

Valaris Reports Fourth Quarter 2025 Results

Hamilton, Bermuda, February 19, 2026... Valaris Limited (NYSE: VAL) ("Valaris" or the "Company") today reported fourth quarter 2025 results.

President and Chief Executive Officer Anton Dibowitz said, "Our fourth quarter results capped another year of strong execution by the Valaris team. We delivered revenue efficiency of 98% for the quarter and 96% for full year 2025, marking our fifth consecutive year of revenue efficiency at or above 96%. Our employees' unwavering focus on operational excellence continues to be acknowledged by customers and is a core driver of our overall results."

Dibowitz added, "Our strong operating performance continues to translate into significant contracting success. Since our last quarterly report, we secured nearly \$900 million of additional backlog, further strengthening our robust contract coverage across 2026 and 2027. After addressing the white space on our open drillship capacity earlier this year, we recently announced contract awards for VALARIS DS-7 and DS-9, and we expect all ten of our active drillships to be working as we enter 2027, which was a key objective for us."

Dibowitz concluded, "Earlier this month, we were pleased to announce an all-stock transaction with Transocean that delivers meaningful value to Valaris shareholders, who will benefit from associated synergies and have the opportunity to participate in the future upside potential of the combined company. We believe the outlook for the offshore drilling industry remains positive, with customers continuing to emphasize the need for sustained upstream investment to help ensure secure, reliable and affordable energy supply."

Financial and Operational Highlights

- Total operating revenues of \$537 million, with revenue efficiency of 98%
- Net income of \$717 million, which includes a tax benefit of \$680 million
- Adjusted EBITDA of \$97 million
- VALARIS 115 awarded Shell's 2025 Jackup Rig of the Year
- Secured nearly \$900 million of new contract backlog since reporting third quarter 2025 results, including for drillships VALARIS DS-7, DS-8 and DS-9, increasing total backlog to approximately \$4.7 billion
- Further high-graded fleet with sale of jackups VALARIS 102 and 145 for recycling and classified semisubmersible VALARIS DPS-1 as held for sale with the intent to recycle
- Repurchased \$25 million of shares during the fourth quarter and \$100 million during the year

Fourth Quarter Review

Net income of \$717 million compared to \$187 million in the third quarter 2025. Net income included a tax benefit of \$680 million, which is further described below, compared to tax expense of \$29 million in the third quarter. Net income also included a gain on sale of assets of \$1 million compared to \$90 million in the third quarter. Adjusted EBITDA of \$97 million compared to \$163 million in the third quarter.

Revenues exclusive of reimbursable items decreased to \$502 million from \$556 million in the third quarter 2025 primarily due to fewer operating days for the floater fleet, the sale of jackup VALARIS 247, which contributed one month of revenue in the third quarter, and lower bareboat charter revenues from rigs leased to ARO Drilling.

Exclusive of reimbursable items, contract drilling expenses increased to \$380 million from \$368 million in the third quarter 2025 primarily due to higher repair costs associated with planned maintenance projects, an increase in accruals related to certain claims and higher mobilization expenses. These items were partially offset by lower costs due to fewer operating days for the floater fleet and the sale of jackup VALARIS 247 during the third quarter.

Fourth quarter 2025 included a \$20 million loss on impairment primarily related to the classification of semisubmersible VALARIS DPS-1 as held for sale. Depreciation expense increased to \$41 million from \$37 million in the third quarter 2025 primarily due to new assets placed in service following shipyard projects. General and administrative expenses of \$27 million were in line with the third quarter.

Other expense of \$3 million compared to other income of \$85 million in the third quarter 2025 primarily due to a gain on the sale of jackup VALARIS 247 in the third quarter.

Tax benefit of \$680 million compared to tax expense of \$29 million in the third quarter 2025. The fourth quarter tax provision included \$691 million of tax benefit related to changes in deferred tax asset valuation allowances in certain operating jurisdictions and a \$7 million discrete tax benefit primarily attributable to rig impairments. Adjusted for these items, tax expense decreased to \$18 million from \$29 million in the third quarter.

