(a) Net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA should not be considered as measures of financial performance under generally accepted accounting principles ("GAAP"). These non-GAAP financial measures are adjusted to exclude losses (gains) on sales of facilities and losses on retirement of debt. We believe net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA are important measures that supplement discussions and analysis of our results of operations. We believe it is useful to investors to provide disclosures of our results of operations on the same basis used by management. Management relies upon net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA as the primary measures to review and assess operating performance of its health care facilities and their management teams.

Management and investors review both the overall performance (including net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and GAAP net income attributable to HCA Healthcare, Inc.) and operating performance (Adjusted EBITDA) of our health care facilities. Adjusted EBITDA and the Adjusted EBITDA margin (Adjusted EBITDA divided by revenues) are utilized by management and investors to compare our current operating results with the corresponding periods during the previous year and to compare our operating results with other companies in the health care industry. It is reasonable to expect that adjustments, including losses (gains) on sales of facilities and losses on retirement of debt will occur in future periods, but the amounts recognized can vary significantly from period to period, do not directly relate to the ongoing operations of our health care facilities and complicate period comparisons of our results of operations and operations comparisons with other health care companies.

Net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA are not measures of financial performance under GAAP, and should not be considered as alternatives to net income attributable to HCA Healthcare, Inc. as a measure of operating performance or cash flows from operating, investing and financing activities as a measure of liquidity. Because net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA are not measurements determined in accordance with GAAP and are susceptible to varying calculations, net income attributable to HCA Healthcare, Inc., as adjusted, diluted earnings per share, as adjusted, and Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures presented by other companies.
