that these non-GAAP financial measures provide meaningful supplemental information regarding Intuit’s operating results primarily because they exclude amounts that we do not consider part of ongoing operating results when planning and forecasting and when assessing the performance of the organization, our individual operating segments, or our senior management. We believe our non-GAAP financial measures also facilitate the comparison by management and investors of results for current periods and guidance for future periods with results for past periods.
About non-GAAP financial measures (cont.)

The following are descriptions of the items we exclude from our non-GAAP financial measures.

Share-based compensation expenses. These consist of non-cash expenses for stock options, restricted stock units, and our Employee Stock Purchase Plan. When considering the impact of equity awards, we place greater emphasis on overall shareholder dilution rather than the accounting charges associated with those awards.

Amortization of acquired technology and amortization of other acquired intangible assets. When we acquire a business in a business combination, we are required by GAAP to record the fair values of the intangible assets of the entity and amortize them over their useful lives. Amortization of acquired technology in cost of revenue includes amortization of software and other technology assets of acquired entities. Amortization of other acquired intangible assets in operating expenses includes amortization of assets such as customer lists, covenants not to compete, and trade names.

Goodwill and intangible asset impairment charges. We exclude from our non-GAAP financial measures non-cash charges to adjust the carrying values of goodwill and other acquired intangible assets to their estimated fair values.

Gains and losses on disposals of businesses and long-lived assets. We exclude from our non-GAAP financial measures gains and losses on disposals of businesses and long-lived assets because they are unrelated to our ongoing business operating results.

Professional fees for business combinations. We exclude from our non-GAAP financial measures the professional fees we incur to complete business combinations. These include investment banking, legal, and accounting fees.

Gains and losses on debt and equity securities and other investments. We exclude from our non-GAAP financial measures gains and losses that we record when we sell or impair available-for-sale debt and equity securities and other investments.

Income tax effects and adjustments. We use a long-term non-GAAP tax rate for evaluating operating results and for planning, forecasting, and analyzing future periods. This long-term non-GAAP tax rate excludes the income tax effects of the non-GAAP pre-tax adjustments described above, and eliminates the effects of non-recurring and period specific items which can vary in size and frequency. Based on our current long-term projections, we are using a long-term non-GAAP tax rate of 24% for fiscal 2021 and fiscal 2022. This long-term non-GAAP tax rate could be subject to change for various reasons including significant changes in our geographic earnings mix or fundamental tax law changes in major jurisdictions in which we operate. We evaluate this long-term non-GAAP tax rate on an annual basis and whenever any significant events occur which may materially affect this rate.

Operating results and gains and losses on the sale of discontinued operations. From time to time, we sell or otherwise dispose of selected operations as we adjust our portfolio of businesses to meet our strategic goals. In accordance with GAAP, we segregate the operating results of discontinued operations as well as gains and losses on the sale of these discontinued operations from continuing operations on our GAAP statements of operations but continue to include them in GAAP net income or loss and net income or loss per share. We exclude these amounts from our non-GAAP financial measures.

See "About Non-GAAP Financial Measures" immediately preceding this Table 1 for information on these measures, the items excluded from the most directly comparable GAAP measures in arriving at non-GAAP financial measures, and the reasons management uses each measure and excludes the specified amounts in arriving at each non-GAAP financial measure.

[A] During fiscal 2021, we recorded a $30 million gain from the sale of a note receivable that was previously written off.

[B] As discussed in "About Non-GAAP Financial Measures - Income Tax Effects and Adjustments" immediately preceding this Table 1, our long-term non-GAAP tax rate eliminates the effects of non-recurring and period-specific items. Income tax adjustments consist primarily of the tax impact of the non-GAAP pre-tax adjustments and the excess tax benefits on share-based compensation.

[a] Reflects estimated adjustments for share-based compensation expense of approximately $1,172 million; amortization of acquired technology of approximately $59 million; and amortization of other acquired intangibles of approximately $214 million.

[b] Reflects estimated adjustments in item [a], income taxes related to these adjustments, and other income tax effects related to the use of the non-GAAP tax rate. We expect a non-GAAP tax rate of 24% in fiscal 2022.

To supplement our statements of cash flows prepared in accordance with GAAP, we use free cash flow to analyze cash flow generated from operations. We define free cash flow as net cash provided by operating activities less total capital expenditures. This non-GAAP financial measure should not be considered as a substitute for, or superior to, GAAP net income as an indicator of our operating performance or GAAP cash flows from operating activities as a measure of our liquidity.
Cautions about forward-looking statements

Except for historical or current facts, the content in this presentation contains forward-looking statements, which include expectations regarding our prospects for the business in fiscal 2022 and beyond; our growth outside the US; the timing and growth of revenue for each of Intuit’s reporting segments and from current or future products and services; our customer growth; our corporate tax rate; changes to our products and their impact on our business; the amount and timing of any future dividends or share repurchases; the availability of our offerings; the timing and impact of our strategic decisions and initiatives on our business and reputation; and the timing, completion and impact of our proposed Mailchimp acquisition.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from the expectations expressed in the forward-looking statements. These risks and uncertainties may be amplified by the COVID-19 pandemic, which continues to cause global economic instability and uncertainty. Given these risks and uncertainties, you are cautioned not to place any undue reliance on such forward-looking statements. These factors include, without limitation, the following: our ability to compete successfully; potential governmental encroachment in our tax businesses; our ability to adapt to technological change; our ability to predict consumer behavior; our reliance on third-party intellectual property; our ability to protect our intellectual property rights; any harm to our reputation; risks associated with acquisition and divestiture activity, including our proposed acquisition of Mailchimp; the issuance of equity or incurrence of debt to fund an acquisition; any cybersecurity incidents that may affect us (including those affecting the third parties we rely on); customer concerns about privacy and cybersecurity incidents; fraudulent activities by third parties using our offerings; our failure to process transactions effectively; interruption or failure of our information technology; our ability to maintain critical third-party business relationships; our ability to attract and retain talent; any deficiency in the quality or accuracy of our products (including the advice given by experts on our platform); any delays in product launches; difficulties in processing or filing customer tax submissions; risks associated with international operations; changes to public policy, laws or regulations affecting our businesses; litigation in which we are involved; the seasonal nature of our tax business; changes in tax rates and tax reform legislation; global economic changes; exposure to credit, counterparty or other risks in providing capital to businesses; amortization of acquired intangible assets and impairment charges; our ability to repay or otherwise comply with the terms of our outstanding debt; our ability to repurchase shares or distribute dividends; volatility of our stock price; and our ability to successfully market our offerings.

More details about these and other risks that may impact our business are included in our Form 10-K for fiscal 2021 and in our other SEC filings. You can locate these reports through our website at http://investors.intuit.com. Forward-looking statements represent the judgment of the management of Intuit as of the date of this presentation. We do not undertake any duty to update any forward-looking statement or other information in this presentation.