Capital expenditures increased to \$106 million from \$70 million in the third quarter 2025 primarily due to shipyard projects for two rigs leased to ARO that commenced during the fourth quarter, as well as higher maintenance and upgrade spending across the fleet.

Cash and cash equivalents decreased to \$599 million as of December 31, 2025, from \$663 million as of September 30, 2025. The decrease was due to capital expenditures and share repurchases, partially offset by cash flow from operations.

Fourth Quarter Segment Review

Floater

Revenues exclusive of reimbursable items decreased to \$255 million from \$293 million in the third quarter 2025 primarily due to drillships VALARIS DS-15 and DS-18 completing contracts mid-third quarter without immediate follow-on work and semisubmersibles VALARIS MS-1 and DPS-1 completing contracts mid-fourth quarter. Both drillships are scheduled to commence new contracts in the second half of 2026, while both semisubmersibles have been mobilized to Malaysia and are currently stacked.

Exclusive of reimbursable items, contract drilling expenses increased to \$198 million from \$188 million in the third quarter 2025. The increase was primarily due to higher repair costs associated with planned maintenance projects, an increase in accruals related to certain claims and higher mobilization expenses for VALARIS DPS-1 and MS-1 given their mobilization to Malaysia. These items were partially offset by cost reductions for VALARIS DS-15 and DS-18, which completed contracts mid-third quarter and were idle during the fourth quarter.

Jackups

Revenues exclusive of reimbursable items decreased to \$209 million from \$217 million in the third quarter 2025 primarily due to the sale of VALARIS 247, which contributed one month of revenue in the third quarter.

Exclusive of reimbursable items, contract drilling expenses decreased to \$121 million from \$125 million in the third quarter 2025 primarily due to the sale of VALARIS 247 during the third quarter.

ARO Drilling

Revenues decreased to \$140 million from \$157 million in the third quarter 2025 primarily due to more out of service time related to planned shipyard projects for VALARIS 116 and 250. Contract drilling expenses decreased to \$87 million from \$92 million in the third quarter 2025 primarily due to lower bareboat charter expenses.

Other

Revenues exclusive of reimbursable items decreased to \$38 million from \$46 million in the third quarter 2025 primarily due to lower bareboat charter revenues from rigs leased to ARO, resulting from the above-mentioned out of service time. Exclusive of reimbursable items, contract drilling expenses increased to \$21 million from \$16 million in the third quarter primarily due to higher costs related to the above-mentioned shipyard projects for leased rigs.

nm - Not meaningful

⁽¹⁾ The full operating results included above for ARO are not included within our consolidated results and thus deducted under "Reconciling Items" and replaced with our equity in earnings of ARO.

⁽²⁾ Our onshore support costs included within contract drilling expenses are not allocated to our operating segments for purposes of measuring segment operating income (loss) and as such, these costs are included in "Reconciling Items." Further, general and administrative expense and depreciation expense incurred by our corporate office are not allocated to our operating segments for purposes of measuring segment operating income (loss) and are included in "Reconciling Items."

FY 2026 Financial Guidance

- Total operating revenues of \$2,125 - 2,205 million
- Adjusted EBITDA of \$485 - 565 million, which excludes costs associated with the pending business combination with Transocean Ltd. announced on February 9, 2026
- Capital expenditures of \$425 - 475 million
- Upfront payments from customers related to contract-specific upgrades of approximately \$110 million

Senior Vice President and Chief Financial Officer Chris Weber said, “We expect that our financial results will improve meaningfully across the year as our currently idle drillships return to work. Two drillships are expected to return to work in the second quarter, one in the third quarter and one in the fourth quarter.”

Weber added, “Given our strong commercial execution, approximately 97% of full-year 2026 revenue at the midpoint of our revenue guidance range is secured by firm contracts.”

Weber continued, “Approximately \$260 million of our 2026 capex guidance is for maintenance and upgrade work, including deferred maintenance projects for drillships returning to work after idle periods and special periodic surveys for several jackups. The remaining capex relates to contract-specific upgrades, including for jackups VALARIS 116 and 250 prior to continuing long-term bareboat charters with ARO and for three drillships being upgraded with Managed Pressure Drilling systems, two of which will be the advanced CML design. These contract-specific upgrades are expected to be partially offset by upfront payments from customers of approximately \$110 million.”

Conference Call

In light of the pending business combination with Transocean Ltd., which was announced on February 9, 2026, Valaris has previously cancelled its fourth quarter 2025 conference call and does not intend to hold future earnings conference calls or provide updates to forward-looking guidance.

About Valaris Limited

Valaris Limited (NYSE: VAL) is an industry leader in offshore drilling services across all water depths and geographies. Operating a high-quality rig fleet of ultra-deepwater drillships, versatile semisubmersibles, and modern shallow-water jackups, Valaris has experience operating in nearly every major offshore basin. Valaris maintains an unwavering commitment to safety, operational excellence, and customer satisfaction, with a focus on technology and innovation. Valaris Limited is a Bermuda exempted company limited by shares (Bermuda No. 56245). To learn more, visit the Valaris website at www.valaris.com.

Forward-Looking Statements

Statements contained in this press release that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include words or phrases such as "anticipate," "believe," "estimate," "expect," "intend," "likely," "outlook," "plan," "project," "could," "may," "might," "should," "will" and similar words and specifically include statements regarding expected financial performance; expected utilization, day rates, revenues, operating expenses, cash flows, contract status, terms and duration, contract backlog, capital expenditures, insurance, financing and funding; the offshore drilling market, including supply and demand, customer drilling programs and the attainment of requisite permits for such programs, stacking of rigs, effects of new rigs on the market and effect of the volatility of commodity prices; expected work commitments, awards, contracts and letters of intent; scheduled delivery dates for rigs; performance and expected benefits of our joint ventures, including our joint venture with Saudi Aramco; timing of the delivery of the Saudi Aramco Rowan Offshore Drilling Company ("ARO") newbuild rigs and the timing of additional ARO newbuild orders; the availability, delivery, mobilization, contract commencement, availability, relocation or other movement of rigs and the timing thereof; rig reactivations; suitability of rigs for future contracts; divestitures of assets; general economic, market, business and industry conditions, trends and outlook; general political conditions, including political tensions, conflicts and war; cybersecurity attacks and threats; uncertainty around the use and impacts of artificial intelligence applications; impacts and effects of public health crises, pandemics and epidemics; future operations; ability to renew expiring contracts or obtain new contracts; increasing regulatory complexity; targets, progress, plans and goals related to sustainability matters; the outcome of tax disputes; assessments and settlements; and expense management. The forward-looking statements contained in this press release are subject to numerous risks, uncertainties and assumptions that may cause actual results to vary materially from those indicated, including risks associated with the pending proposed transaction with Transocean Ltd., including, among others, the completion of the proposed transaction on the anticipated terms and timing, or at all, the risk that disruptions from the transaction will harm our business, including current plans and operations, the diversion of management's time and attention from ordinary course operations to completion of the proposed transaction and certain restrictions during the pendency of the proposed transaction that may impact our business; cancellation, suspension, renegotiation or termination of drilling contracts and programs; our ability to obtain financing, service our debt, fund capital expenditures and pursue other business opportunities; adequacy of sources of liquidity for us and our customers; future share repurchases; actions by regulatory authorities, or other third parties; actions by our security holders; internal control risk; commodity price fluctuations and volatility, customer demand, loss of a significant customer or customer contract, downtime and other risks associated with offshore rig operations; adverse weather, including hurricanes; changes in worldwide rig supply; and demand, competition and technology; supply chain and logistics challenges; consumer preferences for alternative fuels and forecasts or expectations regarding the global energy transition; increased scrutiny of our sustainability targets, initiatives and reporting and our ability to achieve such targets or initiatives; changes in customer strategy; future levels of offshore drilling activity; governmental action, civil unrest and political and economic uncertainties, including recessions, inflation, volatility affecting financial markets and the banking system, changing tariff policies, trade disputes, and adverse changes in the level of international trade activity; terrorism, piracy and military action; risks inherent to shipyard upgrade, repair, maintenance, enhancement or rig reactivation; our ability to enter into, and the terms of, future drilling contracts; suitability of rigs for future contracts; the cancellation of letters of intent or letters of award or any failure to execute definitive contracts following announcements of letters of intent, letters of award or other expected work commitments; the outcome of litigation, legal proceedings, investigations or other claims or contract disputes; governmental regulatory, legislative and permitting requirements affecting drilling operations; our ability to attract and retain skilled personnel on commercially reasonable terms; the use of artificial intelligence by us, third-party service providers or our competitors; environmental or other liabilities, risks or losses; compliance with our debt agreements and debt restrictions that may limit our liquidity and flexibility, including in any return of capital plans; cybersecurity risks and threats; and changes in foreign currency exchange rates. In addition to the numerous factors described above, you should also carefully read and consider "Item 1A. Risk Factors" in Part I and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II of our most recent annual report on Form 10-K, which is available on the Securities and Exchange Commission's website at www.sec.gov or on the Investor Relations section of our website at www.valaris.com. Each forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to update or revise any forward-looking statements, except as required by law.

⁽¹⁾ Our contract drilling backlog reflects commitments, represented by signed drilling contracts, and is calculated by multiplying the contracted day rate by the contract period. Contract drilling backlog may include drilling contracts subject to final investment decision ("FID") and drilling contracts which grant the customer termination rights if FID is not received with respect to projects for which the drilling rig is contracted. The contracted day rate excludes certain types of lump sum fees for rig mobilization, demobilization, contract preparation, as well as customer reimbursables and bonus opportunities.

(1) Rig utilization is derived by dividing the number of operating days by the number of available days in the period for the active fleet. Available days is defined as the maximum number of days available in the period for the active fleet, calculated by multiplying the number of active rigs in each asset category by the number of days in the period.

(2) Active fleet represents rigs that are not preservation stacked or held for sale and includes rigs that are in the process of being reactivated.

(3) Includes all Valaris jackups including those leased to ARO Drilling.

(1) Represents the total number of days under contract in the period. Days under contract equals the total number of days that rigs have earned and recognized day rate revenue, including days associated with compensated downtime and mobilizations. When revenue is deferred and amortized over a future period, for example when we receive fees while mobilizing to commence a new contract or while being upgraded in a shipyard, the related days are excluded from days under contract.

ARO Drilling condensed income statement information presented above represents 100% of ARO. Valaris has a 50% ownership interest in ARO.

ARO DRILLING
OPERATING STATISTICS
(Unaudited)

| (In millions) | As of | | | | |
|--|-------------------|-------------------|-------------------|-------------------|-------------------|
| | Feb 17, 2026 | Oct 23, 2025 | Jul 24, 2025 | Apr 30, 2025 | Feb 18, 2025 |
| CONTRACT BACKLOG ⁽¹⁾ | | | | | |
| Owned Rigs | \$ 778.0 | \$ 879.9 | \$ 970.1 | \$ 1,054.4 | \$ 1,124.9 |
| Leased Rigs | 1,233.3 | 1,284.7 | 1,379.2 | 1,440.9 | 298.0 |
| Total | \$ 2,011.3 | \$ 2,164.6 | \$ 2,349.3 | \$ 2,495.3 | \$ 1,422.9 |

⁽¹⁾ Contract drilling backlog reflects commitments, represented by signed drilling contracts, and is calculated by multiplying the contracted day rate by the contract period. The contracted day rate excludes certain types of lump sum fees for rig mobilization, demobilization, contract preparation, as well as customer reimbursables and bonus opportunities.

| OPERATING DAYS ⁽⁵⁾ | | | | | |
| Owned Rigs | 778 | 792 | 761 | 748 | 739 |
| Leased Rigs ⁽²⁾ | 455 | 532 | 481 | 503 | 509 |
| Total | 1,233 | 1,324 | 1,242 | 1,251 | 1,248 |

⁽¹⁾ Average daily revenue is derived by dividing Revenues (exclusive of reimbursable revenues), excluding contract termination fees, by the aggregate number of operating days.

⁽²⁾ All ARO leased rigs are leased from Valaris.

⁽³⁾ Rig utilization is derived by dividing the number of operating days by the number of available days in the period for the rig fleet.

⁽⁴⁾ Revenue efficiency is day rate revenue earned as a percentage of maximum potential day rate revenue.

⁽⁵⁾ Represents the total number of days under contract in the period. Days under contract equals the total number of days that rigs have earned and recognized day rate revenue, including days associated with compensated downtime and mobilizations. When revenue is deferred and amortized over a future period, for example when we receive fees while mobilizing to commence a new contract or while being upgraded in a shipyard, the related days are excluded from days under contract.

Non-GAAP Financial Measures (Unaudited)

To supplement Valaris' condensed consolidated financial statements presented on a GAAP basis, this press release provides investors with Adjusted EBITDA, which is a non-GAAP measure.

Valaris defines "Adjusted EBITDA" as net income (loss) before income tax expense, interest expense, other (income) expense, depreciation expense, loss on impairment, (gain) loss on sale of property, and equity in (earnings) losses of ARO. Adjusted EBITDA is a non-GAAP measure that our management uses to facilitate period-to-period comparisons of our core operating performance and to evaluate our long-term financial performance against that of our peers. We believe that this measure is useful to investors and analysts in allowing for greater transparency of our core operating performance and makes it easier to compare our results with those of other companies within our industry. Adjusted EBITDA should not be considered (a) in isolation of, or as a substitute for, net income (loss), (b) as an indication of cash flows from operating activities, or (c) as a measure of liquidity. Adjusted EBITDA may not be comparable to other similarly titled measures reported by other companies.

Valaris defines "ARO Adjusted EBITDA" as ARO's net income (loss) before income tax expense, other expense, net, and depreciation expense. ARO Adjusted EBITDA is a non-GAAP measure that our management uses to facilitate period-to-period comparisons of ARO's core operating performance and to evaluate ARO's long-term financial performance against that of ARO's peers. We believe that this measure is useful to investors and analysts in allowing for greater transparency of ARO's core operating performance and makes it easier to compare ARO's results with those of other companies within ARO's industry. ARO Adjusted EBITDA should not be considered (a) in isolation of, or as a substitute for, net income (loss), (b) as an indication of cash flows from operating activities, or (c) as a measure of liquidity. ARO Adjusted EBITDA may not be comparable to other similarly titled measures reported by other companies.

The Company is not able to provide a reconciliation of the Company's forward-looking Adjusted EBITDA, to the most directly comparable GAAP measure without unreasonable effort because of the inherent difficulty in forecasting and quantifying certain amounts necessary for such a reconciliation, including forward-looking tax expense and other income (expense).

Non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures prepared in accordance with GAAP.

Reconciliation of Net Income (Loss) to Adjusted EBITDA

A reconciliation of net income as reported to Adjusted EBITDA is included in the tables below (in millions):

| | Three Months Ended | |
|------------------------------|--------------------|-----------------|
| | Dec 31, 2025 | Sep 30, 2025 |
| VALARIS | | |
| Net income | \$ 716.8 | \$ 187.3 |
| Add (subtract): | | |
